Columbus, Ohio 43215

Re: Supplementary application documents for **Case Number 09-277-EL-BGN**, JW Great Lakes Wind LLC's Hardin County North Wind Farm.

Dear Mr. Strom,

Following our recent discussions, please find enclosed ten (10) copies and one CD containing the following documents for filing as a supplement to our previously filed application for a Certificate of Environmental Compatibility and Public Need for the above-referenced case. This supplement is intended to satisfy all requirements for Staff's completeness review:

- 1) Brief summary of JWGL's approach to and key results from an analysis of historical structures/landmarks with the Project and surrounding area. Information in this summary is consistent with the literature review and report submitted as Exhibit 08-7 in the application.
- 2) Description of approach and proposal for JWGL to conduct an archaeological resources survey in the spring of 2010, while fields are plowed and prior to commencement of any construction for the Hardin County North Wind Farm.
- 3) Updated Bat Risk Assessment (Exhibit 08-5) with minor formatting and content changes.
- 4) Draft preliminary substation plans.

Sincerely,

Peter K. Endres  
JW Great Lakes Wind, LLC  
Office: (216) 344-9305
