COMPLAINT DESCRIPTION:

This is just a general complaint about Duke Energy raising it's rates TWICE while giving businesses rebates to keep them from filing complaints about the rate increases. Both my electric and my gas bill have gone up considerably since they purchased CG&E. Not only that, they are going to raise their rates to cover the cost of repairs to the infrastructure damaged during ice storms this winter. Why let them do that? If they can't run their business right, LET THEM GO BANKRUPT. Don't make me pay for someone else's incompetence! Making us pay the interest on the loans for repairs makes it even worse! What business that doesn't operate in a monopoly can do that? Please STOP rubber-stamping everything these crooks ask for! Please protect us consumers from a Non-local conglomerate energy company that pulls all it's profits to some other area and leaves nothing behind but high costs and angry customers.
