Dear Michael Kole:

The purpose of this letter is to inform you that adequate electric distribution facilities are available to serve the proposed new construction locations at:

1. Monroe Street (475-968S)
2. South Park Street (475-969Y)
3. Powers Street (524-342Y)
4. Willis Street (475-971A)
5. North Park Street (475-970T)

Depending upon the electrical load for the devices, there may be required system enhancements, which may need customer cost participation.

Please forward plans and load information to me at least 16 weeks prior to service needs. If there are no system enhancements required, utility service can be completed in a more timely manner.

Sincerely,

Ted Rader  
Engineering Supervisor, Illuminating Company
