Summary

This report entry is utilized for a weekly update-summary of restoration activities for Rockies'-West of Lebanon Spreads A-1 through F-2. See punchlists attached to this report for additional information on other final measures.

A-1: Final restoration crew activities has achieved 100% completion.

A-2: Final restoration crew activities has achieved 100% completion.

B: Restored. No crews onsite this period.

C: Restored. No crews onsite this period.

D: Final restoration crew activities achieved 100% completion. Completion of punchlist items continues.

E: Work completed through this period up to and including final restoration-completion by Milepost. Rain out occurred on other tracts during the earlier portion of the week period. MP 314.9 through 334.0 has been topsoil-ripped. Current level is estimated at 90% complete for final restoration.

F-1: Final restoration crew activities achieved 100% completion. Completion of punchlist items continues.

F-2: Final restoration crew activities achieved 100% completion. Completion of punchlist items continues.

Next Week

Updates will occur weekly as progress is reported by compliance coordinators.

Spread/Facility A1

Name Elshoff, Paul

Summary

The Spread A-1 In-service Request was granted by the FERC on 06/25/09.

Spread A1 is deemed 100% complete with final restoration.

There were no NCR's recorded this period.

Next Week

Final restoration completed.

Spread/Facility A2

Name Elshoff, Paul

Summary

The Spread A-2 In-service Request was granted by the FERC on 06/25/09.

Restoration is complete except for what is needed post-harvest season.

There were no NCR's recorded this period.

Next Week

Final restoration completed.

Spread/Facility B

Name Elshoff, Paul

Summary

The Spread B In-service Request was granted by the FERC on 06/25/09.

Restoration is complete.

There were no NCR's recorded this period.

Next Week

Work is completed.

Spread/Facility C

Name Elshoff, Paul

Summary

The Spread C In-service Request was granted by the FERC on 06/25/09.

Restoration is complete.

There were no NCR's recorded this period.

Next Week

Work is completed.

Spread/Facility D

Name Schwarz, Wes

Summary

The Spread D In-service Request was granted by the FERC on 06/25/09.

Final restoration is deemed 100% complete. Punchlist items are to be handled by a third-party contractor. Mainline contractor has completed their work.

There were no NCR's recorded this period.

Next Week

Punchlist work continues.

Spread/Facility E

Name Schwarz, Wes

Summary

The Spread E In-service Request was granted by the FERC on 06/25/09.

The following construction activities were observed by the environmental inspection team throughout the Spread E corridor: Final clean-up/restoration is at about 90%.

Two dedicated environmental crews are working on punchlist items. See variance request table attached to this report for additional information on variances.

Cultural nor biological monitoring was required this period.

There were no NCR's recorded this period.

Next Week

Environmental team will continue inspection of contractor activities. Daily morning briefings will continue to be conducted between Contractor, Rockies inspection management, and Compliance Monitor, when available.

Spread/Facility F1

Name Garza, Bill

Summary

The Spread F-1 In-service Request was granted by the FERC on 06/25/09.

Only minor punchlist items remain to be completed.

There were no NCR's recorded this period.

Next Week

Environmental Inspection team will continue inspection of ROW, where applicable, per the Rockies' Plans.

Spread/Facility F2

Name Garza, Bill

Summary

The Spread F-2 In-service Request was granted by the FERC on 06/25/09.

Punchlist items continue.

There were no NCR's recorded this period.

Next Week

Punchlist items continue.

Spread/Facility G

Name Schwarz, Wes

Summary

The following construction activities were observed by the environmental inspection team throughout the Spread G corridor: Rough clean-up, final restoration and seeding, fencing, and continued inspection of ECD's.

Contractor has one environmental crew working on ECD's. See variance request table attached to this report for additional information on variances. Environmental training is ongoing as needed.

There were no NCR's recorded this period.

Next Week

Environmental team will continue inspection of contractor activities. Daily morning briefings will continue to be conducted between Contractor, Rockies inspection management, and Compliance Monitor, when available.

Spread/Facility H**Name** Goetting, Joey**Summary**

The following construction activities were observed by the environmental inspection team throughout the Spread H corridor: Tie-ins, HDD, and clean-up and restoration. EI team also continued inspection of the installation and maintenance of ECD's. Cultural/Arch monitor was utilized at Deer Creek HDD this period, where the pilot hole was completed this period.

Contractor has two environmental crews working. See variance request table attached to this report for additional information on variances. The waterbody crossing schedule has been updated and attached. Environmental training is ongoing as needed.

There were no NCR's recorded this period.

Next Week

Environmental team will continue inspection of contractor activities. Daily morning briefings will continue to be conducted between Contractor, Rockies inspection management, and Compliance Monitor, when available.

Spread/Facility I**Name** Janik, Kevin**Summary**

The following construction activities were observed by the environmental inspection team throughout the Spread "I" corridor: Standard station construction activities at Chandlersville Station; EI's placing appropriate signage; installation, maintenance, and inspection of appropriate ECD's, and rough and final clean-up.

Contractor has three environmental crews working. See variance request table attached to this report for additional information on variances. Environmental training is ongoing as needed.

There were no NCR's recorded this period.

Next Week

Environmental team will continue inspection of contractor activities. Daily morning briefings will continue to be conducted between Contractor, Rockies inspection management, and Compliance Monitor, when available.

Spread/Facility J**Name** Campbell, Bernard**Summary**

The following construction activities were observed by the environmental inspection team throughout the Spread J corridor: The installation, maintenance, and inspection of appropriate ECD's, meter station construction, hydrotesting, and rough and final clean-up.

