EXHIBIT C

With this application Doylestown Telephone Company ("Doylestown") seeks to clarify the rates, terms and conditions of its Intrastate Carrier Access Service. Upon further review and investigation since the filing of Case No. 08-1213-TP-ATA last fall, Doylestown recognized that the provisions set forth in that filing did not correctly reflect the Commission-approved tariff provisions. The correct provisions are set forth in this filing. The following pages explain this tariff filing in detail. This filing does not result in a change in rates and no notice to customers is required.

The Commission-approved provisions of Doylestown's tariff prior to November 24, 2003 follow.

Intrastate Carrier Access Service

1. Doylestown Telephone Company, hereinafter called the concurring company, assets to, adopts and concurs in the regulations, rates and charges for the provision of intrastate Carrier Access Service as specified in the Access Service Tariff, F.C.C. No. 1 filed with the Federal Communications Commission by the National Exchange Carrier Association ("NECA") as such tariff now exists, or as it may be revised, added to or supplemented by superseding sheets or issues; provided however that the regulations, rates and charges specified in

2. Sections of the ICORE, Inc. Access Service Tariff, F.C.C. No. 1 to be concurred in are as follows:

- a. Section 6.10.3 and 17.14.2 Switched Access Service
Except that local switched access rates applied to the intrastate jurisdiction shall remain at the levels existing on December 31, 1997.
- b. Section 17.14.3 Special Access Service
- c. Section 17.14.4 Other Services

3. The Company concurs in Section 3, Carrier Common Line Access Service, of the NECA Access Service Tariff, F.C.C. No. 1, provided that the Carrier Common Line Charges applied to the intrastate jurisdiction shall be as follows:*

Originating Carrier Common Line Charge .0150 (Premium) .0065 (Non-Premium)

Terminating Carrier Common Line Charge .0428 (Premium) .0190 (Non-Premium)

*Pursuant to the May 22, 1997 entry of the Public Utilities Commission of Ohio in Case No. 96-1310-TP-COI, these rates are effective retroactively to April 15, 1997.

4. Interexchange billing and collection services, except for recording service, are deregulated. Recording services, other than billing name and address services, while subject to regulation by the Public Utilities Commission of Ohio, are detariffed effective January 1, 1988. Upon conversion of an end office to equal access, billing name and address information for non-presubscribed traffic shall be provided to interexchange carriers upon rates, terms and conditions to be filed with this commission.

PUCO No. 7, Section 8, Third Revised Sheet No. 2 (Case No 96-1310-TP-COI, effective October 7, 1997), Third Revised Sheet No. 3 (Case No. 97-1318-TP-ATA, effective December 30, 1997).

Effective November 24, 2003, Doylestown amended its tariff. The purpose of this filing as explained in Exhibit C to the application filed on October 7, 2003 in Case No 03-2066-TP-ATA was (1) to clarify the NECA concurrence except where otherwise distinguished and (2) to establish carrier common line terms and conditions, which were eliminated in the concurring NECA interstate tariff and needed to be included in PUCO No. 7 for intrastate purposes. To accomplish this, a new Section 8A was established and the existing carrier common line access service rates were moved from Section 8, Sheet 3, paragraph 3 to the new Section 8A.

This filing mistakenly deleted paragraph 2.a., which is one of the interstate tariff concurrence exceptions in the Doylestown tariff dating back to December 30, 1997, when the Commission suspended the mirroring of interstate and intrastate switched access rates. Exhibit C makes no mention of eliminating this important exception, and the deletion was not properly presented in this application or approved by the Commission, and did not become part of the tariff at this time. Only paragraphs 2.b. and 2.c. were deleted by the NECA concurrence. The tariff language below reflects lawful changes to the tariff as of November 24, 2003 to which Doylestown is returning with this filing. Copies of relevant excerpts of these filings follow.

Intrastate Carrier Access Service

1. Doylestown Telephone Company, hereinafter called the concurring company, assents to, adopts and concurs in the regulations, rates and charges for the provision of intrastate Carrier Access Service as specified in the Access Service Tariff, F.C.C. No. 5 filed with the Federal Communications Commission by the National Exchange Carrier Association ("NECA") as such tariff now exists, or as it may be revised, added to or supplemented by superseding sheets or issues; provided however that the regulations, rates and charges specified in Section 4, End User Access Service, have been excluded from intrastate customers by order of the Public Utilities Commission of Ohio. The rates, terms, and conditions for Intrastate Carrier Common Line Access Service are set forth in Section 8A herein.

2. Sections of the ICORE, Inc. Access Service Tariff, F.C.C. No. 1 to be concurred in are as follows:

a. Section 6.10.3 and 17.14.2 Switched Access Service

Except that local switched access rates applied to the intrastate jurisdiction shall remain at the levels existing on December 31, 1997.

3. (Carrier Common Line Access Service rates moved to Section 8A herein.)

4. Interexchange billing and collection services, except for recording service, are deregulated. Recording services, other than billing name and address services, while subject to regulation by the Public Utilities Commission of Ohio, are detariffed effective January 1, 1988. Upon conversion of an end office to equal access, billing name and address information for non-presubscribed traffic shall be provided to interexchange carriers upon rates, terms and conditions to be filed with this commission.

EXHIBIT C

The Applicant, The Doylestown Telephone Company, hereby proposes to add to its Intrastate Access Tariff a section that pertains exclusively to Carrier Common Line Access Service.

On July 1, 2003 interstate carrier common line rates were eliminated. As a result, the National Exchange Carrier Association ("NECA") revised its Tariff F.C.C. No. 5 to delete not only the CCL rates, but all of the CCL terms and conditions as well. The significance of this occurrence is that the Applicant had adopted (except where otherwise distinguished) NECA Tariff F.C.C. No. 5 in its intrastate access tariff. Now that the NECA tariff no longer includes CCL terms and conditions, it is necessary for the intrastate terms and conditions to be on file with the Commission.

The attached proposed revisions reflect the terms and conditions for intrastate Carrier Common Line Access Service as they existed in the NECA Tariff F.C.C. No. 5 on June 30, 2003. Please note that the CCL rates that now appear in Section 8A of the Applicant's Intrastate Access Service Tariff have not been revised and remain as authorized by the Commission in Case No. 83-464-TP-COI.

EXHIBIT C

With this application Doylestown Telephone Company ("Doylestown") makes a correction to its intrastate access service tariff. In its Entry of July 7, 1999 in Case No. 97-632-TP-COI, the Commission permitted Doylestown and other small local exchange carriers to continue to assess intrastate access charges set equal to December 1997 levels until further notice. Doylestown's intrastate access tariff reflected this exception to its concurrence in the ICORE, Inc. Access Service Tariff, F.C.C. No. 1 effective December 30, 1997 (see Exhibit D attached hereto).

In 2003, Doylestown filed a tariff application (Case No. 03-2066-TP-ATA), the purpose of which was a) to update interstate tariff references from the ICORE tariff to NECA Tariff F.C.C. No. 5 in which Doylestown then concurred, and b) to add the terms and conditions for Carrier Common Line Access Service to its intrastate access service in place of provisions eliminated from the NECA tariff. Due to an inadvertent clerical error, the following text was omitted from one of the revised pages in the 2003 tariff application: "Except that local switched access rates applied to the intrastate jurisdiction shall remain at the levels existing on December 31, 1997." This language from Doylestown's predecessor intrastate access tariff should have been retained under applicable commission orders in Case No. 97-632-TP-COI.

Doylestown did not request authorization to change its intrastate access charge rates in Case No. 03-2066-TP-ATA nor is it changing rates at this point in time. Doylestown is merely correcting a clerical error.
