Docketing Case No.: 10-0176-EL-ATA

Notes: First energy lied about subsidies to all electric homes. I was solicited by them and offered free heating units and outdoor lights as an incentive. No one would bribe someone to buy a product at a price below production costs. PUCO did not do their job, when first energy proposed deregulation; it should have been easy to see that the folk at first energy were the only beneficiaries of the idea. If PUCO had vetted the proposal properly it would have been ridiculed and dismissed. There is no subsidy, only a volume discount that is accepted business practice everywhere.

Please docket the attached in the case number above.
