Sources

- 100 year floodplains provided by the Applicant.
- Approximate wetlands provided by JFNew.
- House coordinates provided by the Applicant.
- Houses within 100 feet of the project determined by EDR.
- Recreational facilities, hospitals, libraries, places of worship, golf courses, hamlets, local parks and schools were digitized by EDR based on Internet searches including Google maps and applicable municipal (state, county, town, village, etc.) and/or resource-specific (school district, library, church, etc.) websites. See VIA Section 7.0 Literature Cited/References for specific websites consulted. Locations of many of these resources were field verified.
- Cemeteries obtained from JFNew.
- NRHP listed/eligible features provided by JFNew.
- State Historic Marker digitized by EDR from information provided on Ohio Historical Society's "Remarkable Ohio" website.
- Areas of Intensive Land use obtained from ESRI USA Base Map, 2008.
- Scenic River obtained from ESRI StreetMap North America, 2008.
- Named Streams obtained from ESRI USA Base Map, 2008.
- Miami, Wabash & Erie Canal obtained from ESRI USA Base Map, 2008.
- Scenic Byway digitized based on information from National, Indiana and Ohio scenic byway program websites. See VIA Section 7.0 Literature Cited/References for specific websites consulted.
- Highways obtained from ESRI USA Base Map, 2008.
- Pipelines provided by the Applicant.
