Purchased Water Calculation

PURCHASED WATER CALCULATION

Aqua Ohio, Inc.

Case No. 10-1254-WW-PWA

The current rate structure for the Aqua Ohio, Inc. Lake Erie Division customers, formerly the Lake Erie East Division, is a monthly metered charge that is billed in arrears. The Lake Erie Division purchases all of its water for the customers in the former Lake Erie East Division from the Ohio American Water Company. Ohio American was awarded a rate increase from the Public Utility Commission of Ohio in Case No. 09-391-WS-AIR on May 19, 2010. This award increased the rate for the water Aqua Ohio purchases to serve Lake Erie Division customers from Ohio American from \$1.74020 per 1,000 gallons to \$1.97180 per 1,000 gallons. The additional cost of purchased water will be equally distributed to metered customers by applying a 13.97% surcharge to metered customers. The purchased water adjustment will result in an additional \$.96 per month for an average residential customer using 4,000 gallons of water per month.

Proposed Customer Notice

FORMER LAKE ERIE EAST DIVISION

CUSTOMER NOTICE: PURCHASED WATER ADJUSTMENT

Ohio Revised Code Section 4909.171 provides that when a water company which is under the jurisdiction of the Public Utilities Commission of Ohio (PUCO) purchases water from another utility under PUCO jurisdiction the water company can pass on the increased cost of purchasing water for its customers. The charge does not include any administrative cost or any other operating expenses and is only the cost of purchased water. This procedure saves Aqua Ohio customers from bearing the expense of a rate case whenever Ohio American Water Company changes its rates to Aqua Ohio.

Aqua Ohio, Inc. filed an application August XX, 2010 with the Public Utilities Commission of Ohio (PUCO) in Case No. 10-1254-WW-PWA seeking approval to assess a purchased water charge in its Lake Erie Division. The purpose of seeking authority to assess this charge is to recover costs related to an increase from Ohio American Water Company in the rate it charges for purchased water (Case No. 09-391-WS-AIR).

After conducting an investigation into the application, the PUCO approved Aqua Ohio's request on XXX X, 2010. The increase will appear on billings on or after XXX XX, 2010. The Purchased Water Charge approved by the PUCO will result in the average residential customer's bill being increased by an additional charge in the amount of \$.96 per month for an average residential customer using 4,000 gallons of water per month.

The new Aqua Ohio Lake Erie Division water rate represents only the change in the rates from the Ohio American Water Company. No other costs of Aqua Ohio have been figured into the rate. Should Aqua Ohio wish to have other costs reflected in its rates, such as an increase in expenses, or addition to plant, it will be required to file an application for an increase in rates, for which traditional ratemaking procedures, including a public hearing will be scheduled.

If you have any questions regarding the Purchased Water Adjustment please call Aqua Ohio at 877-987-2782.
