SECTION 3 - DESCRIPTION OF SERVICES (Cont'd)**3.2 Local Exchange Services****3.2.1 Standard Access Line**

The Standard Residential or Business Line provides a Customer with a single, analog, voice-grade telephonic communications channel which can be used to place or receive one call at a time. Standard Lines are provided for the connection of Customer-provided wiring and single station sets or facsimile machines. A multi-line subscriber is a Business customer with more than one Line provided by Company. Standard Access Lines enable the customer to:

- (a) place or receive calls to any station in the local calling area, as defined herein;
- (b) access enhanced 911 Emergency Service where available;
- (c) access the interexchange carrier selected by the Customer for interLATA, intraLATA, interstate or international calling;
- (d) access Operator Services;
- (e) access Directory Assistance;
- (f) place or receive calls to 800 numbers;
- (g) access Telecommunications Relay Service.

The Company's service will automatically block originating calls to other telephone companies' caller-paid information services (e.g., 900, 976) at no charge. Calls to those numbers and other numbers used for caller-paid information services will be unblocked on a per directory number basis only. Subsequent blocking of 900-type numbers will incur a charge listed in Section 4.

3.2.1.A Off Premise Extension

Extension service is an extension of lines at locations in addition to the location of the main line. Extension service is connected to an individual, auxiliary two party or four party line for the same subscriber and with the same telephone number.

SECTION 3 - DESCRIPTION OF SERVICES (Cont'd)

3.2 Local Exchange Services (Cont'd)

3.2.2 Local Calling Services

3.2.2.A Local Residential Line Service

Local Residential Line Service provides Residential Customers with the ability to originate calls from a Company-provided access line to all other stations on the public switched telephone network bearing the designation of any central office exchanges, areas, and zones included in the Customer's local calling area. Service may be provided in conjunction with other services and products included in this Section.

3.2.2.B Local Business Line Service

Local Business Line Service provides a Business Customer with the ability to originate calls from Company-provided access lines to all other stations on the public switched telephone network bearing the designation of any central office exchanges, areas, and zones included in the Customer's local calling area. Service may be provided in conjunction with other services and products included in this Section.

3.2.2.C Extended and Expanded Area Calling Services

Extended and Expanded Area Calling Service allows the Customer to make calls to specific NXX codes within designated exchanges outside the Customer's Local Calling area without paying intraLATA toll rates. The Customer is billed per call according to the duration of the call. Company will mirror all existing extended and expanded calling areas the ILEC currently has in place for facilities-based or resold services.

SECTION 3 - DESCRIPTION OF SERVICES (Cont'd)

3.2 Local Exchange Services (Cont'd)

3.2.3 Local Calling Plans

3.2.3.A NOS Major Deal Plan

NOS Major Deal Plan is a package of value added services combined into one product offered at a reduced monthly rate to Residential end users.

3.2.3.B NOS Local Calling Plan

NOS Local Calling Plan is an optional intrastate intraLATA one-way offering to certain exchanges within Ohio. The calling area for each LCP exchange includes the home exchange, Local Calling Area exchanges and other designated exchanges. The regulations and rates contained herein are in addition to all other applicable regulations and rates specified in this and other Company tariffs. Certain other services and calling plans may not be available to customers that opt to use this service.

NOS Local Calling Plan consists of the following options:

Community Call: provides flat rate calling within the customer's home exchange and Local Calling Area exchanges listed in GTE North Inc. Tariff P.U.C.O. No. 6, Section 3. Calls to certain other exchanges are rate based on minutes of use.

Community Extra: provides flat rate calling within the customer's home exchange as well as to the Local Calling Area exchanges listed in GTE North Inc. Tariff P.U.C.O. No. 6, Section 3 and to certain other exchanges. Calls to certain other exchanges are rate based on minutes of use.

Premier Calling: provides flat rate calling within the customer's home exchange, Local Calling Area exchanges and other designated exchanges.

NOS Local Calling will not be offered to following classes of service: Customer-Owned Pay Telephone Service, Customer Owned Coin Operated Telephone Service, Foreign Exchange Service, Telephone Service Assistance, WATS or Feature Group A.

