MISCELLANEOUS SERVICE ARRANGEMENTS

TOUCH-CALL SERVICE²

A. General

Touch Call Service provides for the origination of telephone calls through the use of telephone instruments quipped with pushbuttons in place of the standard rotary dial.

B. Rates *Tier 1 Core Service

(C)

	Monthly Rate		
	<u>Current</u>	<u>Maximum</u>	<u>NRC</u>

(C)

(C)

1. The monthly rate for Touch Call Service is in addition to the applicable local exchange rate for the class of service provided.

2. Rates

a. Each central office line

1) Business

\$2.00 \$2.00

(1)

(C)

2) Residence

1.50 1.50

(1)

(C)

(1) Service Connection Charges apply--See Section 6.

² Touch-Call Service is now part of the local access line rates shown elsewhere in this tariff. Effective August 6, 2007, this service will be grandfathered to current customers. Any subsequent change to service made by such a grandfathered customer, however, will result in the loss of the grandfathering exception and will require that customer to upgrade to Touch Call Service.

* Rates for Tier 1 Core services are capped at current rates. Rates for Tier 1 Non-Core services are capped at current rates until 09/10/09. After 09/10/09, Tier 1 Non-Core rates can be increased to a maximum cap of double the initial rate, other than the second local exchange access line and call waiting, which are limited to a ten percent increase per year until they cap at double the initial rate. This pricing flexibility is in accordance with O.A.C. 4901:1-4 and Alt Reg Case No. 07-847-TP-ALT, effective 09/10/07.

DIRECTORY LISTINGS (CONT'D)

C. Conditions

1. A primary listing is furnished as part of and in the rate for telephone service. The primary listing may include the name, address and telephone number of:
 - a. The individual, organization, firm or corporation contracting for the service.
 - b. The same surname with no more than two individual given names. Each given name for the purposes of this Tariff is defined as any combination, not to exceed two, of the following.
 - 1) First name
 - 2) Middle name
 - 3) Initial
 - 4) Nickname
 - 5) Maiden name
 - c. An additional listing reversing the order of the individuals given names in b., above, may be provided at the rates for additional listings, shown in B. Rates, above.
2. An additional listing may include the same address and telephone number as the primary listing, except that a different address may be shown for off-premises stations located on other premises occupied solely by the customer.
 - a. Additional listings may be furnished with business or residence service for persons who occupy the same premises at the rates shown above. (See "Joint-User Service".)
3. An alternate call listing refers a calling party to certain other telephone numbers after business hours or on Sundays or Holidays, or if there is no answer on the first listed number.

DIRECTORY LISTINGS (Continued)

APPROVED

C. Conditions (Continued)

4. A foreign or noncustomer listing may be furnished customers requesting their listing be included in a directory of an exchange other than that from which service is rendered.
5. Nonpublished service is the omission of a customer's listing from both the telephone directory and directory assistance records.
 - a. When nonpublished service is to be furnished, the customer will hold the Company harmless from any damages which might arise and will absolve the Company from any responsibility for the failure of the customer to receive calls because of the nonpublished listing.
 - b. The rate for nonpublished service is specified in B. Rates, above.
 - c. The charge will not apply to nonpublished numbers for customers having other listed services.
6. Nonlisted service is the omission of a customer's listing from the telephone directory only. It may be obtained from the directory assistance operator.
 - a. The charge will not apply to nonlisted numbers for customers having other listed services.
7. The charge for additional, alternate, nonlisted or nonpublished listings begins on the day the directory assistance records are posted.
8. The length of contract period for directory listings, where the listing actually appears in the directory, is the directory period. The directory period is from the day on which the directory is distributed to the customers to the day the succeeding directory is distributed to the customers, unless the listing no longer serves the customer because of disconnection, removal, etc., of the service.

SUSPENSION OF SERVICE (residence only)

APPROVED

(C)

A. General

Suspension of Service allows local exchange service to be temporarily suspended by request of the customer. This service is provided to customers whose requirements for telephone service is less than the normal 12-month period within a year.

B. Conditions

1. Service can be temporarily suspended for a minimum of one (1) month and a maximum of ten (10) months.
2. Suspension of Service is available on all one-party residence lines subject to the availability of facilities. (C)
(C)
3. The customer must have at least one month of regular telephone service paid prior to the establishment of Suspension of Service.
4. The Company reserves the right to bill charges for the total number of suspended months requested prior to establishment of Suspension of Service.
5. Suspension of Service may begin and terminate on any day of the month, provided notice is given sufficiently in advance for arrangements to be made.
6. The Company will not provide installations, moves, changes, or maintenance during the period when the customer is billed at the reduced rate.
7. Only two suspension periods will be allowed and shall not exceed ten months in any one calendar year nor exceed ten continuous months at any time regardless of the year.
8. Bills are rendered at the reduced rate at regular billing dates during the period of suspension.
9. The customer's listing will be retained in the directory.
10. The Company assumes no liability for failure of a calling party to reach the customer during the period of suspension.
11. The Company reserves the right to refuse suspension of service in the case of a customer whose account is delinquent.

MISCELLANEOUS SERVICE ARRANGEMENTS

SUSPENSION OF SERVICE (Residence only) (continued)

APPROVED

(C)

B. Conditions (Continued)

Unless specifically exempted, Suspension of Service shall be subject to all general regulations applicable to the provision of service by the telephone company as stated in the general tariff.

13. The ten (10) month maximum does not apply to military personnel who are on active duty.

C. Rates and Charges

1. The monthly rate will be based upon 50% of the regular rate for basic local one-party exchange service. All other local services will be zero rated except for the following:

- a) 911/E911 applicable surcharges will be billed at the full rate.
- b) The Federal Subscriber Line Charge will be discounted 50% per the National Exchange Carrier Association FCC Tariff No. 5, Section 4.5.5.

2. Non-recurring charges do not apply for reconnection to regular full service.

3. **Personal Greeting Service**

This optional service is available for customers who prefer to leave a personalized greeting for incoming calls while they are on Suspension of Service.

Monthly Rate: \$3.50

GENERAL EXCHANGE SERVICE TARIFFS

MISCELLANEOUS SERVICE ARRANGEMENTSEMPLOYEES' TELEPHONE SERVICE

A. General

Employees' Telephone Service is offered to all permanent, full-time employees at their listed permanent residence, when such service is provided by the Company.

B. Rates

1. All craft, clerical, and management personnel who reside within an area served by the Company shall be granted a 100 percent concession on local service. (T)
(T)
2. No concession for toll-message services is made to employees.

C. Conditions

1. Employees' Telephone Service at their residence is available to all permanent employees of the Company having at least three months' continuous service with the Company.
2. One primary listing may be provided in the name of the employee (except that the listing of a married woman may be in her or her husband's name).
3. Retired company employees who reside in exchanges operated by the Company shall receive Employee's Telephone Service at the same rate as at their time of retirement.
4. Services provided to employees other than as listed in B. Rates, above, will be provided at regularly filed tariff rates.

CUSTOM CALLING SERVICES

A. General

Custom Calling Services are optional services offered in addition to regular exchange service to those customers served by central offices so arranged to provide such services. The number of Custom Calling Service features available depends upon the exchange central office providing the service and is subject to the availability of facilities.

(T)

(D)

(D)

B. Service Descriptions

(T)

1. **Call Forwarding**

This service redirects incoming calls to another telephone number. The customer can activate this service by dialing a code and entering the number to which calls should be forwarded. When activated, all calls that are forwarded when the line is idle cause a short ring on the forwarded line as a reminder that the service is active. To deactivate Call Forward, a customer must dial a special access code. All calls forwarded are subject to transmission limitations and all applicable local and long distance charges.

(T)

This service is available on a flat monthly rate and a pay-per-use basis. Pay-per-use Call Forwarding will have a per activation rate and a monthly price cap. After the monthly price cap has been reached, each activation thereafter will be at no charge.

(N)

(N)

2. **Call Forward - Busy (Customer Programmable)**

(T)

This service routes incoming calls to another telephone number when the customer's dedicated number is busy. The customer can activate this service by dialing a code and entering the number to which calls should be forwarded. To deactivate Call Forward - Busy, a customer must dial a special access code. All calls forwarded with this service are subject to transmission limitations and all applicable local and long distance charges.

CUSTOM CALLING SERVICE (Continued)

B. Service Descriptions (Continued)

- (T)
(D)
3. **Call Forward - No Answer (Customer Programmable)** (M) (T)
This service redirects incoming calls not answered after a predetermined number of rings to another telephone number. The number of rings is determined and set by the Company unless otherwise specified by the customer. The customer can activate this service by dialing a code and entering the number to which calls should be forwarded. To deactivate Call Forward - No Answer, a customer must dial a special access code. All calls forwarded are subject to transmission limitations and all applicable local and long distance charges. (M) (T)
4. **Call Forwarding - Remote Access** (T)
This service is an additive to Call Forwarding and allows the customer to activate and deactivate Call Forwarding from a telephone in another location. All calls forwarded are subject to transmission limitations and all applicable local and long distance charges. (T)
5. **Call Hold** (T)
This service allows a customer to place a current caller on hold, which frees the line so the customer can initiate another call. To activate Call Hold, the customer depresses the switchhook to receive a dial tone and then dials a specific code. Only one call per access line can be placed on hold at a time. The held call cannot be added to another call, however, the customer can toggle between each call.
6. **3-Way Calling** (T)
This service allows a customer to add a third party to an existing telephone call. To add a third party, the customer depresses the switchhook once to place the current party on hold, receives a dial tone, dials the third party's number, and then depresses the switchhook again to establish the three-way connection. All 3-way calls are subject to transmission limitations and all applicable local and long distance charges.
- This service is available on a flat monthly rate and a pay-per-use basis. Pay-per-use 3-Way Calling will have a per activation rate and a monthly price cap. After the monthly price cap has been reached, each activation thereafter will be at no charge. (N)
(N)
7. **6-Way Calling** (T)
This service allows a customer to call up to five parties and establish a six-way conference call. To activate this service, the customer dials an access code, dials the desired telephone number (calling party must answer), depresses the switchhook to add the calling party to the line, then depresses the switchhook again to receive a new dial tone. If the called party line is busy or there is no answer, the customer must dial a special access code to drop the line. This process needs to be repeated until all parties (up to five) have been connected to the customer's line. All 6-Way Calls are subject to transmission limitations and all applicable local and long distance charges.

