COMPLAINT DESCRIPTION:

Regarding Case No. 09-906-EL-SSO

The electric rate fiasco for hard working Ohioans was due to a "perfect storm" of generation rate increases along with an obscene doubling of the distribution related component of citizens electric bills.

My bills from the Illuminating Company contained distribution related component increases of January to January of 117 %, February to February was up 105 % , and March to March skyrocketed 88 %.

These increases were after the Residential Distribution Credit was subtracted from the Distribution Related Component.

 PUCO

09-906-EL-SSO

How in the world can the PUCO consider removing the Residential Distribution Credit if the increases were already obscene with the credit in effect?

This is not acceptable.

Governor Strickland's PUCO must address this assault on the good people of Ohio so our state can move forward.

Sincerely, Rita and Gary Shine
