**RE: YMax Communications Corp. Amended Access Services Tariff Revision  
PUCO Tariff No. 2- Case No. 09-1059-TP-ATA**

Dear Ms. Jenkins:

Enclosed for filing please find the amended access tariff pages submitted on behalf of YMax Communications Corp. This amended filing incorporates changes requested by Staff. The Company respectfully requests this tariff revision to become effective on December 6, 2009.

Questions regarding this filing may be directed to (407) 740-3031 or via e-mail at [stthomas@tminc.com](mailto:stthomas@tminc.com).

Thank you for your assistance.

Sincerely,

/s/Sharon Thomas

Sharon Thomas  
Consultant to YMax Communications Corp.

CARRIER-TO-CARRIER TARIFF

---

**SECTION 2 - RULES AND REGULATIONS, (CONT'D)**

**2.9 Obligations of the Customer (Continued)**

**2.9.2** With regard to access services provided by the Company, specific Customer responsibilities include, but are not limited to the following:

**A. Design of Customer Services**

The Customer shall be responsible for its own expense for the overall design of its services and for any redesigning or rearrangements of its services which may be required because of changes in facilities, operations or procedures of the Company, minimum protection criteria, or operating or maintenance characteristics of the facilities.

**B. Network Contingency Coordination**

The Customer shall, in cooperation with the Company, coordinate in planning the actions to be taken to maintain maximum network capability following natural or man-made disasters which affect telecommunications service.

**C. Jurisdictional Reports**

The jurisdictional reporting requirements will be as specified below. When a Customer orders Access Service, its projected Percent Interstate Usage (PIU) must be provided in whole numbers to the Company. These whole number percentages will be used by the Company to apportion the use and/or charges between interstate and intrastate until a revised report is received as set forth herein. Reported or default PIU factors are used only where the call detail is insufficient to determine the appropriate jurisdiction of the traffic.

- (1) Originating Access: Originating access minutes consist of traffic originating from the Company Local Switching Center(s). The Customer must provide the Company with a projected PIU factor on an annual basis. If no PIU for originating minutes is submitted as specified herein, actual 3 months prior usage will be used to determine the projected PIU factor, if such usage history is available. If no such usage history is available, a default PIU of 50% will be applied.

---

**SECTION 2 - RULES AND REGULATIONS, (CONT'D)**

**2.9 Obligations of the Customer (Continued)**

**2.9.2 (continued)**

**C. Jurisdictional Reports (continued)**

- (2) Terminating Access: Terminating access minutes consist of traffic terminating to the Company Local Switching Center(s). The Customer must provide the Company with a projected PIU factor on an annual basis. If no PIU for terminating minutes is submitted as specified herein, actual 3 months prior usage will be used to determine the projected PIU factor, if such usage history is available. If no such usage history is available, a default PIU of 50% will be applied. (M) (C)
- (3) Except where the Company measured access minutes are used as set forth above, the Customer reported Projected PIU factor as set forth above will be used until the Customer reports a different projected PIU factor, as set forth below. (M) (C)

**D. Jurisdictional Audits**

- (1) The Customer shall keep sufficient detail from which the percentages of interstate and intrastate use reported to the Company can be verified and upon request of the Company make such records available for inspection and audit. The customer must maintain these records for 24 months from the date the report became effective for billing purposes.
- (2) Initiation of an audit will be at the sole discretion of the Company. The audit shall be performed by an independent party selected by the Company. An audit may be initiated by the Company for a single customer no more than once per year. The customer shall supply the required data within 30 calendar days of the Company request.
- (3) In the event that an audit reveals that any customer reported PIU was incorrect, the Company shall apply the audit result to all usage affected by the audit. The customer shall be backbilled or credited, for a period retroactive to the date that the incorrect percentage was reported, but not to exceed 24 months. Backbilled amounts are subject to a late payment penalty and payment shall be made in immediately available funds, within 31 days from receipt of bill or by the following bill date, whichever is a shorter period.