MISCELLANEOUS SERVICE ARRANGEMENTS

CUSTOM CALLING SERVICES (Continued)

B. Service Descriptions (Continued)

8. **Call Transfer¹**

This service allows the customer to hold and transfer incoming, out-going and intragroup calls. If the customer has established a three way call, this service will allow the customer to hang up while the other two parties remain connected. Any applicable long distance charges will apply for the duration of the call, even if the customer drops off the call.

(T)

9. **Call Waiting/Cancel Call Waiting**

This service alerts a customer who is on the phone that another local or long distance caller wants to get through the line. The customer will receive a tone signal to indicate another incoming call and the caller will receive the usual ringing tone. To place the first call on hold and answer the incoming call, the customer depresses the switchhook once. The customer can then toggle between both calls by depressing the switchhook. If the customer hangs up when a call is still on hold, the customer's line will automatically ring back.

Cancel Call Waiting allows a Call Waiting customer to deactivate the Call Waiting service by dialing a code. When this service is activated, the customer will not be interrupted by the Call Waiting tone and the incoming caller will receive a busy signal. Call Waiting will remain disabled for the rest of the call, but will be automatically restored upon call termination.

10. **Home Intercom - Basic**

This service allows customers to redial their own directory number in order to talk to another party at a different extension. To activate this service, customers redial their own directory number and then hang-up. After a short interval, the phone will ring back. Once both parties pick-up the phone, they will be able to have a two-way conversation. This service is also known as Revertive Ringing.

11. **Home Intercom - Enhanced**

This service allows customers to establish a talking path between two or more of their extensions. To activate this service, the customer dials one of the access code numbers predetermined by the Company, receives an announcement, and then hangs up the phone. The phone will ring back in one of the distinctive patterns, depending on the access code dialed. Also included in this package is dialable hold, where one extension can transfer an outside call to another extension.

(M)

(M)

¹ As of January 23, 2004, this service will no longer be available to new customers. Once current customers disconnect this service, they will not be able to reestablish it.

GENERAL EXCHANGE SERVICE TARIFF

MISCELLANEOUS SERVICE ARRANGEMENTS

CUSTOM CALLING SERVICES

B. Service Descriptions (Continued)

12. **Warm Line**
This service allows a call to be automatically placed to a pre-assigned number determined by the customer. The call will be placed once the customer's phone has been off-hook for a predetermined time-out period. The time-out period may be set at 1 to 14 seconds. During the time-out period the customer will receive a normal dial tone and can originate calls. Once the time-out period has expired, a call is automatically placed to the pre-assigned number as programmed by the Company.
13. **Hotline**
This service allows a call to be automatically placed to a pre-assigned number determined by the customer as soon as the customer's phone goes off-hook. The Company will program the pre-assigned number for the customer.
14. **Personal Ringing**
This service allows the customer to have up to four distinct telephone numbers on a single line. The second, third and fourth number will each have a distinctive ringing pattern so the customer can identify which number has been called. If a customer also subscribes to Call Waiting, each phone number will have a distinctive Call Waiting tone. If a customer also subscribes to Call Forward, the main directory number or all four telephone numbers can be forwarded.
15. **Speed Call 8**
This service allows the customer to keep a list of eight specified telephone numbers which can be dialed by using a one-digit (2 through 9) access code.
16. **Speed Call 30**
This service allows the customer to keep a list of 30 specified telephone numbers which can be dialed by using a two-digit (20 through 49) access code.

(M)

17. **Do-Not Disturb**
This service prevents incoming calls from ringing at the customer's premises. Callers will reach a recording which states that the number they have dialed is not accepting calls at this time and to try again later. A personal identification number (PIN) is available to allow selected callers the ability to override this service in order to reach the customer.
18. **Call Reminder**
This service allows a customer to program a time at which a reminder call is desired. At the programmed time, the customer will receive a call placed by the Central Office Equipment. When the call is answered, the customer will hear a tone or a Company recorded announcement.
19. **Toll Restriction**
This service enables customers to restrict all or a combination of 0+ and 1+ toll calls from being placed over their exchange lines/trunks. When a restricted call is attempted from a line/trunk equipped with this service, a dial tone or Company recorded announcement will be heard by the caller.
20. **Toll Restriction with PIN Override**
This service enables customers to restrict all or a combination of 0+ and 1+ toll calls from being placed over their exchange lines/trunks. In addition, the customer will have the ability to override the restriction on a per call basis by using a Personal Identification Number (PIN). To activate the override, the customer dials a code, the PIN, waits for a dial tone and then dials the toll number. When a restricted call is attempted without the PIN, from a line/trunk equipped with this service, a dial tone or Company recorded announcement will be heard by the caller.

21. **Call Transfer Enhanced**

This feature enables a customer to transfer multiple incoming or outbound calls to a third party with either a Screened Transfer or a Blind Transfer. A Screened Transfer enables the transferring party to announce a call to the third party prior to completing the transfer. If the third party chooses not to take the call, the transferring party may disconnect the third party and return to the caller. Otherwise, the transferring party may disconnect, completing the transfer and returning the line to an idle state. A Blind Transfer enables the transferring party to immediately disconnect after dialing the third party, prior to the third party answering the call. After disconnecting, the transferring party may either originate or receive a new call, even though the transferred call is still in progress. In addition, this feature enables a customer to establish a 3-way conference call while enabling any party (including the originator of the call) to drop out of the conference while leaving the other two parties connected. The customer is responsible for all applicable long distance charges for originating or terminating calls that will apply for the duration of the call, even if the customer drops off the call.

(T)

REMOTE CALL FORWARDING (Residence only)

APPROVED

(C)

A. General

1. Remote Call Forwarding is available only where Telephone Company facilities have been arranged for its provision. It is offered for use with residence service. (C)
2. Remote Call Forwarding (RCF) permits a customer in one exchange to arrange for calls made to a different telephone number in the same or different exchange (where RCF facilities are available) to be automatically forwarded and automatically billed to the customers station. This station to which calls are forwarded may be either local exchange service, foreign exchange service, or Inward Wide Area Telecommunications Service (800 Service).
3. Transmission characteristics may vary depending on the distance and routing necessary to complete the remote forwarded call.
4. Remote Call Forwarding is not represented as suitable for satisfactory transmission of data.
5. Remote Call Forwarding should not be offered as a feature at the customers station.
6. The Telephone Company will not provide identification of the originating telephone number to the Remote Call Forwarding customer.
7. Remote Call Forwarding is provided on the condition that the customer subscribe to sufficient RCF features and facilities to adequately handle calls to the RCF customer without interfering with or impairing any services offered by the Telephone Company. If in the opinion of the Telephone Company, additional Remote Call Forwarding features at the call forwarding location or facilities at the customer's station are needed, the customer will be required to subscribe for such additional RCF features and facilities. In the event the customer refuses to subscribe for such additional RCF features and facilities, said customer's RCF service shall be subject to termination.
8. One listing in the alphabetical and classified sections of the directory covering the exchange in which the call forwarding central office is located, is provided without additional charge.

REMOTE CALL FORWARDING (Residence only) (continued)

(C)

B. Rates

The following charges are for Remote Call Forwarding only and are in addition to applicable charges for service and equipment with which they are used.

	Rate per Month	Trans Code	(C)
	<u>Residence</u>		(C)
1. Remote Call Forwarding (RCF)	\$16.00		
2. Change of number at the customer's request.			
a. At the Remote Call Forwarding location.			(C)
b. To which calls are forwarded.			(C)
c. At both locations, at the same time.			(C)

C. Conditions

1. The calling party who places a call to a Remote Call forwarding telephone number is responsible for any charges between the originating location and the RCF telephone number, except for a long distance collect call which is accepted by the RCF customer.
2. The Remote Call Forwarding customer is responsible for the charges between the RCF telephone number and the terminating station. On long distance calls, the applicable rate is the customer dialed station to-station rate as indicated in this Company's intrastate or interstate Message Telecommunications Service tariffs. If the terminating station is Inward Wide Area Telecommunications Service (800 Service) the appropriate charges for usage as indicated in this Company's intrastate or interstate WATS tariffs apply. These charges apply to all calls answered at the customer's telephone, including person-to-person and collect calls, even though such calls might not be accepted at the answering location.

(1) Service Connection Charges, See Section 6.

