

BEFORE

OHIO POWER SITING BOARD

In the Matter of the Construction Notice)
of American Transmission Systems,)
Incorporated for the Bayshore-Maclean-) Case No. 08-1028-EL-BNR
Lemoyne 138kV Transmission Line)
Reconductoring Project.)

ENTRY

The Board finds:

- (1) On August 27, 2008, in accordance with Rule 4906-11-02, Ohio Administrative Code, American Transmission Systems, Incorporated (ATSI) filed a construction notice for a proposed transmission line project known as the Bayshore-Maclean-Lemoyne 138kV Transmission Line Reconductoring Project, located in an existing transmission corridor in Troy Township, Wood County, Ohio.
- (2) On February 4, 2011, ATSI filed a request to withdraw the construction notice for this project. ATSI states that, prior to commencing construction on the project, it evaluated and proposed an engineering modification to the project that involved installing larger transmission line conductors and intermediate structures along the route of the transmission line. ATSI represents that the modified scope of work exceeded the scope compatible with the construction notice filing, and, consequently, ATSI proposed the installation of the modified scope of work in Case No. 10-1149-EL-BLN. ATSI further represents that it intends to proceed only with the project set forth in Case No. 10-1149-EL-BLN, which is currently under review by the Board's Staff.
- (3) The Board finds that ATSI's request to withdraw the construction notice in Case No. 08-1028-EL-BNR is reasonable and should be granted.

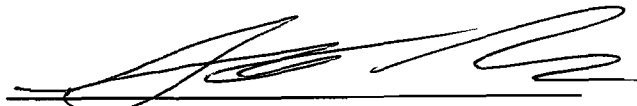

It is, therefore,

ORDERED, That ATSI's request to withdraw this case be granted. It is, further,

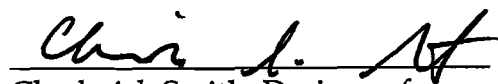

ORDERED, That Case No. 08-1028-EL-BNR be dismissed. It is, further,

ORDERED, That a copy of this Entry be served upon all parties of record.
