US LEC Communications, Inc.

Emergency Call Forwarding:

Description:

US LEC Communications, Inc. is filing this application to add language for Emergency Call Forwarding to Section 8.12 of the tariff, as shown on Sheet No. 76 attached in Exhibit B. This will apply to business customers calling into our Network Operations Center and requesting immediate call forwarding be done; there will be no charge for a PAETEC network related issue. In addition, customers have the ability to sign up for call forwarding which is charged monthly, and gives them the ability to perform the task themselves at any time.

Rationale:

Many customers are electing not to enroll in the service, although subsequently requesting it to be performed if an issue arises. To assist with the forwarding would be a drain of company resources as each individual number to be forwarded must be manually entered through a fairly lengthy process. The process is simplified and customers have direct access to perform the function themselves, when enrolling in the MRC product.

Change to Emergency Call Forwarding Charge

PAETEC would like to make you aware of an upcoming change to Emergency Call Forwarding charges. Beginning September 1, 2010, the charge for our Network Operations Center (NOC) to add Call Forwarding to circuits, for outage issues outside of PAETEC's control, will be \$99.00 per line. *Any outages for which PAETEC is responsible will not incur a Call Forwarding charge.*

To avoid a situation where this charge would be required, you may add Call Forwarding or Direct Trunk Overflow (DTO) as a monthly feature. Normal charges and timeframes would apply. If you have any questions, please contact Customer Care at the number listed on this invoice.