TELEPHONE NUMBER REFERRAL SERVICE (Residence only)

(C)

A. General

1. When customers move to a new location outside the Telephone Company's service territory, the Company provides, without charge, a message that informs the caller to a disconnected number that the number has been disconnected or changed, and that the caller should consult the directory or call the operator.

Telephone Number Referral Service will provide a service to a residential customer whose telephone service is being disconnected and are moving to a new location outside the Company's service territory. Dialing the customer's former number results in a prerecorded message which announces the new number.

(C)

2. The charge applies to each 90-day increment of service that is requested by the customer.
3. Customers will be billed in advance for this service.

B. Rates

MISCELLANEOUS SERVICE ARRANGEMENTS

PER CALL BLOCKING/PER LINE BLOCKINGAPPROVED
ATTORNEY**A. GENERAL**

1. Customers may prevent the disclosure of their telephone number or directory name and number when placing calls to a party with service that reveals the calling party's number or name and number, by subscribing to either Per Call Blocking or Per Line Blocking.
2. Per Call Blocking and Per Line Blocking are provided according to the availability of facilities, features and central office equipment in locations determined by the Company. The features described will only operate on calls originating and terminating within suitably-equipped offices, or similarly equipped offices of interconnecting Local Exchange Companies.

B. DESCRIPTION

1. **Per Call Blocking**
Enables customers to prevent the disclosure of their telephone number or name and number on a per call basis to the called party. This disclosure of the calling party's number or name and number can be prevented on a per call basis by dialing *67 (1167 from a rotary phone) before making a call. This action must be repeated each time a call is made to prevent the disclosure of the calling party's telephone number or name and number. If the called party has a display device, a privacy indication will appear instead of the calling party's telephone number or name and number.

Per the FCC Caller ID Order, Per Call Blocking is provided to all customers at no charge.

Per Call Blocking will be provided on calls originating from paystations used by the general public and party lines.

2. **Per Line Blocking**
Enables customers to prevent the disclosure of their telephone number or name and number to the called party. Per Line Blocking is applicable on all outgoing calls placed from the customer's line. If the called party has a display device, a privacy indication will appear instead of the calling party's telephone number or name and number.

Per Line Blocking will be provided at no monthly charge on an optional basis to customers of non-published service.

P.U.C.O. NO. 8
GENERAL EXCHANGE SERVICE TARIFF**APPROVED**PER CALL BLOCKING/PER LINE BLOCKING

B. DESCRIPTION (Continued)

2. Per Line Blocking (Continued)

Per Line Blocking will be provided at no monthly charge on an optional basis to customers of non-published service.

Per Line Blocking will be available for subscription to all eligible customers at the rates in D. RATES AND CHARGES following.

Law enforcement, domestic shelters and other special agencies will be offered free per line blocking.

Per Line blocking can be deactivated by dialing *82 (1182 from a rotary phone) prior to placing the call. This will unblock number delivery for one call only.

C. REGULATIONS

1. Per Call Blocking will be provided to all eligible customers. Per Line Blocking will not be available to paystations and multi-party service customers.
2. Per Line Blocking will be provided when requested by the customer to all non-published service customers at no monthly charge. The customer must specify each line to be equipped with the specific blocking service desired. Customers subscribing to non-published service will be advised by Company personnel of the availability of Per Line Blocking.
3. Telemarketers are prohibited from blocking the disclosure of their telephone number when placing calls. Upon receiving complaints that a telemarketer is blocking the disclosure of its telephone number, the Company will investigate the complaints and terminate the number privacy service where appropriate.

(T)

ADVANCED CALLING SERVICES

APPROVED

A. GENERAL

1. The Company will offer Advanced Calling Services (ACS) to customers served by digital switches equipped with the new industry standard SS7 signaling protocol. These features are widely known as Custom Local Area Signaling Service (CLASS).
2. Advanced Calling Services (ACS) is comprised of a group of features described under B. which allows customers to efficiently manage the call flow generated over their Exchange Access Line(s). This management is possible only where the calling party's telephone number can be forwarded from the central office serving the called party. ACS features are optional services offered in addition to regular exchange service.
3. This ACS tariff is applicable to residence customers except Caller ID-Basic and Call Trace, which are applicable to nonresidential customers as well. Customers must be served by central offices where the Company has installed CLASS features and is furnished subject to the availability of facilities. Individual feature availability may differ by exchange. (C)
(C)
4. ACS features will be functional under the following conditions:
 - a. When both the originating customer and the call terminating customer are served by the same central office.
 - b. When both the call originating customer and the call terminating customer are served from different central offices equipped for ACS and are linked by appropriate facilities.
 - c. Where the calling party's data can be forwarded from the central office originating the call to the terminating central office serving the called party.
 - d. If offering Caller ID - Deluxe, the Calling Name will be displayed only where the appropriate facilities are available to provide a match of Calling Name to Calling Number.
- 4A. Advanced Calling Services (ACS) may be offered to customers for trial use for a period not to exceed ninety (90) days. The dates of offering and duration of trial use will be determined by the Telephone Company. During trial use, the recurring charge for ACS will not apply to customers participating in the trial use offering. This offering is limited to one-party lines which are not already equipped with ACS added. A customer may participate only once during each trial use offering period. Customer requests for ACS trial use will be subject to availability of facilities.

Requests for promotional offerings will be filed with the Public Utilities Commission of Ohio not less than ten days prior to the effective date.

P.U.C.O. NO. 8
LOCAL EXCHANGE SERVICE TARIFF**APPROVED**MISCELLANEOUS SERVICE ARRANGEMENTS

ADVANCED CALLING SERVICES

A. GENERAL (Continued)

5. The provision of ACS by the Telephone Company is subject to the availability of facilities and the requirements of the local network. In no event will the Telephone Company be liable for any losses or damages of any kind resulting from the unavailability or failure of its equipment or facilities unless caused by the gross negligence or willful misconduct of the Company. Nor will the Company be liable for losses or damages arising out of any act, omission or failure to perform by the Telephone Company, its employees or agents in connection with this service, unless caused by the gross negligence or willful misconduct of the Company, its employees or agents. The Telephone Company will not be responsible for calls that cannot be completed as a result of repair or maintenance difficulties on the Telephone Company facilities and equipment, nor on equipment provided by the customer.

Approval of the above tariff language by the P.U.C.O. does not constitute a determination by the Commission that the limitation of liability imposed by the Carrier should be upheld in a court of law. Approval by the Commission merely recognizes that since it is a court's responsibility to adjudicate negligence and consequence damage claims, it is also the court's responsibility to determine the validity of the exculpatory clause.

6. Non-recurring charges will not apply to ACS features.

7. Special Conditions for Caller ID:

- a) An originating caller's data may not be displayed at the called party under the following conditions:
- 1) The caller's data will not be displayed if the called party is off-hook. The called party must be on-hook to receive the caller's data. If the customer subscribes to both Call Waiting and Caller ID, and is on an existing call, a second incoming call information will not be displayed. Instead, the called party will receive the usual Call Waiting tone.
 - 2) The caller's data will not be displayed if the called party answers the incoming call during the first ring interval.
 - 3) Caller ID services cannot be provided with any distinctive ringing lines having a maximum silent interval duration that is not long enough to allow transmission of the data message.

7. Special Conditions for Caller ID (Continued)

a) Continued

- 4) Identification of names, specific stations or extensions served by a PBX or Key System is not possible. The main directory number of the PBX or Key System will be displayed.
- 5) Caller ID - Basic and Caller ID - Deluxe cannot be provided if the calling party is from a multi-party line. The called party will receive an "Unavailable" display.
- 6) The Caller's data will be unavailable if it is from another office that is not linked by appropriate facilities with the called party's office.
- 7) The calling party has activated blocking.
- 8) Caller ID services do not display a directory number or name and number (if available) for operator assisted calls, calls marked private by the originator or calls originating from Paystation and party line stations.
- 9) Caller ID services cannot be provided if the calling party is from a multi-party line. The called party will receive an "Unavailable" display.

b) The following special conditions apply to Caller ID services based on the FCC Caller ID Order effective 12/1/95:

- 1) If a customer dials a "1-800" or other Automatic Number Identification (ANI) Service number, the telephone number that they are calling from will be revealed to the called party through ANI technology. Even if the customer has per line blocking or has activated per call blocking, the 800 number party has the right to obtain this information through ANI.
- 2) ANI information may not be reused or resold for other purposes without a caller's consent, even where the called party has paid for the call.
- 3) Caller ID services are available on all long distance calls where technically feasible.
- 4) All calling data will be displayed to E911 through ANI technology, even if the customer has per line blocking or has activated per call blocking.
- 5) All calling data will be passed, even for customer who do not subscribe to Caller ID.
- 6) Per call blocking will be available to all customers. (The FCC Order overrules all state PUC/PSC decisions on Per call blocking.)

ADVANCED CALLING SERVICES

B. SERVICE DESCRIPTIONS

Advanced Calling Services are optional telephone service arrangements which provide one or more of the following features.

1. Anonymous Call Rejection

This service enables a subscriber to reject incoming calls from which a privacy indicator is received. The service is activated by dialing a unique code. When the service is active, the Telephone Company ("Company") will not complete calls to its customer when the calling party has activated Caller ID blocking services. Such calls will be routed to a Company recorded announcement.

