Memo

To: Docketing Division
From: George Martin, Grade Crossing Planner, Rail Division
Re: PUCO Case No. 10-618-RR-FED Request of the Indiana & Ohio Railway for an extension of time to complete a grade crossing project
Date: May 9, 2011

By its Entry dated May 19, 2010, the Commission ordered that the Indiana & Ohio Railway (IORY) install flashing lights and roadway gates at Fairfield County, Violet Township, Pickerington Rd/CR 20, DOT# 228945G on or before May 19, 2011. The project also involves the interconnection of the existing traffic signal at US 33 with the warning devices.

On May 6, 2011, IORY filed in this docket a request for an extension of 30 days to complete this project. IORY has all but completed the railroad portion of the portion. However, ODOT District 5 has experienced delays in obtaining the materials and funding needed for the traffic signal portion of the project.

Staff has been physically monitoring the project since May 2nd, and finds that the IORY's request is well made. Accordingly, staff recommends that the Commission grant this request.
