SECTION I – SERVICE

1. **Minimum Service Standards.** East Ohio shall comply with the minimum gas service standards for natural gas companies as set forth in Chapter 4901:1-13 of the Ohio Administrative Code, a copy of which may be viewed on the Public Utilities Commission of Ohio's Web site at www.puco.ohio.gov, or obtained from the Public Utilities Commission of Ohio upon request. Where the Public Utilities Commission of Ohio has granted a waiver to East Ohio for any provision of the minimum gas service standards, East Ohio shall comply with the terms of any Order granting such waiver.
2. **Application for Service.** All applications for gas service shall be made to East Ohio. East Ohio may, prior to initiating gas service and at other reasonable times, require the applicant to establish that the applicant is the owner or bona fide lessee of the premise. A proper application for gas service by a non-residential customer shall further include verification that the business, corporation or nonprofit is properly registered with the Ohio Secretary of State as an entity licensed to do business in the State of Ohio and that the name in which the customer's account is to be opened is in the same name as that registered with the Ohio Secretary of State; or, if the non-residential customer is a federally-chartered institution, that it is properly registered with the federal agency having regulatory or supervisory authority over it and that the name in which the customer's account is to be opened is the same name as that registered with the appropriate federal agency.
3. **Security Deposit.** If an applicant for service cannot establish creditworthiness or cannot give a reasonably safe guaranty in an amount sufficient to secure the payment of bills for sixty days' total usage, the proposed customer may be required to deposit with East Ohio an amount sufficient to cover an estimate of the monthly average of the annual consumption by such customer plus 30%, upon which deposit interest at the minimum rate authorized by the Public Utilities Commission of Ohio will be allowed and paid to the customer, provided it remains on deposit for six consecutive months. Security deposits will be billed in three installments to be paid concurrently with the respective monthly bills.

Residential security deposits shall be governed by the "Establishment of Credit for Residential Service" adopted by The Public Utilities Commission of Ohio and contained in Chapter 4901:1-17 of the Ohio Administrative Code, a copy of which is included as Section M of the East Ohio Gas Company Tariff. For small commercial customers, security deposits shall be governed by Rule 4901:1-13-08, "Standards specific to the provision of small commercial gas service" of the Ohio Administrative Code.

4. **Service Turn On.** The customer, after making proper application for service, shall notify East Ohio when he desires gas turned on. In no case shall he or his agent or employee turn on the gas. East Ohio may discontinue the supply of gas to premises where persons other than East Ohio's authorized agents or employees have turned on the gas.

9. **Company's Right to Disconnect Service.** East Ohio shall have the right to disconnect service and/or remove from the premises of any customer the meter and any other property belonging to East Ohio for any of the following reasons or purposes:
- a) Refusing access to its equipment for reading, testing, repairs or other purposes.
 - b) Violation of or refusal to comply with any applicable law or ordinance, contract, or any of these Rules and Regulations.
 - c) Non-payment of bills for gas within the net payment period for such bills, including nonpayment of security deposits applied to delinquent bills as a condition for continued service.
 - d) When customer has moved from the customer location.
 - e) Use of gas in a manner detrimental to the service to other customers.
 - f) Fraudulent representation or practice.
 - g) Whenever deemed necessary by East Ohio for the safety or integrity of the gas system or the customer's premise, including, but not limited to, situations in which a customer's houseline leak cannot be isolated to an individual appliance location drop.
 - h) Whenever there has been theft or vandalism, including, but not limited to, damage to the gas service meter, metering equipment, or the associated property was damaged, interfered with, displaced, bypassed or otherwise tampered with by a customer, consumer, or other person.
 - i) A person not authorized by East Ohio has reconnected service.

Disconnection of service to residential consumers or customers pursuant to Rule 9, subparagraph (a) of these Rules and Regulations shall include, but not be limited to, circumstances where despite its reasonable efforts to do so, East Ohio has been unable to obtain an actual meter reading at least once within any twelve-month period. "Actual meter reading" shall be as defined in Rule 16 of these Rules and Regulations. The reconnection of service after disconnection pursuant to Rule 9, subparagraph (a) of the Rules and Regulations shall be subject to prior payment of a fee of \$33.00 for the disconnection and reconnection costs. Payment of the designated deposit shall also be required in conjunction with a reconnection when service has been disconnected for the nonpayment of bills, where there has been a fraudulent misrepresentation or practice, whenever there is evidence of tampering or theft, or when a person not authorized by East Ohio has reconnected service. Security deposits will be billed in three installments to be paid concurrently with the respective monthly bills.

