Subject: 10-0224-EL-REN: Missing INFO

Hello. I am writing with regards to the following certified Ohio renewable energy resource generating facility, which is currently listed as having incomplete facility information:

Case number:
10-0224-EL-REN (ROSA RESIDENCE)

In Section K of the original application form, the attribute tracking system's generation ID was not provided because it had not yet been assigned, or was otherwise unavailable. Please be sure to file this information, under your case number, with the Public Utilities Commission of Ohio's Docketing Information System to avoid the termination of your certification. Per the Ohio Administrative Code (OAC 4905:1-40-04(F)(5)), 'Representatives of certified facilities must notify the commission within thirty days of any material changes in information previously submitted to the commission during the certification process. Failure to do so may result in revocation of certification status.' If you have any questions, please feel free to reply to this email or call (614)466-6493.

Thank you.

Krystina Schaefer
Public Utilities Commission of Ohio
