PUCO

I am asking you again to stop this request by First Energy that forces us to pay for the bulbs that they decided to buy. They bought them and they can keep them and pay for them. ---
ContactThePUCO@puc.state.oh.us wrote: > October 13, 2009 >>> Dear Ms. Boyle: > Thank you for contacting the Public Utilities Commission of Ohio (PUCO) > regarding FirstEnergy's compact fluorescent light bulb program. COMPLAINT DESCRIPTION:

I can buy compact fluorescent light bulbs on the web for \$1.29 each, or I can buy them from Giant Eagle for \$1.50 when I buy groceries. SO HOW COME I GET \$0.30 ADDED TO MY BILL FOR THE "CFL PROGRAM" FOR THREE YEARS?

I'd rather buy my own light bulbs, thank you.

COMMENT DESCRIPTION:

The commissions approval of First Energy's request to force customers to purchase energy efficient light bulbs is out of line. This provides no benefit to the public and only pads the pockets of the company and who help them out. Do you know that the average person does not dispose of these new bulbs properly and does not know they should not be tossed in the garbage because of the mercury in these bulbs. I feel this program should be halted until an investigation can be opened into the commissions involvement. This should never have been approved.

Mike Lange

COMPLAINT DESCRIPTION:

I do not want any compact florescent bulbs from the utility. I do not want to be charged anything on my electric bill for them. I've already conserved electricity by buying energy efficient ref-rigrator, washer and dryer.

I wish you government people would cease with these mandates and stay out of my life.

COMPLAINT DESCRIPTION:

So I'm to pay \$18.00 dollars a month plus be forced to buy CFL loaded with toxic mercury in order to satisfy the PUCO and First Energy to get rid of all the CHINESE light bulbs? How is that fair to an ohio citizen, Sell me an Ohio made bulb....this is totally unfair...Greg....course you won't reply cause you already made up your mind to TAX the middle class again to pay for unwanted light bulbs...

Notes:

because of my husbands job.we always run late on paying electric.especially because the bill runs high,because of an elderly parent living here.the heat is unfortunetly electric.when i run late and try to catch up the bill.i try to at least pay something and always hit a road block.you cant pay like 100.00 on your bill.the automated phone system wont accept the payment.you cant pay online either.it also will not accept it.this is not a customer friendly company.it is not right for a company to keep you from paying on your bill.but can continually threaten to shut off your electric.i hope you can get through to this company.also it is not right that they try to shove junk light bulbs down your throat and make you pay for them besides.i do not want those china made bulbs.you should not pay for something you do not want.its just not legal!!my bill is high enough.get this company to be more customer friendly.but i wont hold my breath.when you have rich people on the board,like this company.they couldnt possibly understand how the little people have to skrimp to make it today.with the job situation and gas prices the way they are.just money is the bottom line for them.....i want to beable to pay on this bill,when i need to.as many times as i have to,to get it paid.and it be convient to do so.instead of hitting road blocks!

Please docket the attached in the case number above.
