COMPLAINT DESCRIPTION:

I am concerned that the PUCO will not insist that the all electric rates be a permanent rate for the all electric homeowners. If this does not happen we as homeowners will be unable to sell our homes even at current market pricing( off 20-30%). I am also concerned that First Energy wants to bill customers for \$390m for refurbishing or replacing their equipment or it's expansion. The profits it has earned should go to such expenses and not be passed on to the consumers as it appears the company wants to do. I have attended one of the hearing in Cleveland and now would like to go on record.
