Re: Case No. 10-369-EL-BGN (Paulding Wind Farm II LLC)  
Timber Road II Wind Project

Dear Ms. Jenkins:

Please find attached a letter from the United States Department of Commerce, National Telecommunications and Information Administration, indicating that no federal agencies represented in the Interdepartment Radio Advisory Committee (IRAC) had any concerns regarding blockage of their radio frequency transmissions from the Timber Road II Wind Project in Paulding County, Ohio.

Thank you for your cooperation.

Sincerely,

M. Howard Petricoff

Re: Timber Road II Wind Project, in Paulding County, OH

Dear Mr. Polisky:

In response to your request on April 13, 2010, the National Telecommunications and Information Administration provided to the federal agencies represented in the Interdepartment Radio Advisory Committee (IRAC) the plans for the Timber Road II Wind Project, located in Paulding County, Ohio.

After a 45 day period of review, no federal agencies identified any concerns regarding blockage of their radio frequency transmissions.

While the IRAC agencies did not identify any concerns regarding radio frequency blockage, this does not eliminate the need for the wind energy facilities to meet any other requirements specified by law related to these agencies. For example, this review by the IRAC does not eliminate any need that may exist to coordinate with the Federal Aviation Administration concerning flight obstruction.

Thank you for the opportunity to review these proposals.

Sincerely,

Edward M. Davison  
Deputy Associate Administrator  
Office of Spectrum Management
