To Whom It May Concern:

RECEIVED-BOOKING DIV

2010 APR 19 PM 12:26

First Energy had no right to break a legal contract given to builders, and customers of All-Electric Homes over thirty years ago, nor did the Public Utilities Commission of Ohio have the legal right to allow First Energy to break this contract!

The builders of all electric homes, and the people who bought these homes did so on the legal promise of a all-electric discount freely given by First Energy. People would never built, or bought these homes without this discount, and if you allow First Energy to commit this fraud by doing away with

their discount we will not be
able to sell our homes, will
the State of Ohio then buy
our homes? If you allow First
Energy to commit this Fraud you
had better be prepared to buy
our homes, because no one else
will!!

P.S. If First Energy and P.U.C.O. do not
return our All-Electric
Discount we will
definitely see you
in Court! We will see what a jury thinks
of your actions.