SECTION 3 - DESCRIPTION OF SERVICES (Cont'd)

3.3 Miscellaneous Local Features

3.3.1 Busy Line Verification and Interrupt Service

Busy Line Verification and Interrupt Service, furnished to the extent facilities permit, provides the customer with the following options:

3.3.1.A Busy Line Verification: Upon request of the calling party, the Company will determine if the line is clear or in use and report to the calling party.

3.3.1.B Busy Line Verification and Interrupt: The operator will interrupt the call on the called line only if the calling party indicates an emergency and requests interruption.

3.3.2 Call Blocking Features

A calling party may block their telephone number, associated main listed name and voiceback of calling identification information to users or subscribers to customer calling features utilizing SS7 technology. Blocking will also prevent call completion through the use of Return Call service. Customers have three blocking options: (1) Per Call Blocking, (2) Per Line Blocking, or (3) Class Call Blocking. These features allow the end-user to automatically block incoming calls from up to six Customer pre-selected telephone numbers (including numbers from which a Customer has just received a call. The list of numbers can be changed at any time. Callers whose numbers have been blocked will hear a recorded message and no usage charges will apply. The calling party's number will not be delivered or announced to the call recipient under any circumstances.

3.3.3 Calling Card Services

The Company's Calling Card Services are offered to Customers of its local exchange and long distance services. The Company's Calling Card Services are accessed by dialing a toll-free number and entering the Calling Card Number (area code, phone number, and PIN).

SECTION 3 - DESCRIPTION OF SERVICES (Cont'd)**3.7 Miscellaneous Local Features (Cont'd)****3.3.7 Directory Listings**

For each Customer of Company-provided Exchange Service(s), the Company shall arrange for the listing of the Customer's main billing telephone number in the directory(ies) published by the dominant Local Exchange Carrier in the area at no additional charge. Directory listings are provided in connection with each Customer service as specified herein. The Company reserves the right to limit the length of any listing in the directory by the use of abbreviations when, in its judgment, the clearness of the listing or the identification of the Customer is not impaired thereby. When more than one line is required to properly list the Customer, no additional charge is made. The following types of listings will be made available: (1) primary; (2) additional; (3) non-published; (4) non-listed; (5) alternate call; and (6) reference.

3.3.8 Local Number Portability

Local Number Portability End User charge is a pass-through charge assessed to recover the authorized FCC charges incurred by the Company from the incumbent local exchange carrier ("ILEC") related to the provision of long-term number portability. The Local Number Portability End User charge is assessed per the local exchange service line and will be passed through to the customer during the authorized recovery period, which will not exceed the authorized recovery period of the ILEC.

SECTION 3 - DESCRIPTION OF SERVICES (Cont'd)

3.4 Custom Calling Features

3.4.1 Automatic Call Return/*69: Enables a Customer to automatically return the last incoming Call. To return the call, the Customer dials a feature Code and the number is dialed automatically. If the called line is busy, a 30-minute queuing process begins. The Customer is then given an indication that the network will attempt to set up the Call when the called line is idle.

3.4.2 Busy Number Re-dial: This feature automatically redials another party's phone number after the Customer's first attempt to connect to that number resulted in a busy signal. The line is checked every 45 seconds for up to 30 minutes and alerts the Customer with a distinctive ringing pattern when the busy number and the Customer's line are free. The Customer can continue to make and receive other calls while the feature is activated.

3.8 Custom Calling Features (Cont'd)

3.4.8 Caller ID with Name: This feature provides the originating telephone number and also the name associated with the line. The information is displayed on a Customer provided display device attached to the Customer's telephone line.

3.4.9 Call Manager Intercept: This feature is an enhancement to Caller ID with Name. It allows users to request callers identify themselves prior to answering the incoming call. It includes Caller ID Number Display and Caller ID Name Display.

