

Case No. 11-0107-EL-REN
Reiter Solar
Staff Interrogatories – Initial Set

Question 1: In Section G of the application the photograph of the solar array was unclear. Please provide a new photo of the facility in the space provided below.

Answer 1: Please see photo on next page of my solar system (Sunpower solar panels mounted on a pergola) that was taken a few months ago. This is the best vantage point I have for taking the photo without getting onto my very sloped roof, which would be dangerous. I can take a picture of the underside you want an additional picture.