2. Call Rejection

This service enables a subscriber to reject up to a maximum of six (6) preselected incoming telephone numbers from which he/she does not wish to receive calls. To select a telephone number, the subscriber dials a unique code and then constructs or modifies a telephone number screening list. To add an unknown telephone number to the list, a subscriber can activate a code immediately after receiving an unwanted incoming call. The Company's equipment will screen incoming calls against the subscriber's list and reject those on the list. Callers whose numbers are rejected are directed to a Company recorded announcement. If facilities are unavailable to provide incoming call screening via the subscriber's list, standard call completion will occur.

ADVANCED CALLING SERVICES

B. SERVICE DESCRIPTIONS (Continued)

3. Call Return

Enables the customer to automatically redial the telephone number of the most recent incoming call only, whether or not the call was answered. The Telephone Company's equipment will make repeated attempts to establish the call, for a thirty (30) minute period beginning with the customer's activation of Call Return, if the most recent incoming called telephone number is busy. After activation, the originating and terminating customers may place other calls without affecting the Call Return service status. The feature cannot be activated for calls originating from a line that is forwarded or from a line not associated with the telephone number, e.g., multiline hunting groups. The callbacks may be to areas where a toll charge would be applicable. If the most recent incoming call is blocked, the subscriber will get a Company recorded announcement indicating the number is a private number and the call cannot be returned. (Activation by *69 from a touchtone phone or 1169 from a rotary phone. Deactivation by *89 from a touchtone phone or 1189 from a rotary phone.)

Call Return is available on a per usage or flat rate basis. This service will have a per activation rate and a specified number of chargeable activations. After the specified number of chargeable activations, each activation thereafter will be at no charge. A pay-per-use activation is considered successful when the customer dials "1", after the announcement, to activate the service.

ADVANCED CALLING SERVICES

B. SERVICE DESCRIPTIONS (Continued)

4. Caller ID

Caller ID - Basic (Number Only) and Caller ID - Deluxe (Name and Number are the available services.

Caller ID - Basic

This service allows the subscribers, with the use of a display phone or adjunct display device, to view the directory number of an incoming call before answering. After the first ring to alert the customer of an incoming call, the central office switch will send the ten-digit directory number, along with the current date and time. The caller's number must be a non-blocked number from the same exchange or Host complex or part of the SS7 network, to have the number displayed. If the caller's number is not part of the SS7 network, is a multi-party line, or out of the area, the customer premise equipment will display an indicator of "unknown number". If the delivery of the directory number has been blocked by callers other than telemarketers, the customer premise equipment will display an indicator of "private number".

Caller ID - Deluxe

This service utilizes specific network capabilities, where technically feasible, to transmit the Name and Number associated with an incoming call to the called party's access line. The name and number of the incoming call is transmitted during the silent interval between the first and second ring of the called party's line. Caller ID - Deluxe subscribers must provide, and connect, their own compatible premises equipment in order to process the name and number transmission. The Company will forward all telephone numbers where technically feasible.

If a calling party has activated blocking or subscribes to per line blocking, the name and number will not be transmitted to the display equipment of a Caller ID - Deluxe subscriber. Instead, the Caller ID - Deluxe subscriber will receive a privacy indicator. This privacy indicator notifies the Caller ID - Deluxe subscriber that the calling party chose to block name and number delivery.

ADVANCED CALLING SERVICES

B. SERVICE DESCRIPTIONS (Continued)

5. Preferred Call Forwarding

This service enables the subscriber to forward up to a maximum of six (6) preselected incoming telephone numbers to another telephone number. To forward a telephone number, the subscriber dials an activation code and then constructs or modifies a telephone number screening list. The Company's equipment will screen incoming calls against the subscriber's list and forward only those telephone numbers on the list. Calls forwarded by this service are subject to all applicable local and long distance charges. These calls are also subject to transmission limitations.

6. Priority Ringing

This service allows the subscriber to provide up to a maximum of six (6) preselected incoming telephone numbers with a distinctive alerting signal or ring (or a distinctive Call Waiting tone if the subscriber has subscribed to Call Waiting), when the subscriber receives calls from them. To program a telephone number, the subscriber dials a unique code and then constructs or modifies a telephone number screening list. The Company's equipment will screen incoming calls against the subscriber's list and provide the Priority Ringing service for the preselected telephone numbers on the subscriber's list.

7. Repeat Dialing

Enables the customer to automatically redial the last outgoing telephone number dialed. When the re-called telephone number is busy, the Telephone Company's equipment will make repeated attempts to establish the call for a thirty (30) minute period beginning with the customer's activation. (Activation by *66 from a touchtone phone or 1166 from a rotary phone. Deactivation by *86 from a touchtone phone or 1186 from a rotary phone.) After activation, the originating and terminating customers may place other calls without affecting the Repeat Dialing service status.

7. Repeat Dialing (Continued)

Repeat Dialing is available on a per usage or flat rate basis. This service will have a per activation rate and a specified number of chargeable activations. After the specified number of chargeable activations, each activation thereafter will be at no charge. A pay-per-use activation is considered successful when the customer chooses to dial "1", after the announcement, to activate the service.

8. Special Call Acceptance

Enables a customer to designate a maximum of six (6) telephone numbers from which calls will be accepted. The customer can construct or modify a telephone number screening list by dialing a unique code. The Telephone Company equipment will screen incoming calls against the customer's list and complete calls from numbers on the customer's list. Calls from all other numbers will be routed to a recorded announcement. (Activation by *64 from a touchtone phone or 1164 from a rotary phone. Deactivation by *84 from a touchtone phone or 1184 from a rotary phone.)

9. Call Trace

Call Trace allows customers to request an automatic trace of the last call received by dialing *57 from a touchtone phone or 1157 from a rotary dial phone immediately following termination of the last incoming call. The customer will hear a recording explaining the charges and how to proceed with or terminate the trace. An announcement will also inform the customer if the trace has been successful and offers a number to call for further instructions. The Call Trace feature must be activated before receiving another call so that the correct number will be recorded. If the customer subscribed to Call Waiting and the customer gets a Call Waiting signal while an annoying call is in progress, the annoyance call cannot be traced using this feature. The results of a successful trace will only be released outside the Company to legally constituted authorities with proper authorization.

Call Trace will be offered on a subscription basis only.

C. RATES, PAY-PER-USE SERVICES AND DISCOUNTS

1. The rates and discounts apply to residential customers and are in addition to the established rates and charges for associated services. Caller ID-Basic and Call Trace rates also apply to nonresidential customers. (C)

2. Features rates:

a. Monthly rates, per feature, per line:

	Current Monthly Rate	Maximum Monthly Rate	Trans Code
1) Anonymous Call Rejection	\$2.75		ACSAC
2) Call Rejection	2.75		ACSRJ
3) Call Return	3.50		ACSRT
4) Caller ID-Basic (Number Only) *Tier 1 Core (residence and business)	7.00	7.00	ACSID
5) Preferred Call Forwarding	2.75		ACSPF
6) Priority Ringing	2.75		ACSPR
7) Repeat Dialing	3.50		ACSRP
8) Special Call Acceptance	2.75		ACSSC
9) Caller ID-Deluxe (Name and Number)	9.00		ACSUD

b. Pay-Per-Use Services

	Per Successful Activation	Monthly Cap	Trans Code	Activation Code	Deactivation Code
1) Call Return ¹	\$0.50	\$ 7.00	ACSRM	*69	*89
2) Repeat Dialing ¹	\$0.50	\$ 7.00	ACSDM	*66	*86
3) Call Trace ² * Tier 1 Non Core (residence and business)					
Current Rates	\$4.00	\$12.00	ACSCT	*57	N/A
Maximum Rates	\$8.00	\$24.00	ACSCT	*57	N/A

¹ At the request of a customer that does not subscribe to the service on a monthly basis, access to this service on a Pay-Per-Use basis may be blocked. Such blocking will be provided at no charge to the customer.

² Call Trace will be offered on a subscription basis to all customers within the local service area. The customer will incur a usage charge each time Call Trace is successfully activated.

* Rates for Tier 1 Core services are capped at current rates. Rates for Tier 1 Non-Core services are capped at current rates until 09/10/09. After 09/10/09, Tier 1 Non-Core rates can be increased to a maximum cap of double the initial rate, other than the second local exchange access line and call waiting, which are limited to a ten percent increase per year until they cap at double the initial rate. This pricing flexibility is in accordance with O.A.C. 4901:1-4 and Alt Reg Case No. 07-847-TP-ALT, effective 09/10/07.

INTEGRATED SERVICES DIGITAL NETWORK SERVICE
BASIC RATE INTERFACE (residence only)

(C)

A. GENERAL

APPROVED

Integrated Services Digital Network (ISDN) describes the end-to-end digital telecommunications network architecture which provides for the simultaneous access, transmission and switching of voice, data, and video services. These functions are provided via channelized transport facilities. The ISDN architecture consists of digital switching systems which connect Basic Rate Interface (BRI) lines to their serving central office. Caller ID - Number is included with this service.

BRI is an optional service arrangement which can be used in conjunction with a residential customer's Individual Line service. It uses the ISDN architecture to provide the customer with the capabilities of simultaneous access, transmission, and switching of voice, data, and video services via channelized transport. In addition, BRI provides the customer with access to Circuit Switched Voice (CSV) Service, Circuit Switched Data (CSD) Service, and Packet Switched Data Service.

(C)

(C)

A BRI arrangement obtains its capabilities from a properly equipped telephone company central office switch. The BRI arrangement may consist of up to two "B" channels and one "D" channel (2B+D).

