**Re: PUCO Case No. 09-258-PL-ATA, In the Matter of the Application of
Cobra Pipeline Company, Ltd. to Implement an Electronic
Measurement Service**

Dear Ms. Jenkins:

This Application was filed on March 24, 2009. An informal information request has been received regarding the cost basis for the monthly service charge proposed for this elective Electronic Measurement Service. Cobra Pipeline Company hereby supplements its application to provide the requested additional information.

The Company has calculated that the out-of-pocket cost associated with the electronic measurement equipment and necessary accessories will be approximately \$4,400 per meter installation. It is projected that costs associated with setting a utility pole for electric and telephone service will be an additional \$3000. Labor associated with the installation activities is estimated at \$2000 per installation.

The Company hopes to achieve recoupment of its approximate \$9,400 investment to provide this elective service in approximately seven years, with provision for a reasonable return on investment.

Please contact the undersigned with any questions you may have regarding this correspondence.

Very truly yours,

A handwritten signature of Andrew J. Sonderman in black ink.

Andrew J. Sonderman
