**Construction Notice
Midway-OI Levis 138 kV Transmission Line Relocation
For Roachton Road Widening
Case No. 09-~~568~~-EL-BNR**

Dear Ms. Jenkins:

In accordance with Rule 4906-11-01 American Transmission Systems, Inc. ("ATSI"), a subsidiary of FirstEnergy Corp., transmits one (1) original and eleven (11) copies of the enclosed Construction Notice. In this project, ATSI is proposing to relocate three (3) poles of the existing Midway-OI Levis transmission line to facilitate the City of Perrysburg, Ohio Roachton Road Widening Project. The Project is located at the intersection of Roachton Road and Fort Meigs Road and on Roachton Road 3/8 mile east of State Route 25 in the City of Perrysburg, Wood County, Ohio.

Please be advised of the following:

a) Name and address of the applicant:

American Transmission Systems, Incorporated
76 South Main Street
Akron, Ohio 44308

b) Name of proposed facilities:

Midway-OI Levis 138 kV Transmission Line Relocation for Roachton Road
Widening Project.

This is to certify that the images appearing are an
accurate and complete reproduction of a case file
document delivered in the regular course of business.
Technician SM Date Processed JUL 07 2009

July 2, 2009

c) Location of proposed facilities:

The Project is located at the intersection of Roachton Road and Fort Meigs Road, and on Roachton Road 3/8 of a mile east of State Route 25 in the City of Perrysburg, Wood County, Ohio.

d) Description of proposed facilities:

In this project, ATSI is proposing to relocate three (3) poles of the existing Midway-OI Lewis transmission line to facilitate the Roachton Road widening Project.

e) Applicant's representative:

Scott Humphrys, Associate Distribution Specialist
Energy Delivery Technical Services
FirstEnergy Service Company
76 South Main Street
Akron, OH 44308-1890

After docketing this filing, please return one time-stamped copy of the Construction Notice for our records to us in the enclosed envelope. We have provided a copy of this Construction Notice by certified mail, with return receipt requested, to officials of the political subdivisions immediately affected by the proposed project as listed in the attached Exhibit 1. Copies of the transmittal letters addressed to the local government representatives of the City of Perrysburg, Wood County are enclosed for your file.

Should the Ohio Power Siting Board desire further information or discussion of this submittal, please contact me at (330) 384-2526.

Sincerely,

Scott Humphrys

Construction Notice
Midway-OI Levis 138 kV Transmission Line Relocation
For the Roachton Road Widening Project
Case No. 09- -EL-BNR

Dear Mayor Evans,

In the above captioned project, American Transmission Systems, Inc. ("ATSI"), a subsidiary of FirstEnergy Corp., is proposing to relocate three (3) poles of the existing Midway-OI Levis 138kV transmission line to facilitate the City of Perrysburg's Roachton Road widening Project. The Project is located at the intersection of Roachton Road and Fort Meigs Road and on Roachton Road 3/8 of a mile east of State Route 25 in the City of Perrysburg, Wood County, Ohio.

The proposed Project improvements are needed to facilitate the widening of Roachton Road in the City of Perrysburg, Wood County. This requires the relocation of two (2) stub poles and one (1) transmission pole, of the Midway-OI Levis 138kV transmission line along Roachton Road.

In accordance with the provisions of Ohio Administrative Code ("OAC") Rule 4906-1-01, this project falls within the Ohio Power Siting Board's requirements for a Construction Notice ("CN"). Therefore, in compliance with OAC 4906-11-02 of the OPSB's Rules and Regulations, we have prepared and filed the attached CN with the OPSB for their review and approval. The CN contains a description of the Project and is provided for your information.

I'll be glad to answer any question concerning this matter. You can contact me at (330) 384-2526.

AMERICAN TRANSMISSION SYSTEMS, INCORPORATED

CONSTRUCTION NOTICE

**MIDWAY-OI LEVIS 138 kV
TRANSMISSION LINE RELOCATION FOR
ROACHTON ROAD WIDENING**

OPSB CASE NO. 09- 568 -EL-BNR

July 2, 2009

**American Transmission Systems, Incorporated
76 South Main Street
Akron, Ohio 44308**

**CONSTRUCTION NOTICE
MIDWAY-OI LEVIS 138 kV TRANSMISSION LINE RELOCATION
FOR ROACHTON ROAD WIDENING**

The following information is being provided in accordance with the procedures delineated in Ohio Administrative Code Section 4906-11-02: Construction Notice Requirements of the Rules and Regulations of the Ohio Power Siting Board.

