Docketing Case No.: 10-388-EL-SSO

Notes: When I bought my house in 1996, Ohio Edison installed a special hot water heater which was purchased and installed through them. Included with this installation was the installation of a device on my heater and my meter which allows them to turn my hot water heater on and off to help control electric usage during "peak" hours. In exchange for allowing them to use this device I was given a special winter all electric house heating rate. They discontinued my rate without notice and did not remove this device. Please include this in the hearings for DIS 10-388-EL-SSO

Please docket the attached in the case number above.
