COMPLAINT DESCRIPTION:

I am writing in strong opposition of Duke Energy's planned rate hikes. In today's economy, everyone--businesses and residents alike--are being forced to cut back financially. Why should Duke be any different? They aren't happy enough to take the status quo, they want more, when everyone has less! They are a MONOPOLY! What can I do, not heat my house? Of course I have to use them--there is no true competition. They can write their own check.

A while back, Duke said the rate hikes were the result of the wind storm--why should I have to pay for their company's misfortune--do I get money back when the weather is good?

Please take these thoughts into account and not approve a Duke rate hike.
