In the Matter of the Application of ) The Dayton Power and Light Company for ) Approval of Its Amended Corporate ) Separation Plan. )	Case No. 08-1097-EL-UNC

ENTRY

The attorney examiner finds:

- (1) By Opinion and Order issued June 24, 2009, in *In the Matter of the Application of The Dayton Power and Light Company for Approval of Its Electric Security Plan*, Case No. 08-1094-EL-SSO, et al., the Commission approved a stipulation that, *inter alia*, required The Dayton Power and Light Company (DP&L) to develop independent business cases demonstrating a positive cost-benefit analysis for both its Advanced Metering Infrastructure (AMI) and Smart Grid proposals. The stipulation called for DP&L to consult with interested signatory parties about the costs and benefits of DP&L's AMI and Smart Grid business cases. DP&L was required to file its business cases by September 1, 2009.
- (2) On August 4, 2009, DP&L filed revised business cases for the AMI and Smart Grid proposals. In support, DP&L also filed revised schedules, showing typical bill comparisons, on August 13, 2009. A second set of revised schedules was filed on September 15, 2009.
- (3) On September 4, 2009, the Office of the Ohio Consumers' Counsel (OCC) filed a motion to establish a procedural schedule and

hearing date. OCC argued that a procedural schedule and hearing date were needed to ensure that DP&L's revised AMI and Smart Grid proposals are reasonable and prudent.

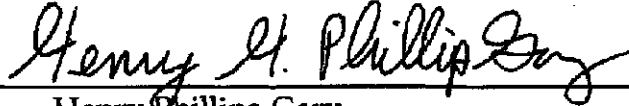

- (4) DP&L filed a memorandum in opposition to OCC's motion on September 10, 2009, arguing that the procedure established by the stipulation for reviewing the AMI and Smart Grid proposals did not call for a technical conference, the filing of testimony, or a hearing. DP&L also stated that there is no need for a hearing, as extensive information regarding the AMI and Smart Grid plans has already been filed in this case.
- (5) OCC filed a reply to DP&L's memorandum in opposition on September 15, 2009, stating that DP&L's revised AMI and Smart Grid proposals materially altered the original plans, previously filed in this proceeding.
- (6) In order to facilitate the review of DP&L's revised AMI and Smart Grid proposals, the attorney examiner finds that a technical conference should be held on October 22, 2009, at 10:00 a.m., at the offices of the Commission, 180 East Broad Street, 11<sup>th</sup> floor, Hearing Room 11E, Columbus, Ohio 43215.

It is, therefore,

ORDERED, That a technical conference be held on October 22, 2009, at 10:00 a.m., at the offices of the Commission, 180 East Broad Street, 11<sup>th</sup> floor, Hearing Room 11E, Columbus, Ohio 43215. It is, further,

ORDERED, That a copy of this entry be served upon all parties of record.
