Dear PUCO workers:

I strongly object to the plans of
Duke Energy to build a nuclear
plant in Ohio.

The multi-billions required would
be better spent on safer, renewable energy
projects.

Planners would do well to look
into the reasons why Germany is
reportedly planning to get rid of
(gradually) their nuclear plants.
What have they learned that we can
profit from?

Keep up the good work there!

Sincerely,

Mary Maxwell
