RE: Case No. 05-52-EL-GAG

Dear Secretary Jenkins:

During the governmental aggregation certification process of 2005 and 2007, Green Township did not have a viable alternative supply source. Therefore, the Operation and Governance Plan contained facts known at that time and based on beliefs of what an ideal plan would encompass. Recently, Green Township entered into an aggregation program agreement with Dominion Retail that will permit an effective aggregation plan to be in place for approximately two years beginning in April 2009.

Now that the particulars of the aggregation plan are known, Green plans to up-date its Operation and Governance Plan consistent with the program that is about to begin. Coincidentally, Green's current certificate expires on May 4, 2009. Barring any objection, Green intends to include within its renewal application the Governance Plan up-date. That filing should be made within the next two weeks.

If there are any questions concerning this matter, please contact me. Thank you in advance for your consideration.

Sincerely,

Donald I. Marshall  
President
