Re: Robert Misbrener 750 Hilltop Dr Kent, OH 44242

Docketing Case No: 09-580-EL-EEC

2011 JAN 28 PM 2: 33

Notes: Dear PUCO Associate, I respectfully request that the First Energy electrical rebate program under your review, be negotiated and approved as soon as possible. Kent State University and many other state of Ohio funded Universities are engaging in plans to meet Ohio HB-251 and are committed to energy reductions. We are making considerable headway - KSU Stark Campus currently under installation phase (served by AEP) by the ESCO Brewer-Garrett, will reduce facility annual energy use by about 37%. The rebate in place at AEP locations are a great advantage to that program. We will soon start projects at 5 other regional campuses bringing the total involved in energy efficiency projects to over 1.1 million square feet. Kent Campus is currently considering plans in hand from ESCOs of another 1.8 million square feet. When ultimately completed in several short years, facilities totaling about 7.3 million square feet will have reductions exceeding the HB-251 requirements, substantially reducing Kent State Universityâ?Ts impact on Ohioâ?Ts electrical power plants. Availability of rebate programs at our First Energy served locations would aid the energy programs and our students. At a time when State funding for higher education is at historical lows, the rebate programs would at least fill a portion of the shortfall. Best Regards, Bob Misbrener