"B" Channel: The "B" Channel is a bi-directional synchronous channel capable of supporting 64 kilobit per second (kbps) of digital transmission of information between users. The "B" Channel will be configured to offer voice service, data service or voice/data service. One Primary Directory Number with one Primary Directory Listing for the first "B" Channel ISDN Service line is provided. Additional listings may be provided as specified for Additional Listing Service in the Directory Listings section of this Company's tariff.

"D" Channel: The "D" Channel is a 16 kbps digital signaling channel that carries signaling and control for the "B" channel and has maximum packet transmission throughput of 9.6 kbps.

All ISDN Service lines consist of central office facilities, including the outside plant facilities, extended from the Company's switching equipment to the customer's demarcation point.

MISCELLANEOUS SERVICE ARRANGEMENTS

INTEGRATED SERVICES DIGITAL NETWORK SERVICE- BASIC RATE INTERFACE**A. GENERAL (Continued)**

ISDN Service is provided at the option of the Company, and is furnished subject to central office switching capacity and the availability of outside plant facilities. The availability, functionality and capabilities of the ISDN Service features may vary, or may not be available dependent upon type of serving central office switch, related software controlling that switch and associated outside plant.

The Company shall not be responsible if changes in any of the equipment, operations, or procedures of the Company utilized in the provision of ISDN Service render any facilities provided by the customer obsolete or require modification or alteration of such customer's equipment or systems, or otherwise affect its use or performance.

B. SERVICE DESCRIPTION

CIRCUIT SWITCHING - Circuit Switching is a switching technique in which an entire circuit or, in a digital switch equipped for ISDN, a specific selection of time slots is dedicated to a given call. Circuit Switched Service provides the ability to originate and receive circuit switched voice, data and voice/data calls over a 64 kbps "B" channel. The customer may choose among the following Circuit Switched features based upon application needs.

(1) **Electronic Key Telephone Service (EKTS) Features:** Electronic Key Features provide the customer with the ability to access the following features where available:

- (a) **Multiple Call Appearances of a Directory Number** - An arrangement that allows the user to have appearances of the directory number assigned to the customer-provided set, providing the capability of multiple incoming or outgoing calls associated with that directory number. Multiple incoming calls to this directory number or secondary telephone number (if purchased) can be terminated to the telephone if one or more idle calls appearances are available to accept the calls. In certain central offices, this arrangement may impact the use of the Shared Call Appearance feature.

- (1) **Electronic Key Telephone Service (EKTS) Features:** (Continued)
- (b) **Shared Call Appearances of a Directory Number** - An arrangement that allows a directory number(s) from one customer-provided set to appear as a call appearance(s) on the customer-provided sets of other users. Bridging, an arrangement that allows the user to connect onto a currently active call, is included.
 - (c) **Analog Line Pickups** - An arrangement that allows an ISDN set to provide coverage for an analog number(s). This arrangement is limited to analog numbers that are terminated in the same central office switch. This feature may limit the use of other features and/or functionality on the analog line. Bridging, an arrangement that allows the analog user to connect onto a currently active call, is included.
 - (d) **Privacy Release (Automatic Exclusion)** - An arrangement that allows a customer to specify that no other user can bridge onto an existing call(s). On a call by call basis, this feature can be disabled to allow bridging to occur.
 - (e) **Manual Exclusion (Privacy)** - An arrangement (opposite of Privacy Release) that allows the customer to restrict other stations from picking up an existing call on hold or bridging onto an existing call that is active at that station.
 - (f) **Intercom Calling** - An arrangement that allows for ISDN station-to-station calls.
 - (g) **Bridging** - An arrangement that allows the user to join an active call by pressing the active call appearance button. Bridging is inhibited if Manual Exclusion is activated on the terminal engaged in the active call.
- (2) **Secondary Telephone Numbers** - An arrangement that allows a customer-provided set to have access to an additional telephone number(s). The additional telephone number(s), or Secondary Telephone Number(s), may originate or receive calls independent of the customer-provided set's Primary Directory Telephone Number.

- (3) **Clear Channel Capability** - A characteristic of the transmission paths on the "B" channel that allows the full bandwidth on the "B" channel, 64 kbps, to be available to the customer. However, ISDN interconnection to non-ISDN equipped central offices will be potentially subjected to analog transmission or sub-rated to 56 kbps.
- (4) **Custom Calling Services** - Available at rates and charges specified elsewhere in the Custom Calling Services section of this tariff. Custom Calling Service features found specifically in this ISDN tariff will be charged for at rates found on the ISDN Rate Schedule.

Call Hold, Drop and Transfer -

Call Hold - Allows the user to place a call on hold by pressing a programmed button on a customer-provided set.

Call Drop - This central office based feature allows the user to disconnect the last party added to a conference call.

Call Transfer - This feature allows the user to transfer a call to another directory number. This feature is for use with Circuit Switched voice only.

- (5) **Advanced Calling Services** - Available at rates and charges specified elsewhere in the Advanced Calling Services section of this tariff. Advanced Calling Service features found specifically in this ISDN tariff will be charged for at rates found on the ISDN Rate Schedule.

Caller Identification - Deluxe - An Advanced Calling Service feature that provides the caller's name and number to be displayed on properly equipped customer-provided equipment (where available).

Caller Identification - Basic - An Advanced Calling Service feature that provides the caller's telephone number to be displayed on properly equipped customer-provided equipment (where available).

MISCELLANEOUS SERVICE ARRANGEMENTS

APPROVED**INTEGRATED SERVICES DIGITAL NETWORK SERVICE- BASIC RATE INTERFACE****B. SERVICE DESCRIPTION (Continued)**

ALTERNATE CIRCUIT SWITCHED VOICE SERVICE/CIRCUIT SWITCHED DATA SERVICE- Alternate Circuit Switched Voice Service/Circuit Switched Data Service provides the ability to originate and receive either Circuit Switched Voice calls or Circuit Switched Data calls over a single "B" channel but not simultaneously. This arrangement is available where technology permits. The features applicable to Circuit Switching Service are also applicable to this service.

C. INTRASWITCH PACKET SWITCHED DATA "D" CHANNEL SERVICE

Packet Switching is a technique in which packets of data are individually addressed and combined on a transmission path with other addressed packets. Packet Switched Data "D" Channel Service provides the ability to originate and receive X.25 packet data calls on an intraswitch basis. This arrangement provides a maximum throughput of 9.6kbps. Each "D" channel packet terminal will provide logical channel up to the technical capabilities of the serving central office. Multiple packet calls can be active simultaneously by a user on a single "D" channel. Up to eight data terminals can be supported per Basic Rate Interface. Service includes one data telephone number.

- (1) **Flow Control Parameter Negotiation** - An arrangement that permits negotiation on per call basis of the flow control parameters. This feature automatically negotiates the maximum packet size and window size for each direction of data transmission. This can be presubscribed (fixed) or it can be established on a per call basis.
- (2) **Throughput Class Negotiation** - An arrangement that allows the calling data terminal to request specific throughput classes (bits/second) in the call request packet for both directions of data transmission.
- (3) **Logical Channels** - An arrangement that is a virtual circuit, offering multiple logical connections at the packet level of X.25. ISDN packet data service offers the ability to send and/or receive packet data calls on separate logical channels within one ISDN "D" channel. The logical channels can be assigned as permanent virtual circuits, incoming only, outgoing only, or two-way (incoming and outgoing).

MISCELLANEOUS SERVICE ARRANGEMENTS

INTEGRATED SERVICES DIGITAL NETWORK SERVICE- BASIC RATE INTERFACE**C. INTRASWITCH PACKET SWITCHED DATA "D" CHANNEL SERVICE (Continued)**

- (4) **Incoming Calls Barred** - An arrangement that prohibits a data terminal from terminating an incoming call.
- (5) **Outgoing Calls Barred** - An arrangement that prohibits a data terminal from originating outgoing calls.
- (6) **Closed User Groups** - An arrangement that allows ISDN users to establish subnetworks of ISDN packet switching data users from which members can communicate with each other. The Closed User Group is established on a per line basis. The first member of a Closed User Group is included. Additional members are charged at the rate established in the rate schedule. Each data terminal in a Closed User Group can be arranged in one of the following modes:
 - (a) **Closed User Group with Outgoing Access** - The data terminal makes outgoing calls only.
 - (b) **Closed User Group with Incoming Access** - The data terminal receives incoming calls only.
 - (c) **Incoming Calls Barred Within a Closed User Group** - The data terminal makes outgoing calls only to the data terminal in the Closed User Group with which it is associated.
 - (d) **Outgoing Calls Barred Within a Closed User Group** - The data terminal receives incoming calls only to the data terminals in the Closed User Group with which it is associated.
 - (e) **Unrestricted Access** - The data terminal receives and makes both incoming and outgoing calls.
- (7) **Fast Select** - An arrangement that allows a sending data terminal to forward up to 128 bytes of data along with the call setup and clearing packets.
- (8) **Fast Select Acceptance** - An arrangement that allows the switch to transmit incoming call packets with the Fast Select facility to a destination terminal that has this feature.

