**In the Matter of the Application  
of Columbus Southern Power  
Company and Ohio Power Company  
to Establish Environmental  
Investment Carrying Cost Riders**

)  
)  
)  
)  
)  
)  
Case No. 10-155 EL-RDR

**APPLICATION**

1. Columbus Southern Power Company (CSP) and Ohio Power Company (OPCo), collectively referred as "the Companies" or "AEP Ohio," are electric light companies, as that term is defined in §§4905.03 and 4928.01 (A) (7), Ohio Rev. Code.
2. In the Companies' Electric Security Plan (ESP) proceeding (Case Nos. 08-917-EL-SSO and 08-918-EL-SSO) the Commission authorized the Companies to recover the incremental capital carrying costs associated with environmental investments made during the three-year ESP period. (ESP Opinion and Order, March 18, 2009, p. 30).
3. In its July 23, 2009 Entry on Rehearing, the Commission confirmed that the Companies should file an application to request recovery of actual environmental investment expenditures after those expenditures have been incurred. (Entry on Rehearing, p. 14, ¶42). In doing so, the Commission cited its Staff's example of how these annual recovery requests would be

**This is to certify that the images appearing are an  
accurate and complete reproduction of a case file  
document delivered in the regular course of business**  
Technician Bmm Date Processed 02-08-10

made. The Staff “envisioned an application in 2010 for recovery of 2009 actual environmental investment costs and annually thereafter for each succeeding year to reflect the actual expenditures.” (*Id.*)

4. In conformance with the Commission’s authorization of such annual filings to recover carrying costs related to actual environmental investment in the prior year, the Companies seek authority to each establish an Environmental Investment Carrying Cost Rider (EICCR). The EICCRs, with the initial level of each Company’s EICCR, are attached to this application as CSP Schedule 6 and OPCo Schedule 6. CSP’s proposed initial EICCR is 4.31451% of Non-FAC Generation charges and OPCo’s proposed initial EICCR is 4.18938% of Non-FAC Generation charges.
5. The Companies propose to adjust their respective EICCR by filing an application in the first quarter of 2011 based upon environmental investments made in 2010, and in the first quarter of 2012 based upon environmental investments made in 2011.
6. Each Company’s proposed initial EICCR is supported by their own set of Schedules 1-5. Each Company’s Schedule 3 is a copy of the respective page of Exhibit PJN-10 from the Direct Testimony of Philip Nelson in the Companies’ ESP proceeding.

7. Schedule 2 lists the month-by-month environmental capital additions in 2009 for each of the major environmental projects identified on that Schedule.
8. As shown on Schedule 1 for both Companies, their proposed initial EICCRs reflect the recovery over an 18-month period (July 2010-December 2011) of carrying costs on the 2009 environmental capital investment. Using CSP's Schedule 1 as an example, the revenue requirement for recovery of 2009 capital costs is shown on Line 9 as \$5,757,000. The additional revenue requirement over 2010 and 2011 (\$23,520,000) is determined by multiplying the Ongoing 2010-2011 revenue requirement (\$980,000) by 24 (months). The total revenue requirement of \$29,277,000 (\$5,757,000 + \$23,520,000) is to be recovered by applying the EICCR to the projected Non-FAC Generation charges over the 18-month period (\$678,569,900).
9. The Companies propose that their EICCRs become effective with the first billing cycle of July 2010. This effective date coincides with the Fuel Adjustment Clause Rider modification scheduled for the first billing cycle of July 2010. It is important that these dates coincide because the EICCR is within the rate increase caps authorized by the Commission in the Companies' ESP proceeding. Therefore, the implementation of the EICCR will impact the FAC level and the ESP Phase-In Plan deferrals associated with the FAC.
10. Because the authority to make this filing results from the Commission's orders in the Companies' ESP proceeding, and the schedules supporting the

request, which are attached to the application, can be verified by the Commission's Staff, the Companies do not believe that a hearing in this matter is required. Instead, the Companies request that the Commission establish an opportunity for the filing of comments and reply comments, setting a reasonable schedule which would permit the Companies' EICCRs to become effective with the first billing cycle of July 2010.

11. The Companies' proposed EICCRs are just and reasonable and are authorized as part of their ESPs. Therefore, the Companies request that the Commission approve this application.

Respectfully submitted,  
Marvin I. Resnik, Counsel of Record

P.U.C.O. NO. 7

ENVIRONMENTAL RIDER

Effective Cycle 1 July 2010, all customer bills subject to the provisions of this Rider, including any bills rendered under special contract, shall be adjusted by the Environmental Investment Carrying Cost Rider charge of 4.18938% of the customer's Non-Fuel generation charges under the Company's Schedules, excluding charges under any applicable Riders. This Rider shall be adjusted periodically to recover amounts authorized by the Commission.

Filed pursuant to Order dated \_\_\_\_\_ in Case No. \_\_\_\_\_

Issued: \_\_\_\_\_

Issued by  
Joseph Hamrock, President  
AEP Ohio

Effective: Cycle 1 July 2010
