COMPLAINT DESCRIPTION:

We want to have the "all electric" discount re-instated permantly. This was understood to be that way as an incentive to use electric rather than other forms of energy. Many of us have updated the equipment more than once to keep it efficient. At one time the gas company (Columbia) was putting a line close to our home, and I called CEI to see if they would do if we got service, and I was told that if I were to put a gas hot water heater in, I would loose the discount. I did not for two reasons (1) Columbia did not extend the gas line (2) I wanted to maintain the electric discount. I witnessed countless stories about how we were incented to remain all electric. Lets face it, they are playing games with selling power plants to another division of FE and then telling us the cost went up! If any cost goes up its the loss of electricity when its dumped in to the grid. It does not travel for free over the lines. This whole thing is disgustingly fueled by greed. These people do not deserve a bonus for managing a monopoly.