Disconnection of service to residential consumers or customers shall be governed by the "Termination of Residential Service" adopted by The Public Utilities Commission of Ohio and contained in Chapter 4901:1-18 of the Ohio Administrative Code, except for areas where the Public Utilities Commission of Ohio has granted a waiver to East Ohio for any provision of these rules. A copy of Chapter 4901:1-18 is included as Section L of the East Ohio Gas Company Tariff. For small commercial customers, disconnection of service shall be governed by Rule 4901:1-13-08, "Standards specific to the provision of small commercial gas service" of the Ohio Administrative Code.

SECTION II – METERING & BILLING

10. **Pressure Regulators, Gas Meters and Tampering.** The gas meter and any pressure regulator to be installed on a service line and connected with East Ohio's distribution system will be furnished by East Ohio and will remain its property, and the Company shall have the right to replace them as the Company may deem necessary. When a customer is served from the Company's field or gathering lines, the customer shall install and maintain, at his expense, a suitable regulator or regulators for reducing the pressure. The regulator or regulators shall be installed in the manner required by the Company. If any meter or regulator, or the pipes, fittings or connections used in supplying gas to such meter or regulator, is tampered with by a customer, his agent or employee, East Ohio may remove such meter or regulator and may discontinue the supply of gas to such customer until payment has been made for all unregistered gas, in an amount estimated by East Ohio, and for all damage to East Ohio's property, or, at East Ohio's option, it may discontinue gas service permanently to such customer.
11. **Meter Location.** The Company shall determine the location of the meter. When changes in a building or arrangements therein render the meter inaccessible or exposed to hazards, the Company may require the customer, at the customer's expense, to relocate the meter setting together with any portion of the customer's service line necessary to accomplish such relocation.
12. **Meter Connections.** The owner or customer shall not permit anyone who is not an authorized agent of the Company to connect or disconnect the Company's meters, regulators or gauges or in any way alter or interfere with the Company's meters, regulators or gauges.
13. **Bill Due Date.** The due date for each bill for gas shall be no earlier than fourteen (14) days after the date of its mailing or electronic delivery to the customer.
14. **Charge on Delinquent Bills.** Each monthly bill shall be due and payable within fourteen (14) days from the date of its mailing or electronic delivery. If not paid in full by the time the next bill is generated, a late payment charge of 1 1/2% may be imposed at the next bill date on all past due balances on the customer's account.

Late payment charges will not be assessed to customers participating in the Percentage Income Payment Plan ("PIPP") or the PIPP arrearage crediting program. Late payment charges will not be assessed to customers participating in a short-term payment plan or the budget billing plan provided they make the minimum payment required under the plan by the bill due date. If the required payment under a short-term payment plan or budget billing plan is paid late, the late payment charge will be applied only to amounts due but not paid under the payment plan.

28. **Appliances.** The customer shall install and maintain all appliances, at the customer's expense.
29. **Inspections of Altered Piping.** It shall be the duty of the customer to notify the Company promptly of any additions, changes, alterations, remodeling or reconstruction affecting gas piping on the customer's premises.
30. **Extension of Distribution Mains.** East Ohio will extend its distribution mains for the furnishing of natural gas on any dedicated street or highway without cost to the residential customer whenever at least one such customer on an average of each 100 additional feet of pipe in the street or highway in which the extension is to be run shall first agree to take a supply of gas at the applicable rate, measurement to be taken from the end of the nearest distribution main that has the capacity to serve the customer(s). Upon application for a service extension of main in excess of an average of 100 feet for each applicant for such service, East Ohio may enter into an extension agreement with the applicant or applicants providing for a deposit with East Ohio of a sum deemed adequate by East Ohio to cover the cost to be incurred by it for the excess of the extension over the average of 100 feet for each applicant to be served. Each applicant shall have the option of making such payment in the form of a one-time deposit or a monthly payment to be billed to the applicant and/or subsequent customer(s) at the same premises for a period of seven years or until the cost of the mainline extension is included in East Ohio's rates and charges for service, whichever comes first. If the applicant chooses to make the payment in the form of a one-time deposit, such deposit shall be refunded within a period of 10 years from the date of the agreement at a rate per each additional residential customer thereafter connected with said extension, equivalent to the rate per 100 feet deposited, the total amount refunded not to exceed the amount deposited. No refund shall be made after 10 years from the date of the extension agreement and such deposit shall, after such period, become the property of East Ohio. Extension deposits shall bear no interest. East Ohio shall apply the preceding terms to home builders and residential developers on the basis of anticipated residential customers, and, as a result, the deposit refund provisions are not applicable in such instances. Extensions of street and highway mains shall at all times be the property of East Ohio. Mainline extensions that are not installed in road right of way, or adjacent thereto, will be made only if the following guidelines are met:
- a) A minimum 20 foot legally described easement or blanket right of way is made and granted, provided, however, that all gas mainlines with a maximum allowable operating pressure at or above 100 psi must have a minimum 30 foot easement.
 - b) Free and clear access to the gas mainline is maintained with no structures permitted on the easement.

