**Re: Heartland Wind Energy LLC,  
Case No. 09-479-EL-BGN**

Dear Ms. Jenkins:

Attached is a response from Stoneco Inc./The Shelly Company ("Stoneco") with respect to the non-operation of the quarry during November through March. Heartland Wind Energy LLC is submitting this e-mail message because turbine No. 48 is located near Stoneco, and the Ohio Power Siting Board Staff expressed concerns about ice throw affecting Stoneco.

As you can see from the attached response, Stoneco is not operating during the months that ice throw would be an issue.

If you have any questions, please call me at the number listed above.

Sincerely,

Sally W. Bloomfield

**Subject:** Blue Creek Wind (Turbine 48)

Dan,

Stoneco, Inc.'s Scott quarry is located at 2364 Richie Road, Convoy, Ohio. The quarry typically operates from approximately April through October as weather permits. The management of Stoneco, Inc. has been informed about the possibility of ice throw issues as a result of the wind farm project. We do not think that the presence of turbine 48, as it is currently proposed, will pose a safety risk to our employees, contractors, vendors, or customers. The management of Stoneco, Inc. supports the wind farm project and does not object to its development.

Regards,

*Dale W. Mathew*
