RE:

AMENDMENT TO THE GEAUGA COUNTY 138kV TRANSMISSION LINE SUPPLY PROJECT Case Number 11-1220-EL-BTA Supplemental Information

Dear Ms. Jenkins:

This submittal is in reference to the application for an amendment filed in the above docket. Attached please find two revised figures for the application. These figures are:

- Revision 2 of Figure 07-2TT OPSB Approved Route Wetland and Stream Maps
- Revision 2 of Figure 07-2V OPSB Approved Route Wetland and Stream Maps

One (1) original and (21) copies of these figures are enclosed. Both figures replace Revision 1 of the figures previously included in the submitted application for amendment. Revision 2 of these figures has been issued to correct two drafting discrepancies in the previously submitted figures:

- In Revision 1 of Figure 07-2V, a section of the OSPB Approved route north of the proposed adjustment was incorrectly shown as being slightly north of the approved route and thus the route crossed a portion of wetland Pr-w087. This discrepancy has been corrected in Revision 2 of Figure 07-2V with the OPSB Approved Route appropriately located south of wetland Pr-w087.
- In Revision 1 of Figures 07-2TT and 07-2V, the northern most segment of the adjusted route was planned to be approximately 110 feet west of the nearby easterly property line, but only shown on the figures as approximately 60 feet from this property line. This

 discrepancy has been corrected in Revision 2 of Figures 07-2TT and 07-2V and thus both the
proposed right-of-way of the adjusted route and any possible priority tree would be located on the
same parcel.

A copy of this submittal has been provided to the parties identified in Attachment A. Should the Ohio Power Siting Board desire further information or discussion of this submittal, please contact me at (614) 227-2028.

Very truly yours

Robert J. Schmidt, Jr.
