

Case No. 10-0577-EL-REN
MBC Bullshead Solar
Staff Interrogatories

Question 1: In response to K, your application indicates that you are currently registered with GATS. Please clarify if you are currently registered with GATS, or if you intend to register with GATS upon receipt of the state certification number.

Answer 1: Our GATS account number is 13559. We are waiting on receipt of the Ohio certification number to complete registration in GATS. The project is not registered in any state at this time.

Question 2: Please confirm that you will provide the required GATS generation ID number, upon receipt. Applicants have 15 days following receipt of the ID number to docket this information in their case proceeding.

Answer 2: Yes, we will provide upon receipt.

Question 3: Section N of the application requires certain information pertaining to the meter relied upon to report generation volumes to the attribute tracking system. Your supplemental filing included a dated photo of the meter. However, we also need the serial number of the meter and we need to be able to see the meter reading at the time of the photo. In the photo provided, the meter reading is not visible.

Answer 3: See attached photo. The Serial Number is 41 002 152. On the computer you can see the serial number and the meter reading (0). It may not print in a way that you can read both.

Question 4: In response to Section O, your application indicates a reporting date of 6/1/10. However, the supplemental filing indicates an on-line date of 9-3-10. Staff assumes that 9-3-10 is the date from which you would propose to report generation data to GATS. Please confirm.

Answer 4: [Yes that is correct.](#)
