3.1.4 Local Number Portability (LNP)

LNP is an intelligent network function that allows a telephone customer the ability to keep their existing phone number while changing their telecommunications service provider, and is available throughout the service areas itemized in Section 3, paragraph 3.2. LNP is currently available in Cleveland LATA 320. LNP is available within a rate center or the smallest sub-zone of a rate center. The rate centers mirror those of Ohio Bell Telephone within LATA 320 and are detailed in the Local Exchange Routing Guide (LERG).

Regulations:

A customer must keep the same address where they currently receive service or if a customer is moving to a new location, the new service address must be within the same rate center as the old service address.

The customer must keep the same level of service (DID, T1, etc.) that they had with the old service provider.

SECTION 5 – RATES5.4 Toll Free Inter-Exchange Delivery Service

Toll Free Inter-Exchange Delivery Service is an access service in which the Company transports Toll Free traffic originated by a third party who is not an end user or other user of the Company's local exchange or exchange access service through its wire center to an Interexchange Customer. It provides for the use of the Tandem Switching, Tandem Termination, and Tandem Transport facilities of the Company. In a Toll Free Inter-Exchange Delivery Service call, the Company will not charge Carrier Common Line, Local End Office Switching, or End Office Port charges. The rates for Toll Free Inter-Exchange Delivery Service set forth below are usage sensitive. Records exchange, rating, and billing for Toll Free Inter-Exchange Delivery Service is subject to the provisions of the Multiple Exchange Carrier Access Billing Guidelines (MECAB).

	<u>Rate</u>
Tandem Switching	\$0.000124
Tandem Transport Termination	\$0.0000794