P.U.C.O. NO. 8
LOCAL EXCHANGE SERVICE TARIFF

MISCELLANEOUS SERVICE ARRANGEMENTS

APPROVED**INTEGRATED SERVICES DIGITAL NETWORK SERVICE- BASIC RATE INTERFACE****D. TRANSMISSION SPECIFICATIONS**

The Standard Transmission parameters for an ISDN Service line utilizing an ISDN Basic Rate Interface (BRI) consists of: A maximum of 38.5db loop loss at a 40Kz test tone terminate into a 135 ohm impedance. The 38.5db loss includes all central office facilities, outside plant facilities and inside wiring.

E. CUSTOMER PREMISE EQUIPMENT AND FACILITIES:

The customer is responsible for providing compatible premises equipment in order to utilize the ISDN offering. All customer-provided equipment used to interface with ISDN Service is required to conform with the Technical Reference Specification as used by the Company and is found in the following Technical References:

<u>Subject</u>	<u>Technical Reference</u>	<u>Voice Contact Available</u>
Basic Rate Interface	AT&T 235-900-341	1-800-432-6600
Customer Premises Planning Guide	AT&T 533-700-100	1-800-432-6600

The Company shall not be responsible if changes in any of the equipment, operations, or procedures of the Company utilized in the provision of ISDN Service render any facilities provided by the customer obsolete or require modification or alternation of such equipment or system, or otherwise affect its use or performance.

F. SPECIAL CONSTRUCTION

An average amount of entrance and distribution facilities may be furnished by the Company provided the facilities are of the standard type normally furnished for the particular location or kind of service. If additional entrance or distribution facilities are required; if the conditions are such as to require special equipment; if the installation is for temporary or semi-permanent purpose or if for any other reason the construction costs are excessive, the applicant shall be required to pay the costs over and above those applicable for a normal installation. Each special construction situation will be evaluated on an individual case basis.

SPECIAL SERVICE AND FACILITIES (Residence only)

(C)

A. General

Special service and facilities, not ordinarily used in the furnishing of telephone service and not otherwise mentioned in, provided for or contemplated by the tariff schedules of the Telephone Company, may be furnished or leased pursuant to special contract for such special service or facility for such period as may be agreed upon, not to exceed one year, provided such special service or facility or the use made thereof is not unlawful and does not interfere with the telephone service furnished by the Telephone Company. In the event any such special service or facility or the use made thereof interferes with the furnishing of the telephone service by the Telephone Company, the Telephone Company may terminate such contract and cease to furnish such special service or facility after thirty days written notice to the subscriber; and provided further that the Commission may terminate such contract whenever, in its opinion public interest requires such termination.

N11 SERVICES

A. General

In compliance with FCC Order 00-256 in CC Docket 92-105 and subsequent orders, N11 Service ("N11") establishes a three-digit local dialing arrangement in the Central Office that automatically transfers "N11" calls to another pre-programmed telephone number (point-to-number) determined by the N11 Subscriber.

B. Definitions

The Federal Communications Commission (FCC) administers the N11 codes, and has nationally assigned 211, 311, 511, 711, and 811 to the following special services.

"211"

211 is assigned for community information and referral services.

"311"

311 is assigned for non-emergency police and other governmental information.

"511"

511 is assigned for traffic and transportation information.

"711"

711 is assigned for access to Telecommunications Relay Service (TRS).

"811"

811 is assigned for state One Call Services for providing advance notice of excavation activities to underground facility operators.

C. Conditions and Limitations

1. Requests for utilization of the N11 dialing code will be provisioned only to those entities who have been granted authorization to use the N11 dialing code by the state regulatory authority, consistent with applicable state law for the assignment of the N11 code.
2. Only one 7 digit or 10 digit or 800 toll-free number may be used as the lead number per basic local calling area.
3. Directory listings may be provided for N11 under the terms, conditions, and rates specified in section 5 of this Tariff.

MISCELLANEOUS SERVICE ARRANGEMENTS

N11 SERVICES (Cont'd)

APPROVED

C. Conditions and Limitations (Cont'd)

4. Access to N11 is not available to the following classes of service:

- 1+
- 0+, 0-(credit card, third-party billing, collect calls)
- 101XXXX

In addition, operator assisted calls to the N11 Subscriber will not be completed.

5. Suspension of N11 Service is not allowed.
6. The N11 Subscriber will subscribe to adequate telephone facilities initially and subsequently as may be required to adequately handle calls to N11 without impairing the Company's general telephone service or telephone plant.
7. The Company will provide both oral and written notification when a N11 Subscriber's service unreasonably interferes with or impairs other services rendered to the public by the Company or by other Subscribers of N11. The Company reserves the right once notification is made to institute protective measures up to and including termination at any time and without further notice. The Company may take protective measures when the N11 Subscriber make no modification or is unwilling to accept modification in method of operation, or continues to cause service impairments.
8. Calls to N11 will be delivered over existing facilities. If the N11 Subscriber requires different facilities or services; the terms, conditions, and rates for those services found elsewhere in this tariff will apply.
9. N11 Service does not provide calling number information in real time to the N11 Subscriber. If the N11 Subscriber needs this type of information, the Subscriber must subscribe to a compatible Caller Identification Service as specified elsewhere.
10. The Company will provision the Subscriber's order within a reasonable time, given the complexity of the order. The N11 Subscriber will be billed the charges when the service is provisioned by the Company.

If the N11 Subscriber cancels the order or decides to discontinue service, the N11 code will be recalled and the number will be considered available for reassignment. Any non-recurring charges associated with the establishment of service may not be refunded or waived.

N11 SERVICES (Cont'd)

C. Conditions and Limitations(Cont'd)

11. If the point-to number provided by the N11 Subscriber is disconnected, the Company will route the N11 call to a pre-recorded announcement for 60 days. The announcement will advise the N11 caller that the service is not available.
12. The Company only provides N11 dialing to its own customers. The N11 Subscriber should work separately with other providers of telecommunication services for the arrangement of N11 to their customers.
13. The N11 Subscriber is responsible for obtaining all necessary permission, licenses, written consents, waivers and releases, and all other rights from all persons whose work, statements or performances are used in connection with the service, and from all holders of copyrights, trademarks, and patents used in connection with said service.
14. The N11 Subscriber is restricted from selling or transferring the N11 code to an unaffiliated entity, either directly or indirectly.
15. The N11 Subscriber shall abide by all terms and conditions, which may be identified by the FCC in CC Docket 92-105 or subsequent dockets regarding the use and return of the N11 dialing code. The N11 Subscriber will be required to migrate to any access arrangement offered in the Company's tariff within the required notice period. If a recall is ordered, the company will work with the N11 Subscriber affected by such recall to transfer their service arrangements within the required notice period. The N11 Subscriber will be charged the appropriate tariff rates for the establishment of the new access arrangement.
16. The N11 Subscriber, will be liable for, and will indemnify, protect, defend and save harmless the Company against all suits, actions, claims, demands and judgments, and of all costs, expenses and counsel fees incurred on account thereof, arising out of and resulting directly or indirectly from the service or in connection therewith, including but not limited to, any loss, damage, expense or liability resulting from any infringement or claim of infringement, or any patent, trademark, copyright, or resulting from any claim of liable and slander.
17. The N11 subscriber will respond promptly to any and all complaints lodged with any regulatory authority against any service provided via N11. If requested by the Company, the N11 subscriber will assist the Company in responding to complaints made to the Company concerning the subscriber's N11 service.

MISCELLANEOUS SERVICE ARRANGEMENTS

N11 SERVICES

C. Conditions and Limitations (Cont'd)

18. The Company may take all legal and practical steps to disassociate itself from N11 Subscribers whose business and/or public conduct (whether demonstrated or proposed) is of a type that in the Company's discretion generates unacceptable levels of complaints by end users.
19. The Company will not be responsible for calls that cannot be completed as a result of repair or maintenance difficulties in Company facilities and equipment or on equipment owned or leased by the Subscriber.
20. The Company, its employees, or its agents are not liable to any person for civil damages resulting from or caused by any act or omission in the development, design, installation, operation, maintenance, performance or provision of N11 service, except for willful or wanton misconduct.
21. This service will also be subject to the general regulations of the Company as listed in Section 2 of this tariff.
22. The Company will make every effort to route 8-1-1 calls to the appropriate calling center; however it will not be held responsible for routing mistakes and errors, interruptions of service, or intervening acts of nature that interfere with telephone service. The Company's obligation under 8-1-1 applies solely to the transmission of the call and ends upon call completion to the designated point-to number.

D. Rates and Charges - * Tier 1 Non-Core

(C)

N11 Subscribers will pay the normal tariffed charges for the local exchange access arrangements used for transporting and terminating messages at the N11 Subscriber's designated premises.

	Current Nonrecurring Charge	Maximum Nonrecurring Charge	(C)
1. Initial Set-up/Activation, Per Central Office Switch Translated or Changed	\$110.00	\$220.00	(C)
2. Change point-to number per Subscriber request Per central office	\$15.00	\$30.00	(C)

* Rates for Tier 1 Core services are capped at current rates. Rates for Tier 1 Non-Core services are capped at current rates until 09/10/09. After 09/10/09, Tier 1 Non-Core rates can be increased to a maximum cap of double the initial rate, other than the second local exchange access line and call waiting, which are limited to a ten percent increase per year until they cap at double the initial rate. This pricing flexibility is in accordance with O.A.C. 4901:1-4 and Alt Reg Case No. 07-847-TP-ALT, effective 09/10/07.

