Re: 09-1427-EL-EEC - Corrected Attachment 1 to Joint Application

Dear Ms McCaulley,

Upon review, the Joint Applicants in this case discovered that some of the information included in Attachment 1 to the Joint Application was in error. Those errors have been addressed in the document attached. Please accept this as the corrected Attachment 1 replacing the incorrect document previously filed.

Sincerely,

/s/ Anne Vogel

Project Overview:

The Self Direct Custom project that Taco Bell Corp. has applied for is the replacement of steam-based production line equipment to a dry production line operation in their kitchen. The Grill-To-Order dry production line operation has dry hot food wells to hold heated product and a griddle to heat product in place of the less efficient steam tables and steam cabinets previously used. The dry production line equipment is more efficient and uses less energy. The customer invoicing demonstrated that the equipment quantities applied for, were installed.

By signing this document, the Mercantile customer affirms its intention to commit and integrate the above listed demand reduction, response, and/or energy efficiency resources into the utility's demand reduction, demand response, and energy efficiency programs. By signing, the Mercantile customer also agrees to serve as a joint applicant in any filings necessary to secure approval of this arrangement by the Public Utilities Commission of Ohio, and comply with any information and compliance reporting requirements imposed by rule or as part of that approval.
