Case No. 96- 338 -EL-AEC

APPLICATION

1. Ohio Edison Company is an electric public utility organized and doing business in Ohio and subject to the jurisdiction of this Commission respecting rates for electric service.

2. Changes and depressed conditions in the economy of the service area served by Ohio Edison Company make it desirable for Ohio Edison to enhance the attractiveness of locating or expanding in Ohio for existing and potential industrial customers able to provide new loads and employment here.

3. Increased load from new or expanding industrial use in the Company's service area will permit the Company to better utilize its facilities, resulting in more efficient operations.

4. Accordingly, the Company has entered into a contract with a new Customer considering location at a site at 1030 Evans Avenue, in Akron, Ohio 44305, for the operation of a silicon rubber custom compounding plant. A copy of the contract is attached hereto as "Exhibit A".

5. Under the terms of the contract, Ohio Edison has, subject to this Commission's approval, agreed to certain short term concessions in billing load to induce the Customer to consider, continue, and go forward with location at the Akron site. The rate is compensatory and provisions for service to this Customer are otherwise to be as provided for in the Company's applicable rate schedule as it now exists or may be modified.

6. Not only will the Customer benefit from this rate if it considers the Akron site, but its additional investment in Ohio will benefit all residents of Ohio and not be to the detriment of any Ohio Edison customers.

7. Ohio Edison agrees to include a report with respect to this Customer in its semi-annual reports on other similar customers, as provided for in the Commission's Finding and Order of June 17, 1986, in Case Nos. 84-84-EL-AEC, et al.

WHEREFORE, Ohio Edison Company requests that this contract be approved as a reasonable arrangement under R.C. 4905.31 and, because the Customer's decision must soon be made, that such approval be given as quickly as possible to encourage a favorable decision on the Akron site.

**CONTRACT
FOR
SPECIAL ARRANGEMENTS FOR ECONOMIC DEVELOPMENT**

Date February 14, 1996Name SHINCOR SILICONES, INC.☐ Existing Customer☒ New Customer *☐ Existing Facility☒ New FacilityLocation 1030 EVANS AVENUE
AKRON, OH 44305Type of Operation CUSTOM COMPOUNDING
OF SILICON RUBBERAdded Space (sq. ft.) 15,000Estimated New Load 550 KWEstimated New Employment 15

In consideration of the agreement of the above-named, as evidenced by its signature below, to consider location, expansion, or continuation of manufacturing operations in Ohio Edison Company's service area, Ohio Edison agrees that if such agreement is made on or before (date) FEBRUARY 14, 1997, then, for a period of five years from a mutually agreeable effective date, Ohio Edison will reduce billing loads above the base load for each month 50 percent the first year, 40 percent the second year, 30 percent the third year, 20 percent the fourth year and 10 percent the fifth year, or by mutual agreement, an equivalent levelized discount throughout the contract period.

For existing customers, a base load will be established based on previous history and circumstances. If the customer is an existing customer relocating to another service location, the billing history at the former location will be used to determine the base load. For new customers the base load will be zero.

* Where a new customer assumes the operation of a previous customer presently shut down, such new customer shall be considered an "existing customer" and the billing history of the previous customer will be used to determine the increase in billing load.

Except as provided above, all provisions, prices and regulations of Ohio Edison Company's standard general service rates shall apply, as said rates may be modified by the Public Utilities Commission of Ohio.

If the customer fails to pay its bill for electric service when due, before the addition of a late payment charge, it shall forfeit this special contract rate for that billing month and Rate 21 shall apply, as said rate may be modified by the Public Utilities Commission of Ohio.

The Provisions of this contract are subject to approval by the Public Utilities Commission of Ohio and cannot be effective unless and until such approval is obtained. Ohio Edison Company agrees to use its best efforts to obtain the necessary approval.

This contract is not assignable without the written consent of Ohio Edison Company.

This contract is entered into by Ohio Edison Company to enhance the attractiveness of Ohio Edison's service area, but nothing herein obligates the above-named customer or potential customer to locate or expand in Ohio Edison's service area.

IN WITNESS WHEREOF the parties hereto have signed below as of the date specified above.