East Ohio shall not be required to lay any service lines across paved streets or highways. East Ohio shall not be required to make any extensions of its mains or to lay any service lines during the months of December, January, February and March of any year.

SECTION I – SERVICE

1. **Minimum Service Standards.** East Ohio shall comply with the minimum gas service standards for natural gas companies as set forth in Chapter 4901:1-13 of the Ohio Administrative Code, a copy of which may be viewed on the Public Utilities Commission of Ohio's Web site at www.puco.ohio.gov, or obtained from the Public Utilities Commission of Ohio upon request. Where the Public Utilities Commission of Ohio has granted a waiver to East Ohio for any provision of the minimum gas service standards, East Ohio shall comply with the terms of any Order granting such waiver.
2. **Application for Service.** All applications for gas service shall be made to East Ohio. East Ohio may, prior to initiating gas service and at other reasonable times, require the applicant to establish that the applicant is the owner or bona fide lessee of the premise. A proper application for gas service by a non-residential customer shall further include verification that the business, corporation or nonprofit is properly registered with the Ohio Secretary of State as an entity licensed to do business in the State of Ohio and that the name in which the customer's account is to be opened is in the same name as that registered with the Ohio Secretary of State; or, if the non-residential customer is a federally-chartered institution, that it is properly registered with the federal agency having regulatory or supervisory authority over it and that the name in which the customer's account is to be opened is the same name as that registered with the appropriate federal agency.
3. **Security Deposit.** If an applicant for service cannot establish creditworthiness or cannot give a reasonably safe guaranty in an amount sufficient to secure the payment of bills for sixty days' total usage, the proposed customer may be required to deposit with East Ohio an amount sufficient to cover an estimate of the monthly average of the annual consumption by such customer plus 30%, upon which deposit interest at the minimum rate authorized by the Public Utilities Commission of Ohio will be allowed and paid to the customer, provided it remains on deposit for six consecutive months. Security deposits will be billed in three installments to be paid concurrently with the respective monthly bills.

Residential security deposits shall be governed by the "Establishment of Credit for Residential Service" adopted by The Public Utilities Commission of Ohio and contained in Chapter 4901:1-17 of the Ohio Administrative Code. For small commercial customers, security deposits shall be governed by Rule 4901:1-13-08, "Standards specific to the provision of small commercial gas service" of the Ohio Administrative Code.

4. **Service Turn On.** The customer, after making proper application for service, shall notify East Ohio when he desires gas turned on. In no case shall he or his agent or employee turn on the gas. East Ohio may discontinue the supply of gas to premises where persons other than East Ohio's authorized agents or employees have turned on the gas.

9. **Company's Right to Disconnect Service.** East Ohio shall have the right to disconnect service and/or remove from the premises of any customer the meter and any other property belonging to East Ohio for any of the following reasons or purposes:
- a) Refusing access to its equipment for reading, testing, repairs or other purposes.
 - b) When providing service is in conflict or incompatible with any order of the PUCO, court of law, state of Ohio laws, federal government, or any of these Rules and Regulations.
 - c) Non-payment of bills for gas within the net payment period for such bills, including nonpayment of security deposits applied to delinquent bills as a condition for continued service.
 - d) When customer has moved from the service location.
 - e) Use of gas in a manner detrimental to the service to other customers.
 - f) Fraudulent representation or practice.
 - g) Whenever deemed necessary by East Ohio for the safety or integrity of the gas system or the customer's premise, including, but not limited to, situations in which a customer's houseline leak cannot be isolated to an individual appliance location drop.
 - h) Whenever there has been theft or vandalism, including, but not limited to, damage to the gas service meter, metering equipment, or the associated property was damaged, interfered with, displaced, bypassed or otherwise tampered with by a customer, consumer, or other person.
 - i) A person not authorized by East Ohio has reconnected service.
 - j) For good cause shown.

