### Service Description

New Cingular Wireless PCS, LLC and Cincinnati SMSA, L.P., both of which use the name AT&T Mobility, offer a wide array of services and devices to meet the needs of mobile customers in their Ohio service areas and elsewhere.

AT&T\* is in the process of upgrading services in Ohio with the additional of third-generation (3G) wireless broadband technology in many areas that will enhance the wireless experience for area residents and businesses. The upgrade is part of the planned expansion of AT&T's 3G mobile broadband network – the nation's fastest, according to recent data compiled by leading independent wireless research firms.

AT&T's 3G mobile broadband network is based on the 3rd Generation Partnership Project (3GPP) family of technologies that includes GSM and UMTS, the most open and widely used wireless network platforms in the world. As a result, only AT&T can offer 3G data roaming in more than 80 countries, as well as voice calling in more than 215 countries. AT&T's 3G network is now available in nearly 350 U.S. major metropolitan areas.

AT&T also enables unsurpassed choice and openness in the range of devices, services and applications compatible with its 3G network. AT&T offers a wide variety of devices from more than a dozen manufacturers, including handsets that are compatible with six different operating systems and five different e-mail applications. Its Media Mall 2.0 offers more than 90,000 content options, and customers can download virtually any application over the Internet. Additionally, AT&T supports a community of more than 20,000 application developers via its devCentral portal.

AT&T has approximately 518 retail locations in Ohio, including AT&T-owned stores, agents and national retailers.

*\*AT&T products and services are provided or offered by subsidiaries and affiliates of AT&T Inc. under the AT&T brand and not by AT&T Inc.*
