Response to Staff Interrogatories – First Set

10-779-EL-REN

1. Section N

The meter depicted in the photograph was blank (it is a utility grade meter with a digital display) but the meter reading was listed as 0kWh.

The photograph was taken on the installation date of the system. The system at that point was not generating electricity. The meter does not indicate any electricity production because no electricity had been generated by the system.

This foregoing document was electronically filed with the Public Utilities

Commission of Ohio Docketing Information System on