Disconnection of service to residential consumers or customers pursuant to Rule 9, subparagraph (a) of these Rules and Regulations shall include, but not be limited to, circumstances where despite its reasonable efforts to do so, East Ohio has been unable to obtain an actual meter reading at least once within any twelve-month period. "Actual meter reading" shall be as defined in Rule 18 of these Rules and Regulations. The reconnection of service after disconnection pursuant to Rule 9, subparagraph (a) of the Rules and Regulations shall be subject to prior payment of a fee of \$33.00 for the disconnection and reconnection costs. Payment of the designated deposit shall also be required in conjunction with a reconnection when service has been disconnected for the nonpayment of bills, where there has been a fraudulent misrepresentation or practice, whenever there is evidence of tampering or theft, or when a person not authorized by East Ohio has reconnected service. Security deposits will be billed in three installments to be paid concurrently with the respective monthly bills.

Disconnection of service to residential consumers or customers shall be governed by the "Termination of Residential Service" adopted by The Public Utilities Commission of Ohio and contained in Chapter 4901:1-18 of the Ohio Administrative Code, except for areas where the Public Utilities Commission of Ohio has granted a waiver to East Ohio for any provision of these rules. SECTION II – METERING & BILLING

10. **Pressure Regulators, Gas Meters and Tampering.** The gas meter and any pressure regulator to be installed on a service line and connected with East Ohio's distribution system will be furnished by East Ohio and will remain its property, and the Company shall have the right to replace them as the Company may deem necessary. When a customer is served from the Company's field or gathering lines, the customer shall install and maintain, at his expense, a suitable regulator or regulators for reducing the pressure. The regulator or regulators shall be installed in the manner required by the Company. If any meter or regulator, or the pipes, fittings or connections used in supplying gas to such meter or regulator, is tampered with by a customer, his agent or employee, East Ohio may remove such meter or regulator and may discontinue the supply of gas to such customer until payment has been made for all unregistered gas, in an amount estimated by East Ohio, and for all damage to East Ohio's property, or, at East Ohio's option, it may discontinue gas service permanently to such customer.
11. **Meter Location.** The Company shall determine the location of the meter. When changes in a building or arrangements therein render the meter inaccessible or exposed to hazards, the Company may require the customer, at the customer's expense, to relocate the meter setting together with any portion of the customer's service line necessary to accomplish such relocation.
12. **Meter Connections.** The owner or customer shall not permit anyone who is not an authorized agent of the Company to connect or disconnect the Company's meters, regulators or gauges or in any way alter or interfere with the Company's meters, regulators or gauges.
13. **Bill Due Date.** The due date for each bill for gas shall be no earlier than fourteen (14) days after the date of its mailing or electronic delivery to the customer.
14. **Charge on Delinquent Bills.** Each monthly bill shall be due and payable within fourteen (14) days from the date of its mailing or electronic delivery. If not paid in full by the time the next bill is generated, a late payment charge of 1 1/2% may be imposed at the next bill date on all past due balances on the customer's account.

Late payment charges will not be assessed to customers participating in the PIPP Plus program, which replaces the former Percentage Income Payment Plan ("PIPP"), or the Graduate PIPP Plus program, which replaces the former PIPP arrearage crediting program. Late payment charges will not be assessed to customers participating in a short-term payment plan or the budget billing plan provided they make the minimum payment required under the plan by the bill due date. If the required payment under a short-term payment plan or budget billing plan is paid late, the late payment charge will be applied only to amounts due but not paid under the payment plan.