## CARRIER-TO-CARRIER TARIFF

## SECTION 3 - SWITCHED ACCESS SERVICE, (CONT'D)

## 3.3 Rate Categories

There are three rate categories that apply to Switched Access Service:

- End Office Switching (includes Common Line and Switched Transport)
- Toll-Free 8XX Data Base Access Service
- Optional Features

## 3.3.1 End Office Switching

The Company combines traditional per minute switched access rate elements into a single composite per minute rate element. This element includes the following rate categories:

## A. Common Line

The Common Line rate category establishes the charges related to the use of Company-provided end user common lines by customers and end users for intrastate access.

## B. Switched Transport

The Switched Transport rate category establishes the charges related to the transmission and tandem switching facilities between the customer designated premises and the end office switch(es) where the customer's traffic is switched to originate or terminate the customer's communications. The Switched Transport rate category also includes transport between an end office that serves as host for a remote switching system or module (RSS or RSM) and the RSS or RSM.

- (1) **Tandem Switched Termination** element includes the non-distance-sensitive portion of Switched Transport and is assessed on a per minute of use basis.
- (2) **Tandem Switched Transport Facility** element includes the distance-sensitive portion of Switched Transport and is assessed on a per access minute of use basis.
- (3) **Tandem Switching** element includes the access tandem switching associated with Tandem-Switched Transport traffic and is assessed per access minute switched through the tandem.

SECTION 3 - SWITCHED ACCESS SERVICE, (CONT'D)

3.3 Rate Categories, (Cont'd.)

3.3.1 End Office Switching, (Cont'd.)

B. Switched Transport, (Cont'd.)

- (4) **Common multiplexing** is provided on a usage-sensitive basis in conjunction with Tandem Switched Transport. Switched access facilities are connected to the tandem as DSI/T-1 circuits. Multiplexing is required to convert common switched facilities from an operating speed of 44.736 Mbps to an operating speed of 1.544 Mbps. (N)
- (5) **Host-Remote Termination** rate is assessed to all switched minutes transported between the Host office and a RSM or RSS. Host Remote rates apply to all Feature Groups used to connect to the Host office.
- (6) **Host-Remote Facility** rate applies on a per minute per mile basis to all switched access minutes transported between the Host office and a RSM and RSS, regardless of the type of Switched Transport service the Customer uses to connect to the Host office. (N)

C. End Office Switching (M)

The End Office Switching rate category establishes the charges related to the use of end office switching equipment, the terminations in the end office of end user lines, the terminations of calls at Company Intercept Operators or recordings, the Signaling Transfer Point (STP) costs, and the SS7 signaling function between the end office and the STP. (M)

- (1) **Local Switching** rate element provides for (1) local end office switching, i.e., the common switching functions associated with the various Switched Access Service arrangements and (2) intercept functions, i.e., the termination of certain calls at a Telephone company intercept operator or recording. (N)

**CARRIER-TO-CARRIER TARIFF**

---

**SECTION 3 - SWITCHED ACCESS SERVICE, (CONT'D)**

**3.3 Rate Categories (Continued)**

**3.3.1 End Office Switching, (Cont'd.)**

**C. End Office Switching, (Cont'd.)**

- (2) **Common Trunk Ports** used by multiple customers provides for the termination of common transport trunks in common trunk ports in conjunction with tandem routed traffic. The Common Trunk Port rate is assessed on a usage sensitive basis on tandem routed switched access. (N)

**3.3.2 Toll-Free 8XX Data Base Query**

**Toll-Free 8XX Data Base Query** is a service offering that utilizes originating trunk side Switched Access Service to deliver Toll Free calls to the Company's Interexchange Carrier Customers. The service provides for the forwarding of End User dialed Toll Free calls to a Company Service Switching Point which will initiate a query to the database to perform the Customer identification and delivery function. The call is forwarded to the appropriate Interexchange Carrier Customer based on the dialed Toll-Free Number. Records exchange, rating and billing for Toll Free Data Base Access Service is subject to the provisions of the Multiple Exchange Carrier Access Billing Guidelines (MECAB). (T)

**3.3.3 Switched Access Optional Features**