Contractor has three environmental crews working. See variance request table attached to this report for additional information on variances. Environmental training is ongoing as needed.

There were no NCR's recorded this period.

Next Week

Environmental team will continue inspection of contractor activities. Daily morning briefings will continue to be conducted between Contractor, Rockies inspection management, and Compliance Monitor, when available.

Spread/Facility K**Name** Padgett, Jackie**Summary**

The following construction activities were observed by the environmental inspection team throughout the Spread K corridor: The installation, maintenance, and inspection of appropriate ECD's, equipment inspection, coating, lower in, drain tile work, backfilling, dig-ups, rough and final clean up.

Contractor has three environmental crews working. See variance request table attached to this report for additional information on variances. Environmental training is ongoing as needed.

There were no NCR's recorded this period.

Next Week

Environmental team will continue inspections. Daily morning briefings will continue to be conducted between Contractor, Rockies inspection management, and Compliance Monitor, when available.

Spread/Facility Arlington CS**Name** Kinney, Mike**Summary**

The Arlington Station in-service request was granted on June 1, 2009.

Next Week

In-service activities continue. Construction for initial work complete. Added work continues.

Spread/Facility Bainbridge CS**Name** Franzene, Eric**Summary**

The Spread D In-service Request was granted by the FERC on 06/25/09, including Bainbridge CS.

Construction is deemed 100% complete.

Next Week

Work is completed.

Spread/Facility Bertrand CS**Name** Vanya, Kevin**Summary**

The Bertrand Compressor Station In-service Request was granted on June 1, 2009.

Construction is complete.

Next Week

Construction is complete.

Spread/Facility Blue Mound CS

Name Suggs, Garvin

Summary

The Spread A-2 In-service Request was granted by the FERC on 06/25/09, including Blue Mound CS.

Construction is deemed at 99% complete.

Final punchlist items are being worked on.

Next Week

In-service punchlist activities continue.

Spread/Facility Chandlersville

Name Connelly, Mike

Summary

Activities this week included typical station construction, delivery and receipt of ancillary items and equipment, maintenance of appropriate ECD's, and environmental training as needed. Housekeeping efforts occur daily. Construction is deemed at about 96% complete this period.

Punchlist items continue.

Next Week

The above typical station construction activities will continue towards completion as warranted.

Spread/Facility Hamilton CS

Name Rhea, Richard

Summary

Typical compressor station construction is occurring, with delivery and receipt of ancillary tools and equipment, and environmental training as needed. Construction is deemed advancing to about 99% complete this period.

Units are commissioned and ready for service. Minor punchlist items being completed.

Next Week

Above listed typical station activities will continue towards completion as warranted.

Spread/Facility Mexico CS

Name Larson, Ray

Summary

The Spread A-1 In-service Request was granted by the FERC on 06/25/09, including the Mexico CS.

Construction is complete.

Next Week

Construction is complete.

FERC Weekly Report

Landowner Complaint Resolution

Date	Mile Post	Tract	Description	Resolution	Status
1/12/2009		Off-line	LO requests compensation for loss of hunting business due to construction activities.	REX in negotiations and paid for a home inspection. REX will evaluate reimbursing LO.	Pending
10/25/2009		IL-CS-005.000	Complaint of vibratory related ceiling cracks, damage to road up to the home.	10/14/09 update: Per ROW Chuck Greenway; IL-CS-008.000 off-line tract, Michael Robertson, has agreed to meet Friday morning at 8:00 A.M. to signoff on this tract for the estimate of \$5,862 for material and labor from Glacier Hills Construction Inc. Resolved.	Resolved
1/22/2009	343	IN-SB-221.000	Owner called today which was a follow up call from the previous day. His complaints were: 1. The top soil is being mixed with the other soils and piled together. 2. The construction crews are walking and parking on the pile of topsoil and the water is causing the soils to run together. 3. Owners property is split by the right of way and he wants to cross it and REX are welding pipe. 4. We have worked as much as 30 feet off the right of way. (Owner is Gary Muldoon)	Our Field agent, ROW Manager and the inspectors have worked together to resolve issues as they arise and will continue to do so. The owner does not want our lead agent nor our field agent to resolve issues but we hope that will become acceptable as we have sent a number of people to that site. 1/23/09 our field agent called today to say they had moved the top soil pile further away from other contaminates and opened the line of pipe so the Owner could access his field across our right of way. 02/25/09, ROW reports they are actively resolving issues.	Resolved

10/14/09 update: All dirt work, seeding, and mulching of the property is now completed. Resolved.

Date	Mile Post	Tract	Description	Resolution	Status
9/17/2009	Offine		Complaint of dust and mud slide damage at off-line property.	ROW is investigating and will review with Chief Inspector and KM Rep. Pending.	Pending
			10-14-09: Resolution being worked on.		
10/15/2009	603.7	OH-GN-092.000	Stumps, spring flow, and debris concerns and for when things will be done.	ROW agent explained an appropriate schedule, and advised LO items would be entered on punchlist for finishing with restoration. LO was satisfied with response. Resolved.	Resolved
9/28/2009	583.7	OH-MK-205.000	Dry stream restoration timeline. LO was told they would restore three weeks ago.	Rubber tired equipment to be moved back for restoration. Pending.	Pending
			10-14-09: No new info from ROW.		
10/16/2009	632.7	OH-BL-068.000	Construction disruption of a spring and pond.	ROW reviewed status of issues with LO and contractor. Pending.	Pending