28. **Appliances.** The customer shall install and maintain all appliances, at the customer's expense.
29. **Inspections of Altered Piping.** It shall be the duty of the customer to notify the Company promptly of any additions, changes, alterations, remodeling or reconstruction affecting gas piping on the customer's premises.
30. **Extension of Distribution Mains.** East Ohio will extend its distribution mains for the furnishing of natural gas on any dedicated street or highway without cost to the residential customer whenever at least one such customer on an average of each 100 additional feet of pipe in the street or highway in which the extension is to be run shall first agree to take a supply of gas at the applicable rate, measurement to be taken from the end of the nearest distribution main that has the capacity to serve the customer(s). Upon application for a service extension of main in excess of an average of 100 feet for each applicant for such service, East Ohio may enter into an extension agreement with the applicant or applicants providing for a deposit with East Ohio of a sum deemed adequate by East Ohio to cover the cost to be incurred by it for the excess of the extension over the average of 100 feet for each applicant to be served. Each applicant shall have the option of making such payment in the form of a one-time deposit or a monthly payment to be billed to the applicant and/or subsequent customer(s) at the same premises for a period of seven years or until the cost of the mainline extension is included in East Ohio's rates and charges for service, whichever comes first. If the applicant chooses to make the payment in the form of a one-time deposit, such deposit shall be refunded within a period of 10 years from the date of the agreement at a rate per each additional residential customer thereafter connected with said extension, equivalent to the rate per 100 feet deposited, the total amount refunded not to exceed the amount deposited. No refund shall be made after 10 years from the date of the extension agreement and such deposit shall, after such period, become the property of East Ohio. Extension deposits shall bear no interest. East Ohio shall apply the preceding terms for extension of distribution mains to home builders and residential developers on the basis of anticipated residential customers, and, as a result, the deposit installment payment and refund provisions are not applicable in such instances. Extensions of street and highway mains shall at all times be the property of East Ohio. Mainline extensions that are not installed in road right of way, or adjacent thereto, will be made only if the following guidelines are met:
- a) A minimum 20 foot legally described easement or blanket right of way is made and granted, provided, however, that all gas mainlines with a maximum allowable operating pressure at or above 100 psi must have a minimum 30 foot easement.
 - b) Free and clear access to the gas mainline is maintained with no structures permitted on the easement.

East Ohio shall not be required to lay any service lines across paved streets or highways. East Ohio shall not be required to make any extensions of its mains or to lay any service lines during the months of December, January, February and March of any year.

All Customer bills and payments will be handled in accordance with OAC rule 4901:1-29-12, except for 4901:1-29-12(F), (J), and (K) for which a waiver was granted.

If service is disconnected while receiving service under this rate schedule and the Customer's account has been final billed, the Customer will revert to East Ohio's sales service upon reconnection and the agreement between the Customer and the Supplier will be terminated.

SECTION II – METERING & BILLING

10. **Pressure Regulators, Gas Meters and Tampering.** The gas meter and any pressure regulator to be installed on a service line and connected with East Ohio's distribution system will be furnished by East Ohio and will remain its property, and the Company shall have the right to replace them as the Company may deem necessary. When a customer is served from the Company's field or gathering lines, the customer shall install and maintain, at his expense, a suitable regulator or regulators for reducing the pressure. The regulator or regulators shall be installed in the manner required by the Company. If any meter or regulator, or the pipes, fittings or connections used in supplying gas to such meter or regulator, is tampered with by a customer, his agent or employee, East Ohio may remove such meter or regulator and may discontinue the supply of gas to such customer until payment has been made for all unregistered gas, in an amount estimated by East Ohio, and for all damage to East Ohio's property, or, at East Ohio's option, it may discontinue gas service permanently to such customer.
11. **Meter Location.** The Company shall determine the location of the meter. When changes in a building or arrangements therein render the meter inaccessible or exposed to hazards, the Company may require the customer, at the customer's expense, to relocate the meter setting together with any portion of the customer's service line necessary to accomplish such relocation.
12. **Meter Connections.** The owner or customer shall not permit anyone who is not an authorized agent of the Company to connect or disconnect the Company's meters, regulators or gauges or in any way alter or interfere with the Company's meters, regulators or gauges.
13. **Bill Due Date.** The due date for each bill for gas shall be no earlier than fourteen (14) days after the date of its mailing or electronic delivery to the customer.
14. **Charge on Delinquent Bills.** Each monthly bill shall be due and payable within fourteen (14) days from the date of its mailing or electronic delivery. If not paid in full by the time the next bill is generated, a late payment charge of 1 1/2% may be imposed at the next bill date on all past due balances on the customer's account.

