Docketing Case No.:09-1948-EL-POR

Notes:

Who is running the PUCO? First Energy? and how does one figure I will save \$50 a year using these cfl lightbulbs? I would suppose I would have to keep them on 24/7 to have the savings? I think the PUCO is in the pockets of First Energy... There should be no reason we should be forced to pay additional costs for someones pipe dream about cfls ..

We ought to ask all of you to resign your lucrative positions on the board, and allow common people who really care about the people of Ohio to run the PUCO, otherwise, you should take the P out of the PUCO because the Public is not being served by your suit and ties.

Please docket the attached in the case number above.
