Docketing Case No.: 10-0176-EL-ATA

Notes: I am writing to express my sincere distress that the PUCO even entertain First Energy's requests (Case 10-176-EL-ATA and Case 10-388-EL-550) for rate increases and other adjustments. FES has yet to resolve the all-electric issue with homeowners and businesses. You, the PUCO, have been lax in permitting FES to operate as an unregulated utility which has caused FES to blantly ignore the Ohio consumer. Moreover, these latest tactics by FES is to pit all electric home owners and small businesses against others thereby trying to say they cannot operate in a profitable manner. Yet, FES has gone on to purchase other utilities and buys out any electric utility that tries to offer competition for the benefit of the Ohio consumer. Please wake up PUCO before Ohio loses industrial and businesses due to FES's manner of operation. FES is also choosing to put the Ohio consumer in a position of poverty just to keep electric service in their home. You cannot be that naive that you do not see what is taking place. Oppose these latest FES proposals and make them resolve past issues and keep promises that they made to all electric users and have chosen to ignore.

Please docket the attached in the case number above.