3.4.10 Call Manager Package: A Privacy Manager with Basics package with several features including Three Way Calling, Caller ID With Name, Caller ID With Number, Call Forwarding, Speed Dial 8 number capacity, Repeat Dial (Busy Line auto redialing), Auto Call Back (*69),

3.4.11 Call Return: Enables a Customer to automatically return the last incoming Call.

3.4.12

3.4.13 Call Waiting: Permits the End-User engaged in a call to receive a tone signal indicating a second call is waiting and, by operation of the switch hook, to place the first call on hold and answer the waiting call. The Customer may alternate between the two calls by operation of the switch hook, but a three-way conference call cannot be established. Feature may be used in conjunction with Caller ID (Caller ID Intercept).

3.4.14 Cancel Call Waiting: Allows the User, on a per-Call basis, to cancel the Call Waiting function by dialing *70 before making a call.

3.9 Maintenance and Installation Charges (Cont'd)

3.5.3 Non-Routine Installation

At the Customer's request, installation and/or maintenance may be performed outside the Company's regular business hours or in unusual locations. In such cases, charges based on cost of the actual labor, material, or other costs incurred by or charged to the Company will apply. If installation is started during regular business hours but, at the Customer's request, extends beyond regular business hours into time periods including, but not limited to weekends, holidays, and/or night hours, additional charges may apply.

3.5.4 Central Office Exchange Access Line Charge

This covers work associated with the line extending from the serving central office up to and including the Rate demarcation Point on the customer's premises. Major work functions are central office cross-connect work, work done with distribution facilities outside of the central office, and connection of drop wire to the protector at the Customer's premises.

3.5.5 Element Service Charges

Element Service Charges for work activities performed in connection with Channel Service are charged for at business rates except for orders for residence foreign central office district and foreign exchange services.

SECTION 3 - DESCRIPTION OF SERVICES (Cont'd)

3.2 Local Exchange Services

3.2.1 Standard Access Line

The Standard Residential or Business Line provides a Customer with a single, analog, voice-grade telephonic communications channel which can be used to place or receive one call at a time. Standard Lines are provided for the connection of Customer-provided wiring and single station sets or facsimile machines. A multi-line subscriber is a Business customer with more than one Line provided by Company. Standard Access Lines enable the customer to:

- (a) place or receive calls to any station in the local calling area, as defined herein;
- (b) access enhanced 911 Emergency Service where available;
- (c) access the interexchange carrier selected by the Customer for interLATA, intraLATA, interstate or international calling;
- (d) access Operator Services;
- (e) access Directory Assistance;
- (f) place or receive calls to 800 numbers;
- (g) access Telecommunications Relay Service.

The Company's service will automatically block originating calls to other telephone companies' caller-paid information services (e.g., 900, 976) at no charge. Calls to those numbers and other numbers used for caller-paid information services will be unblocked on a per directory number basis only. Subsequent blocking of 900-type numbers will incur a charge listed in Section 4.

3.2.3.B NOS Local Calling Plan

NOS Local Calling Plan is an optional intrastate intraLATA one-way offering to certain exchanges within Ohio. The calling area for each LCP exchange includes the home exchange, Local Calling Area exchanges and other designated exchanges. The regulations and rates contained herein are in addition to all other applicable regulations and rates specified in this and other Company tariffs. Certain other services and calling plans may not be available to customers that opt to use this service.

NOS Local Calling Plan consists of the following options:

Community Call: provides flat rate calling within the customer's home exchange and Local Calling Area exchanges listed in GTE North Inc. Tariff P.U.C.O. No. 6, Section 3. Calls to certain other exchanges are rate based on minutes of use.

Community Extra: provides flat rate calling within the customer's home exchange as well as to the Local Calling Area exchanges listed in GTE North Inc. Tariff P.U.C.O. No. 6, Section 3 and to certain other exchanges. Calls to certain other exchanges are rate based on minutes of use.

Premier Calling: provides flat rate calling within the customer's home exchange, Local Calling Area exchanges and other designated exchanges.

