To Whom It May Concern:

PUCO

What legal right did the State of Ohio through its agency the Public Utility Commission of Ohio have to allow First Energy to break a legal contract that has been in force for thirty years that gave a all-electric discount to households of all-electric homes? How are we now going to pay electric bills that have gone up a third, or better? Now that we are unable to sell our homes because we now do not have our all-electric discount, is the state going to buy us out? Do you people really think your representing the interest of the citizens of Ohio, are you crazy? If we do not get our all-electric discount back on a permanent basis we will see you in court!

John F. Bildstein Jr.
