1. ADVANCED CUSTOM CALLING SERVICE (cont'd)

B. Feature Description (cont'd)

2. Calling Party Number Blocking (cont'd)

Per Line^{/1/} Calling Party Number Blocking automatically prevents the display of the calling telephone number on all calls dialed from an exchange service equipped with this option. It is not necessary to dial an activation code prior to placing the call. After being informed of their blocking options by the Company, customers may subscribe to Per Line Blocking at the rates set forth in Paragraph 1.C.1. following.

No business, organization or other person may use Calling Party Number Blocking where the primary purpose is to make telephone solicitation calls. The term "telephone solicitation" means the initiation of a telephone message primarily for the purpose of encouraging a person to purchase, rent, or invest in property, goods, or services or to donate to any charity or similar organization or entity without that person's prior express invitation or permission.

Blocked Calling Party Number Identification will be delivered to certain qualifying customers as described in FCC Memorandum Opinion and Order, CC Docket No. 91-281, adopted January 4, 2002. Such customers must certify to the Company compliance with the waiver order's eligibility requirements.

3. Caller ID^{/2/}

Caller ID allows a customer to identify the telephone number from which a call is being made. The telephone number of the person initiating the call is displayed on a customer-provided display device except as noted below. The customer-provided display device must conform with the Technical References. These technical reference documents may be obtained from: (C)

APEx Support Team

5. Call Waiting ID

Allows customers to identify the name and/or number of an incoming caller when they are already speaking on the telephone and receive another phone call. Call Waiting ID service will allow for the display of the name and/or number of the new caller on the customer's CPE. This service allows the customer to decide if he wants to answer the new incoming call.

Call Waiting ID is offered subject to the following limitations:

- a. Customer must also subscribe to Call Waiting and Caller ID with Name.
- b. Service Terms and Conditions for both Custom Calling Services and Advanced Custom Calling Services will apply.
- c. Customers are responsible for furnishing their own compatible CPE, which should include the Caller ID capability necessary to display the calling party's name and/or number.
- d. Available only where central office facilities permit.

EXHIBIT C

AT&T Ohio hereby revises Part 7 Section 2 of its AT&T Ohio Tariff P.U.C.O. No. 20, to add language clarifying the limitations of Caller ID and Caller ID with Name service.

EXHIBIT D

The following AT&T Ohio bill page message was printed on the bills of impacted customers from 9-22-2010 through 10-21-2010.

Caller ID

On 12/1/2010, the tariff or guidebook language that governs the use of any Caller Identification (Caller ID) services on your account will now say, "Some call information may be blocked or otherwise not displayed, including information for some calls originating outside of AT&T's network and calls carried over facilities that do not transmit Caller ID information." This disclaimer either replaces existing information describing Caller ID information that is not displayed, or is added to the description of Caller ID to explain instances when that might occur. If you have any questions about this change, please call the AT&T toll free at the telephone number listed above, or visit us online at att.com.
