Re: Case No. 10-1357-EL-BLN

Dear Sir or Madam:

Enclosed please find the original and ten (10) copies of the sixth (6th) page of Duke Energy Ohio, Inc.'s Letter of Notification for Zimmer Station 345 kV Transmission Line Relocation Project filed September 10, 2010. The page was inadvertently left out during copying. Please include this with the original letter.

Sincerely,

Elizabeth Watts
Assistant General Counsel

technician ASJ Date Processed 9/15/10

(5) Current and Pending Litigation

There is no current or pending litigation involving the proposed facility.

(6) Other Agency Permits and Requirements

No other agency permits or requirements exist for the line relocations.

(D) Environmental Data

The locations of the new structures are entirely on Duke Energy Zimmer Generating Station property and will be constructed on existing gravel lots or in maintained grass areas. The conductor passing between structures 304 and 304A (see included engineering line drawings) will follow the existing alignment and will not require any additional clearing within the riparian zone of Little Indian Creek.

No species of concern or habitat suitable for such species were observed along the project route. No other wetlands or other areas of ecological concern were identified along the project route.

There is no known additional information that will describe any unusual conditions resulting in significant environmental, social, health, or safety impacts.