SECTION 3 - DESCRIPTION OF SERVICES (Cont'd)

3.7 Miscellaneous Local Features (Cont'd)

3.7.7 Directory Listings

For each Customer of Company-provided Exchange Service(s), the Company shall arrange for the listing of the Customer's main billing telephone number in the directory(ies) published by the dominant Local Exchange Carrier in the area at no additional charge. Directory listings are provided in connection with each Customer service as specified herein. The Company reserves the right to limit the length of any listing in the directory by the use of abbreviations when, in its judgment, the clearness of the listing or the identification of the Customer is not impaired thereby. When more than one line is required to properly list the Customer, no additional charge is made.

D
D

3.7.8 Local Number Portability

Local Number Portability End User charge is a pass-through charge assessed to recover the authorized FCC charges incurred by the Company from the incumbent local exchange carrier ("ILEC") related to the provision of long-term number portability. The Local Number Portability End User charge is assessed per the local exchange service line and will be passed through to the customer during the authorized recovery period, which will not exceed the authorized recovery period of the ILEC.

SECTION 3 - DESCRIPTION OF SERVICES (Cont'd)

3.9 Maintenance and Installation Charges (Cont'd)

3.9.3 Non-Routine Installation

At the Customer's request, installation and/or maintenance may be performed outside the Company's regular business hours or in unusual locations. In such cases, charges based on cost of the actual labor, material, or other costs incurred by or charged to the Company will apply. If installation is started during regular business hours but, at the Customer's request, extends beyond regular business hours into time periods including, but not limited to weekends, holidays, and/or night hours, additional charges may apply.

3.9.4 Central Office Exchange Access Line Charge

This covers work associated with the line extending from the serving central office up to and including the Rate demarcation Point on the customer's premises. Major work functions are central office cross-connect work, work done with distribution facilities outside of the central office, and connection of drop wire to the protector at the Customer's premises.

Statement Regarding Customer Notice Consistent with Rule 4901:1-6-07

The attached notices regarding the Company's detariffing filing were sent to residential and business customers at least 15 days prior to this filing. Consistent with Commission Rule 4901:1-6-07(C), a copy of these notices was emailed to Telecomm-Rule07@puc.state.oh.us concurrent with the initial issuance to customers.

Residential Customer Notice: NOS Communications, Inc.

Beginning on May 16, 2011, the prices, service descriptions, and the terms and conditions for services other than local flat rate service that you are provided by NOS Communications, Inc. will no longer be on file at the Public Utilities Commission of Ohio (PUCO).

This modification does not automatically result in a change in the prices, terms, or conditions of those services to which you currently subscribe. NOS Communications must still provide a customer notice at least fifteen days in advance of rate increases, changes in terms and conditions and discontinuance of existing services. Additionally, you will be able to view the company's future service offerings in a service guide online at www.nos.com or you can request a copy of this information by contacting NOS Communications at 250 Pilot Road, Suite 300, Las Vegas, NV 89119, toll free number 888-570-4667.

Since these services will no longer be on file with the Commission, this means that the agreement reached between the customer and the company will control new services or changes in service. For any new services or changes in service, it will be important that you carefully review and confirm the price, terms and conditions.

If you have any questions about this matter, please call NOS Communications at the toll free number 888-570-4667 or visit us at www.nos.com. You may also visit the consumer information page on the PUCO's website at puco.ohio.gov for further information.

Business Customer Notice: NOS Communications, Inc.

Beginning on May 16, 2011, the prices, service descriptions, and the terms and conditions for services other than a primary line provided by NOS Communications, Inc. will no longer be on file at the Public Utilities Commission of Ohio (PUCO).

This modification does not automatically result in a change in the prices, terms, or conditions of those services to which you currently subscribe. NOS Communications must still provide a customer notice at least fifteen days in advance of rate increases, changes in terms and conditions and discontinuance of existing services. Additionally, you will be able to view the company's future service offerings in a service guide online at www.nos.com or you can request a copy of this information by contacting NOS Communications at 250 Pilot Road, Suite 300, Las Vegas, NV 89119, toll free number 888-570-4667.

Since these services will no longer be on file with the Commission, this means that the agreement reached between the customer and the company will control new services or changes in service. For any new services or changes in service, it will be important that you carefully review and confirm the price, terms and conditions.

If you have any questions about this matter, please call NOS Communications at the toll free number 888-570-4667 or visit us at www.nos.com.
