Massillon, OH 44646

Docketing Case No.: 09-580-EL-EEC

Notes:

I am addressing this comment to you as our watchman and guardian for the citizens of Ohio. I have been following the fluorescent light bulb fiasco that First Energy was proposing last fall. I'm not sure what Einstein dreamed up the sale of \$3 fluorescent bulbs for \$21 as a deal to its customers, but in any case, I thank you for stopping the madness. I read First Energy is asking you to allow them to pass along any costs they have incurred associated with this debacle to the citizens, their customers. I ask you be our ombudsman and deny this request and remind them in the business world that they should be held accountable for the cost of their poor ideas and not try to harm the captive citizens of northeast Ohio. We the citizens of Ohio are stuck in an economic climate that needs good leadership from our politicians as well as our CEOs, not more bail-outs and increased utility costs.

Please docket the attached in the case number above.
