Re: GEOSTAR LLC
Case No. 11-1416-TP-ACE

Dear Sir or Madam:

In accordance with staff member, Michelle Green's request, please find an original of the above captioned company's Responses to Staff Member's Second Data Request e-filed via the Docketing Information System.

Should you have any questions concerning this matter, please contact the undersigned.

Very truly yours,

CROCKER & CROCKER, P.C.

Patrick D. Crocker

PDC/tld

SECTION 1 - DEFINITIONS AND ABBREVIATIONS

Business Hours – The phrase “Business Hours” generally means the time beginning at 8:00 a.m. and ending at 5:00 p.m. local time at the place of Company operation, Monday through Friday excluding holidays.

Call - A Customer or End User attempt for which the complete address code (e.g., 0-, 911, or 10 digits) is provided to the Serving Wire Center, End Office or Access Tandem Switch.

Central Office - The premises of the Company or another local exchange carrier containing one or more switches where End User station loops are terminated for purposes of interconnection to other station loops, trunks or access facilities.

Channel - A communications path between two or more points.

CIC - An interexchange carrier identification code.

Commission - Refers to the Public Utilities Commission of Ohio.

Company - Used throughout this tariff to indicate GEOSTAR LLC.

Competitive Local Exchange Carrier - (“CLEC”) or Alternative Local Exchange Carrier (“ALEC”) – means any entity or person providing local exchange services in competition with an ILEC or LEC.

Constructive Order - Delivery of calls to or acceptance of calls from the Customer's End Users over Company switched local exchange services constitutes a Constructive Order by the Customer to purchase switched access services as described herein. Similarly the selection of the Customer by an End User as the End User's PIC constitutes a Constructive Order for switched access by the Customer.

Customer - Any person, firm, partnership, corporation or other entity that uses service under the terms and conditions of this tariff and is responsible for the payment of charges. In most contexts, the Customer is an interexchange carrier utilizing the Company's Switched Access services described in this tariff to reach its End User customer(s).

SECTION 1 - DEFINITIONS AND ABBREVIATIONS

Customer Premises - The premises specified by the Customer for termination of access services. Typically an interexchange carrier's Point of Presence.

Dedicated Access- Dedicated Access between the Customer's Premises or serving wire center and the Company's Point-of-Presence for origination or termination of Calls.

Delinquent or Delinquency – An account for which payment has not been made in full on or before the last day for timely payment.

Dual Tone Multifrequency (DTMF) - Tone signaling, also known as touch tone signaling.

End Office - The Central Office from which the End User's Premises would normally obtain local exchange service and dial tone from the Company or other local exchange carrier.

End Office Switch - A Company switching system where Customer or End User station loops are terminated for purposes of interconnection to other station loops, trunks or access facilities. In most contexts, the End User is connected via station loops or trunks to an End Office Switch.

End User - The customer of an interexchange carrier or other carrier who in turn utilizes the Company's Switched or Dedicated Access services described in this tariff to provide the End User with access to the IC's communication and switching systems.

End User Premises - The premises specified by the Customer or End User for termination of access services at the End User's physical location.

Equal Access - Where the local exchange company central office provides interconnection to interexchange carriers with Feature Group D circuits. In such End Offices, Customers can presubscribe their telephone line(s) to their preferred interexchange carrier. A form of dialed access provided by local exchange companies whereby telephone calls dialed by the Customer are automatically routed to the Company's network. Customers may also route calls to the Company's network by dialing an access code provided by the Company.

Exchange – A geographic area established by ILECs and approved by the Commission. A group of lines in a unit generally smaller than a LATA established by the Company or other local exchange carrier for the administration of communications service in a specified area. An Exchange may consist of one or more central offices together with the associated facilities used in furnishing communications service within that area.

Exchange Message Interface ("EMI") – The industry standard format used for exchange of telecommunications message information among carriers.

SECTION 1 - DEFINITIONS AND ABBREVIATIONS

PIC Authorization - A Customer's or End User's selection of a PIC that meets the requirements of federal and state law.

PIC - Primary Interexchange Carrier.

Point of Presence or POP - The physical location associated with an interexchange carrier's communication and switching systems.

Point of Termination - The point of demarcation within a Customer or End User Premises at which the Company's responsibility for the provision of access service ends. The point of demarcation is the point of interconnection between Company communications facilities and Customer-provided or End User-provided facilities as defined in Part 68 of the Federal Communications Commission's Rules and Regulations.

Premises - A building, portion of a building in a multi-tenant building, or buildings on continuous property not separated by a highway. May also denote a Customer-owned enclosure or utility vault located above or below ground on private property or on Customer acquired right-of-way.

Presubscription - An arrangement whereby a Customer selects and designate to the Company or other LEC a carrier he or she wishes to access, without an access code, for completing interLATA and/or intraLATA toll calls. The selected carrier is referred to as the Primary Interexchange Carrier (PIC).

Primary Interexchange Carrier (PIC) - The interexchange carrier (IXC) designated by the Customer as its first routing choice and primary overflow carrier for routing of 1+ direct dialed and operator assisted non-local calls.

Query - The inquiry to a Company database to obtain information, processing instructions or service data.

Recurring Charge - The charges to the Customer for services, facilities or equipment, which continue for the agreed upon duration of the service. Recurring charges do not vary based on Customer usage of the services, facilities or equipment provided.

Remote Switching Modules or Remote Switching Systems (RSM/RSS) - Small remotely controlled electronic End Office Switching equipment which obtains its call processing capability from a Host Office. An RSM/RSS cannot accommodate direct trunks to a Customer.

SECTION 1 - DEFINITIONS AND ABBREVIATIONS

Timely Payment – A payment on a Customer's account made on or before the due date.

Trunk - A communications path connecting two switching systems in a network, used in the establishment of an end-to-end connection.

Trunk Group - A set of trunks, which are traffic engineered as a unit for the establishment of connections between switching systems in which all of the communications paths are interchangeable.

V & H Coordinates - Geographic points which define the originating and terminating points of a call in mathematical terms so that the airline mileage of the call may be determined. Call mileage may be used for the purpose of rating calls.