Late payment charges will not be assessed to customers participating in the PIPP Plus program, which replaces the former Percentage Income Payment Plan ("PIPP"), or the Graduate PIPP Plus program, which replaces the former PIPP arrearage crediting program. Late payment charges will not be assessed to customers participating in a short-term payment plan or the budget billing plan provided they make the minimum payment required under the plan by the bill due date. If the required payment under a short-term payment plan or budget billing plan is paid late, the late payment charge will be applied only to amounts due but not paid under the payment plan.

28. **Appliances.** The customer shall install and maintain all appliances, at the customer's expense.
29. **Inspections of Altered Piping.** It shall be the duty of the customer to notify the Company promptly of any additions, changes, alterations, remodeling or reconstruction affecting gas piping on the customer's premises.
30. **Extension of Distribution Mains.** East Ohio will extend its distribution mains for the furnishing of natural gas on any dedicated street or highway without cost to the residential customer whenever at least one such customer on an average of each 100 additional feet of pipe in the street or highway in which the extension is to be run shall first agree to take a supply of gas at the applicable rate, measurement to be taken from the end of the nearest distribution main that has the capacity to serve the customer(s). Upon application for a service extension of main in excess of an average of 100 feet for each applicant for such service, East Ohio may enter into an extension agreement with the applicant or applicants providing for a deposit with East Ohio of a sum deemed adequate by East Ohio to cover the cost to be incurred by it for the excess of the extension over the average of 100 feet for each applicant to be served. Each applicant shall have the option of making such payment in the form of a one-time deposit or a monthly payment to be billed to the applicant and/or subsequent customer(s) at the same premises for a period of seven years or until the cost of the mainline extension is included in East Ohio's rates and charges for service, whichever comes first. If the applicant chooses to make the payment in the form of a one-time deposit, such deposit shall be refunded within a period of 10 years from the date of the agreement at a rate per each additional residential customer thereafter connected with said extension, equivalent to the rate per 100 feet deposited, the total amount refunded not to exceed the amount deposited. No refund shall be made after 10 years from the date of the extension agreement and such deposit shall, after such period, become the property of East Ohio. Extension deposits shall bear no interest. East Ohio shall apply the preceding terms for extension of distribution mains to home builders and residential developers on the basis of anticipated residential customers, and, as a result, the deposit installment payment and refund provisions are not applicable in such instances. Extensions of street and highway mains shall at all times be the property of East Ohio. Mainline extensions that are not installed in road right of way, or adjacent thereto, will be made only if the following guidelines are met:
- a) A minimum 20 foot legally described easement or blanket right of way is made and granted, provided, however, that all gas mainlines with a maximum allowable operating pressure at or above 100 psi must have a minimum 30 foot easement.
 - b) Free and clear access to the gas mainline is maintained with no structures permitted on the easement.

East Ohio shall not be required to lay any service lines across paved streets or highways. East Ohio shall not be required to make any extensions of its mains or to lay any service lines during the months of December, January, February and March of any year.

Exhibit C-3

The tariff changes proposed in section 2.A) have been made for consistency with the new rules in Chapters 4901:1-17 and 4901:1-18, OAC, which became effective November 1, 2010.

The revisions proposed at 2.B) 1 – 3 are needed to correct or clarify tariff changes made in conjunction with DEO's rate case, Case No. 07-829-GA-AIR.

The tariff change proposed at 2.B) 4 is needed as a result of rule changes adopted by the Commission in Case No. 08-724-GA-ORD. In an Entry dated March 9, 2005 in Case No. 05-123-GA-UNC, the Commission granted DEO a waiver of certain rules regarding customer payment of charges related to competitive retail natural gas service. Rules 4901:1-29-12(J) and (K) as they existed at the time of the waiver were subsequently deleted in Case No. 08-724-GA-ORD. DEO's tariffs were not updated for that change. Accordingly, DEO is now updating the affected tariff sheets.

In addition to the revision of the Table of Contents to reflect the withdrawal of tariff sections L and M, the names of the tariffs for DEO's Low Usage Heat Pilot Programs have been corrected. DEO revised the names of those tariffs at the request of the Commission Staff after the rate case tariff updates were submitted in Case No. 07-829-GA-AIR. The Table of Contents was not updated for that change.