GENERAL EXCHANGE SERVICE TARIFF

SERVICE CONNECTION CHARGES

A. Definitions

1. Service Charge

A service charge consists of one or more of the following nonrecurring charges for work required due to subscriber request. The charges below are separately established in order to provide a reasonable basis for an equitable recovery of the costs incurred in the required operations.

- a. Service Order Charge - Applicable for receiving information and taking action in connection with a subscriber's or applicant's request. Service order charges are classified as either initial, subsequent or record.
- b. Premises Visit Charge - Applicable for a required trip to subscriber's premises in connection with establishment of service, rearrangement of service. (T)
- c. Central Office Work Charge - Applicable for testing and connecting functions required within the central office.
- d. Line Connection Charge - Applicable for work required due to a customer's service request on the circuit between the serving central office up to and including the protector on the customer's premises or on an outside circuit between premises or between locations on the same premises. (T)

A. **DEFINITIONS** (Continued)

1. **Service Charge** (Continued)

- e. **Restoration Charge** – Applicable for restoral of service following a temporary suspension of such service.
- f. **Miscellaneous Charges** – Applicable under a variety of circumstances. The charges usually consist of a combination of one or more service charges.
- g. **Returned Check Charge** – Applicable each time a customer's check returns from the bank because of non-sufficient funds.
- h. **Rearrangement/Repair Charge** – Applicable for work performed by the telephone company to move the protector, NID, or drop wire to a different location as requested by the customer, or to repair the protector or NID due to damage caused by the customer's neglect or abuse.

B. Application (Continued)

1. General (Continued)

b. Service charges are not applicable for:

- 1) Work functions which are not required due to the subscriber's request.
- 2) Normal maintenance and repair of the Company's service.
- 3) Company initiated orders, e.g., a number change required by a cutover or regrade, etc. Record orders issued for correction purposes.
- 4) Record orders issued for correction purposes.
- 5) Change or correction in name or billing address when there is no change in responsibility and no connection, disconnection, move or change in the service.
- 6) Change in telephone number or change or correction of directory listings made at the Company's initiative or at the subscriber's request when the change is required for continuation of satisfactory service or would aid in the identification of the subscriber's number.
- 7) Establishment of or changes to Custom Calling Services and Advance Calling Service. (N)
(N)

- c. No service charges other than termination charges apply for the disconnection, discontinuance or removal Out (O) and From (F) orders of service. Termination charges apply only as specified in Section 2.
- d. Charges specified in this section apply to services provided in conjunction with connecting companies, such as Enterprise and WATS access lines. The non-recurring charge applicable for the establishment of these services is the total of those non-recurring charges applicable from this section, plus those provided for in the connecting company tariff.

GENERAL EXCHANGE SERVICE TARIFF

SERVICE CONNECTION CHARGES

B. Application (Continued)

1. General (Continued)

- (D)
- e. The nonrecurring charge applicable for the establishment of foreign exchange service is the total of those nonrecurring charges applicable within the local and the foreign exchanges. (T)
- f. The combination of charges applicable for a move or change of service will not exceed the charges applicable for a new installation of that service. (T)
- g. Service charges do not apply for the reestablishment for the same subscriber of service at a location which has been destroyed or made untenable by fire, wind, or water. Service charges do apply for establishment of service at a new location for a temporary period, for establishment of service at a new and permanent location, or for reestablishment of service at the same location for other than the previous subscriber. (T)
- h. When all required service facilities are already in-place, a service charge does not apply for a subscriber to connect an item of customer-provided terminal equipment to that subscriber's existing service under the provisions of Part 68 of the FCC Rules and Regulations. If additional facilities are required or requested, the appropriate service charge(s) will apply. When all required service facilities are already in-place, a service ordering charge only will apply for service added or changed in connection with existing service. If additional services are required or requested, the appropriate service charge(s) will apply. (T)

GENERAL EXCHANGE SERVICE TARIFF

SERVICE CONNECTION CHARGES

B. Application (Continued)

1. General (Continued)

- i. Incorporated in this section is the assumption that the subscriber will allow the Company to complete the requested operations in a manner determined by the Company to be reasonable and efficient. When the subscriber insists, after thorough explanation by the Company of the additional charges which would be applicable, that the Company carry out additional or extraordinary work which would not otherwise be required to complete the desired operation, charges in addition to those applicable as specified in this section may be applied. Additional work operations such as premises visits made to deliver new telephone number designations or additional service orders processed to effect multiple completion dates requested by the subscriber will be charged for at the levels specified in paragraph C. Other activity necessitated by requests of the subscriber such as work during other than normal business hours will be charged for at levels not to exceed differential costs of labor and material. This provision in no way relieves the Company from the requirement of providing reasonable and efficient service at the charges specified in this Tariff.
- j. If the customer is known to be a credit risk to the Company, payment of service charges may be required before the work is begun. See Section 2.
- k. If an application for residential telephone service is accepted, the Company will offer the option of deferred payment arrangements on telephone installation charges. If the deferred option is chosen the installation charges shall be spread over a period of three (3) consecutive months. (N)

2. Service Order Charges

- a. A service order charge is applicable in addition to the appropriate premises visit or central office work charges. (N)

SERVICE CONNECTION CHARGES

B. Application (Continued)

2. Service Order Charges (Continued)

- b. Only one service order charge is applicable for all requests other than FX for the same subscriber made at one time for service at one premises. When the subscriber specifically requests multiple completion dates which would not normally be scheduled by the Company or when the request requires work on more than one premises of the subscriber, an appropriate service order charge is applicable for each completion date and/or each premises.

Note on FX requests: For requests for establishment of an FX line or trunk, one initial service order charge applies for each exchange (home and/or foreign) of this Company in which service order work is required.

- c. The initial service order charge is applicable for requests for:
- 1) Initial connection of service.
 - 2) Connection of additional central office lines, trunks, or line segments to an established service.
 - 3) Transfer of service involving a request for a final bill or, if a final bill is not requested, a refusal of the future customer to accept full responsibility for the former customer's account.
- d. The subsequent service order charge is applicable for requests for the following connections, additions, moves or changes to an established service.
- 1) Connection of on-premises line services. (T)
 - 2) Connection or establishment of additional services or lines other than central office lines, trunks or line segments. (T)

2. Service Order Charges (Continued)

d. (Continued)

- 3) Establishment of an additional, miscellaneous, nonlisted, or no address directory listing. (D)
- 4) Transfer of facilities from one building (mobile or otherwise) to another building of the same subscriber on the same premises to disconnection and connection of facilities involved in move of a building and reestablishment of service for the same subscriber on the same premises when there is no interruption of service other than that incident to the work involved. (T)
- 5) Number change or change of name or address in an established directory listing when the change is not required for continuation of satisfactory service or for correction of the Company's records. (T)
- 6) Change from business to residence or residence to business service. The charge for the class of service (business or residence) to which the subscriber's service is being converted is applicable. (T)

e. The record service order charge is applicable for the following customer requests.

- 1) When a service order is processed for the purpose of billing the customer for an item he has picked up at the business office.

3. Premises Visit Charge

- a. The premises visit charge is applicable if a premises visit is required to complete any requested work on the subscriber's premises except as provided in b. below.

GENERAL EXCHANGE SERVICE TARIFF

SERVICE CONNECTION CHARGES

B. Application (Continued)

3. Premises Visit Charge (Continued)

b. The premises visit charge does not apply for:

- 1) Removal of service. (T)
- 2) Number change on a local central office line or trunk except as provided in B.1.i.
- 3) Restoration of service.
- 4) Return trips to the same premises required due to time, or service limitations of the Company. (T)
- 5) See paragraph B.1.b.

- c. A premises visit charge applies for visits to each premises required due to the subscriber's request except that additional premises visit charges do not apply for visits to more than one premises of the same subscriber made due to the request made at one time if additional vehicular travel beyond the first premises is not required.
- d. A premises visit charge applies for each return visit to the subscriber's premises which is required due to requests of or limitations imposed by the subscriber. (See paragraph B.1.i.) (T)

4. Central Office Work Charge

- a. The central office work charge is applicable for work in the central office required in:
 - 1) Connection or reconnection of local exchange lines, FX lines, local private lines, local off-premises station line service, and local tie lines.

c. (Continued)

4) (Continued)

charge applies only for the exchange or central office area from which the foreign exchange service is furnished. Charges, if any, applicable to central office work in exchange(s) of other companies are those applicable for that company.

d. Central office work charges do not apply for:

- 1) Connection of circuits which do not require central office work.
- 2) Transfer of service when there is no lapse in service.
- 3) Work required in intermediate central offices through which interoffice trunks may be routed in order to connect service central offices.

5. Line Connection Charge

(T)

- a. The line connection charge is applicable for work required due to a customer's service request on the circuit between the serving central office up to and including the protector on the customer's premises or on an outside circuit between premises or between locations on the same premises. (T)

b. The line connection charge is not applicable for:

(T)

- 1) Disconnection or suspension of service.
- 2) Rearrangement or move of the line, drop wire, or outside circuit required for the continuation of satisfactory service.

SERVICE CONNECTION CHARGES

Service Connection charges for 4 or more nonresidential lines can be found in the company's catalog located at www.tdstelecom.com.

Customers have certain rights and responsibilities under the minimum Telephone Service Standards (Ohio Adm. Code 4901:1-5). These safe guards can be found in the appendix to Ohio Adm. Code 4901:1-5-03, which is entitled "Telephone Customer Rights and Responsibilities". These rights and responsibilities include complaint handling, ordering or changing service, service repair, payment of bills, and disconnection and reconnection of service.