4906-11-02 (B): Information Requirements

4906-11-02 (B) (1): Name of the Project

Name of Project: Midway-OI Levis 138 kV Transmission Line Relocation for the Roachton Road Widening Project

4906-11-02 (B) (2) (a): Brief Description of Project

American Transmission Systems, Incorporated ("ATSI"), a First Energy Corp. subsidiary, is preparing a Midway-OI Levis 138 kV Transmission Line Relocation for the Roachton Road Widening Project ("Project"), which consists of relocating one (1) 138 kV transmission pole with distribution underbuild at the northeast corner of Fort Meigs and Roachton Road and relocating two (2) guy poles near the OI Levis Park Substation on Roachton Road. The proposed Project is located at the intersection of Roachton Road and Fort Meigs Road, and on Roachton Road 3/8 of a mile west of State Route 25 in the City of Perrysburg, Wood County, Ohio.

The general location of the proposed Project is shown in Exhibit 1, which is a partial copy of the United States Geologic Survey, Wood County Ohio Quad, Map ID 41083-E6. The general layout of the proposed Project is shown in Exhibit 2. In this proposed Project, one (1) pole is to be relocated, on the northeast corner of the intersection of Roachton Road and Fort Meigs Road and two (2) guy poles near the OI Levis Park Substation are to be relocated. The typical details of the new pole and guy poles are shown in Exhibits 3 and 4.

4906-11-02 (B) (2) (b): Construction Notice Requirements

The proposed Project meets the requirements for a Construction Notice because the project is within the types of project defined by Item (9) of the Application Requirement Matrix for Electric Power Transmission Lines in Appendix A of 4906-1-01 of the Ohio Administrative Code, which requires the filing of a Construction Notice. This items states:

- (9) Replacement or relocation of an electric power transmission line and associated facilities where the project is required by publicly funded entities and is located on or adjacent to right-of-way or land owned by the public entity requiring the project.*

Perrysburg City is widening Roachton Road between Fort Meigs Road and State Route 25 in their Roachton Road Widening Project. The new relocated pole will be installed in the road right-of-way for the widened intersection of Roachton Road, and Fort Meigs Road and the new relocated stub poles will be located in the Roachton Road right of way. The existing Midway-OI Levis 138 kV transmission line and the proposed modifications will be owned by ATSI.

4906-11-02 (B) (3): Need for the Project

The proposed Project is needed to facilitate the widening of Roachton Road in the city of Perrysburg, Wood County. This requires the relocation of the Midway-OI Levis 138kV transmission poles to the northeast of Roachton Road and Fort Meigs Road intersection into a new road right-of-way, as well as the guy poles outside the OI Levis Park Substation into a new road right-of-way.

4906-11-02 (B) (4): Construction Schedule

Construction on the proposed Project is proposed to begin on August 18, 2009.
Construction on the proposed Project is expected to be completed by March 31, 2010.

4906-11-02 (B) (5): Estimated Costs

The following are the estimated capital costs by FERC Accounts for the Project:

Estimated Cost	\$ 132,000
----------------	------------

4906-11-02 (B) (6): Operating Characteristics

The existing Midway-OI Levis 138 kV transmission line operates at 138 kV. The proposed modifications will not change the operating characteristics of this transmission line. In the proposed Project, one (1) existing pole and two (2) existing guy poles of the transmission line will be relocated to facilitate the widening of Roachton Road. New property rights are not required for the installation of three (3) poles of the proposed Project.

4906-11-02 (B) (7): Area Map

Exhibit No. 1 depicts the general location of the project site. This exhibit provides a partial copy of the United States Geologic Survey, Wood County Ohio Quad Map ID 41083-E6. To locate and view the project site from Columbus, Ohio, travel north on OH-71 towards Cleveland for approximately 10.1 miles. Take exit number 119 for US-23 toward Delaware. Merge onto N. High St/US-23 and continue to follow US-23 for approximately 58.5 miles. Turn slightly right at US-23 and continue for approximately 7.5 miles. Then proceed on OH-15W for approximately 17 miles. Merge onto I-75N/OH-15W via the ramp to Toledo and continue to follow I-75 N for approximately 35.3 miles. Take exit 192 on the left to merge onto I-475 N/US-23 N toward Maumee/Ann Arbor, approximately 1 mile. Take exit 2 for OH-25 toward Perrysburg and turn left at Dixie Highway North then turn right at Roachton Road. The project is located approximately 3/8 mile west of OH-25 and at the intersection of Roachton Road and Fort Meigs Road.

4906-11-02 (B) (8): Properties List

The relocated poles will be located within existing and newly obtained road right-of-way for Roachton Road, obtained by the City of Perrysburg. ATSI is not obtaining any additional property rights for this section of the transmission line.

4906-11-02 (C): Documentation of Construction Notice Transmittal

This Construction Notice is being provided concurrently to the following officials of the City of Perrysburg and Wood County, Ohio. Copies of the transmittal letters to these officials have been included with the transmittal letter submitting this Construction Notice to the Ohio Power Siting Board.
