**Re: Eastlake Substation-Eastlake Plant 138 kV Supply Project,  
Ohio Power Siting Board Case No. 10-0389-EL-BNR**

Dear Kim,

American Transmission Systems, Incorporated ("ATSI") filed a Construction Notice for authority to install a new 138 kV circuit to supply power for a new start up transformer at the Eastlake Plant. The three conductors extend from the Eastlake Substation to the Eastlake Plant spanning a distance of 630 feet (0.11 miles). The project is in the City of Eastlake, Lake County, Ohio. ATSI will be submitting a payment of \$2,000 so that the Construction Notice may be reviewed on an expedited basis.

If you have any questions, please contact me at (330) 384-2526,

Sincerely,

Scott Humphrys  
Associate Distribution Specialist  
Energy Delivery Transmission and  
Substation Design