C. Schedule of Charges

	Residence		Business	
	Current Rate	Max Rate	Current Rate	Max Rate
1. Service Order, per order**				
a. Initial Request:				
1 Access Line <u>*Tier 1 Core</u>	\$27.25	\$27.25	\$29.30	\$29.30
2-3 Access Lines <u>*Tier 1 Non-Core</u>	27.25	54.50	29.30	58.60
4 or more Access Lines	27.25	None		
b. Subsequent Requests:				
1 Access Line <u>*Tier 1 Core</u>	12.70	12.70	13.35	13.35
2-3 Access Lines <u>*Tier 1 Non-Core</u>	12.70	25.40	13.35	26.70
4 or more Access Lines	12.70	None		
2. Premises Visit, each visit				
a. 1 Access Line <u>*Tier 1 Core</u>	\$15.00	\$15.00	\$10.90	\$10.90
b. 2-3 Access Lines <u>*Tier 1 Non-Core</u>	15.00	30.00	10.90	21.80
c. 4 or more Access Lines	15.00	None		
3. Central Office Wiring, per line**				
a. 1 Access Line <u>*Tier 1 Core</u>	\$7.35	\$7.35	\$7.35	\$7.35
b. 2-3 Access Lines <u>*Tier 1 Non-Core</u>	7.35	14.70	7.35	14.70
c. 4 or more Access Lines	7.35	None		
4. Line Connection Charge, per line**				
a. 1 Access Line <u>*Tier 1 Core</u>	\$20.05	\$20.05	\$20.05	\$20.05
b. 2-3 Access Lines <u>*Tier 1 Non-Core</u>	20.05	40.10	20.05	40.10
c. 4 or more Access Lines	20.05	None		
5. Restoration of Service:				
a. 1 Access Line <u>*Tier 1 Core</u>	17.90	17.90	17.90	17.90
b. 2-3 Access Lines <u>*Tier 1 Non-Core</u>	17.90	35.80	17.90	35.80
c. 4 or more Access Lines	17.90	None		

* Note: Rates for Tier 1 Core services are capped at current rates. Rates for Tier 1 Non-Core services are capped at current rates until 09/10/09. After 09/10/09, Tier 1 Non-Core rates can be increased to a maximum cap of double the initial rate, other than the second local exchange access line and call waiting, which are limited to a ten percent increase per year until they cap at double the initial rate. This pricing flexibility is in accordance with O.A.C. 4901:1-4 and Alt Reg Case No. 07-847-TP-ALT, effective 09/10/07.

D. Service Connection Charge Waiver

APPROVED

Residential customers returning to TDS Telecom service will receive a waiver of all installation charges. In order to receive the waiver, customers must not have any outstanding charges from the Company.

The installation charges that will be waived for returning customers are marked (**) on the preceding page.

(N)

(N)

E. Miscellaneous Charges

1. Changes in Telephone Number

- a. For requests for changes in telephone number of central office lines or trunks; one subsequent service order charge plus, for each number changed, a central office work charge and a line connection charge, if appropriate, will apply.
- b. For changes in telephone number of other than central office lines or trunks, one subsequent service order charge and one premises visit charge, as appropriate, will apply plus \$5.00 per number changed.
- c. The above charges do not apply when, in the judgment of the Company, changes in telephone number are necessary for continuation of satisfactory service.

GENERAL EXCHANGE SERVICE TARIFF

SERVICE CONNECTION CHARGES

F. Restoration of Service (Continued)

2. When a customer's service has been disconnected in accordance with this Tariff and the service has been terminated through the completion of a Company out (O) service order, service will be reestablished only on the basis of an application for new service or an in (I) order and the service connection charges in paragraph C.1. through C.4. will apply (C) accordingly.
3. See Section 2, F.3.e.

G. Termination Charge

1. A termination charge determined in accordance with the provisions below applies when the subscriber terminates a service which bears a basic termination liability prior to the expiration of the initial service period specified for that service.
2. The basic termination liability and the initial service period are indicated in the section of this Tariff covering the service items to which they apply.
3. The applicable termination charge is determined by multiplying the basic termination liability by the fraction which the unexpired portion of the initial service period bears to the full initial service period.
4. When a subscriber discontinues one or more units of a group of the same item, the equipment latest installed shall be considered as the equipment first discontinued.
5. When a subscriber cancels an order for service carrying a basic termination liability prior to the establishment of that service, a termination charge applies equal to the cost incurred by the Company in the engineering, ordering and providing the equipment and disposing of it, less credit obtained through disposal; the termination charge in this event will not exceed the basic termination liability.

P.U.C.O. NO. 8

INTERCONNECTIONS WITH COMMUNICATIONS SYSTEMS
PROVIDED BY THE CUSTOMER

CUSTOMER-PROVIDED EQUIPMENT

A. General

1. Customer-provided equipment may be connected at the customer's premises to facilities of the Company for use with individual-line exchange service in compliance with FCC Docket No. 19528, as provided herein.
2. The General Regulations contained in Section 2 of this Tariff apply when the customer elects to provide his own equipment. In any instance where the Tariff of the Company conflicts with the effective order of the FCC, the FCC order will have precedence.
3. Responsibility of the Customer
 - a. A customer desiring to connect customer-provided equipment to the exchange and message toll network must make application to the Company. At the option of the Telephone Company, the following may be requested:
 - 1) The type and manufacture of each item of the equipment and the registration number and ringer equivalence of the registered equipment. (T)
 - 2) The number of access lines desired. (T)
 - b. Upon notification from the Company that the customer-provided equipment is causing or is likely to cause harm, the customer shall make such change as is necessary to remove such harm. Failure to make such change will result in disconnection of service until such change is completed to the satisfaction of the Company. (D)

INTERCONNECTIONS WITH COMMUNICATIONS SYSTEMS
PROVIDED BY THE CUSTOMER

CUSTOMER-PROVIDED EQUIPMENT (CONT'D)

(T)

A. General (Cont'd)

- d. The customer will be responsible for the payment of charges under maintenance of service charges for service calls by company employees to the customer's premises where a service difficulty or trouble report results from customer-provided equipment.
- e. The customer may be required, as a condition of service, to pay in full all sums due the Company including, but not limited to, installation charges, service connection charges, termination charges, minimum charges, reimbursement for loss or damage to Company facilities, and maintenance of service charges as may apply.
- f. An access-line customer must subscribe to, and be capable of providing operation for, sufficient quantities of access lines to provide adequate access to his customer-provided equipment in accordance with accepted communications industry standards.
- g. When a customer elects to connect his own equipment, he must provide all of the terminal equipment on the customer's side of the point of demarcation.
- h. Use of Company facilities or service in connection with any device for recorded public announcements is subject to the following conditions:
 - 1) For purposes of identification, customers to telephone service who transmit recorded public announcements over facilities provided by the Company must include in the recorded message the name of the organization or individual responsible for the service and the address at which the service is provided.
 - 2) Customers transmitting factual public announcements such as time, stock market quotations, airline schedules and similar information are excluded from the preceding condition.

(T)

CUSTOMER-PROVIDED EQUIPMENT (CONT'D)

(T)

A. General (Cont'd)

h. (Cont'd)

- 3) Nonpublished telephone service will not be furnished for use with recorded public announcements.
- 4) Failure to comply with the provisions of this Tariff shall be cause for termination of the service.

4. Responsibility of the Company

- a. The technical criteria relative to provision of customer-provided systems and equipment is as set forth in the tariffs on file by the AT&T Company with the FCC in which this Company concurs.
- b. The Company shall not be responsible to the customer for changes in the technical criteria or in any of the facilities, operations or procedures initiated by the Company or appropriate regulatory agencies which might render any customer-provided equipment obsolete or require modification or alteration of such equipment or otherwise affect its use or performance. The Company will make a reasonable effort to notify a customer in advance of changes in technical criteria, operations or procedures which might affect customer-provided equipment or systems.
- c. The Company shall not be responsible for the installation, operation or maintenance of any customer-provided communications systems or equipment.
- d. The Company will not provide systems or equipment beyond the point of demarcation.

CUSTOMER-PROVIDED EQUIPMENT (Cont'd)

B. Access Services

1. General

- a. Customers providing their own communications systems or telephone stations must subscribe to access services as a means of connection to the Company's switching network. Access services will be that customer's sole means of connection to the Company's switching network and cannot be combined with any other exchange service. Access services are available as specified in Section 4 of this tariff.
- b. Customers to access services may place calls to any location within the "local" calling area without additional charge. Local calling areas for each exchange are shown in the Company's filed Tariff. Calls by access-service customers to any point outside of their respective local calling area will be charged at the appropriate message toll charges.

CONCURRENCE – Residence Foreign Exchange Telephone Service

APPROVED

- A. Continental Telephone Company concurs in the same rates and charges governing Foreign Exchange Telephone Service for residential customers, as applied by the Ohio Bell Telephone Company in the state of Ohio. (C)
- B. Continental Telephone Company extends this Concurrence to any and all changes which may be made subsequent to this date by the Ohio Bell Telephone Company.
- C. Continental Telephone Company hereby expressly reserves the right to cancel and make void this Statement of Concurrence at any and such time as it appears to be in the best interest of the Company.
- D. This Concurrence supersedes and cancels all previous schedules of rates and charges or Concurrences issued by the Company or its predecessors.
