Dear Ms. Jenkins:

Pursuant to the October 22, 2008 Entry in the above-captioned case, DEO is submitting for the Commission's review and approval the following proposed tariff sheets, which are attached:

- General Sales Service – Low Usage Heat Pilot Program (GSS-LU)
- Energy Choice Transportation Service – Low Usage Heat Pilot Program (ECTS-LU)

In the October 15, 2008 Opinion and Order in this case, the Commission ordered DEO to consult with Staff and the parties to "establish eligibility qualifications for [the low-income pilot] program by . . . determining and setting the maximum low-usage volume projected to result in the inclusion of 5,000 low-income customers who are determined to be at or below 175 percent of the poverty level." Opin. & Order, p. 26-27. Subsequent to the Commission's approval of the draft tariffs in the October 22, 2008 Entry, DEO worked with the Commission Staff to determine an annual low-usage volume of 70 Mcf reflected in the attached tariffs designed to result in 5,000 eligible customers for the pilot program. DEO circulated to the parties and solicited comments regarding the attached tariffs via electronic mail on February 5, 2009.

DEO received comments from one party regarding the proposed tariffs sheets. The Office of the Ohio Consumers' Counsel ("OCC") informed DEO that it did not agree with the 70 Mcf eligibility qualification contained in the proposed tariffs. Nevertheless, OCC informed DEO that it did not oppose the filing of these tariffs, but that it intends to file a letter in this docket expressing its views regarding the appropriate eligibility qualifications.

Please call me if there are any questions.
