Docketing Case No: 10-0176-EL-ATA

Notes: Case Number #10-176 I have written you several times on the facts about how the original all-electric home discount was issued forever. Today, I would like to stress the harm allowing this discount to be revoked or modified. We bought our home in summer of 1976. We bought it because of the all-electric forever discount. We raised our children here and now we are retired in the same house. We are in our late 60's, we are on social security, our savings has been consumed by two recessions, medical bills etc. We are struggling to financially stay in our home. Please do not put us and many other seniors out of our homes. This discount will help us stay in our homes. Corporate monopoly, greed should not put us on the street. FE cannot make a breach of contract because it is good for them. It was good for them to grant the initial forever permanent discount. The PUCO must protect us.

Case# 10-176. The PUCO has a responsibility to not put profits or politics ahead of the all-electric home owners of Ohio. You are entrusted to control the utilities monopolies' appetite for more money and the reality of this group of home owners. The all-electric home original discount must be made permanent. This discount must be forever and put on the home so that the home retains its resale value.

Please docket the attached in the case number above.
